## Financial challenges

Anonymous

**Name for posting:** Anonymous

**Relationships to EWU:** student

**Additional information:** Studying at Home, Hispanic

**Your experience during COVID-19:** It has been difficult trying to stay afloat financially while surviving Covid. I lost my job and had to live with my parents while I pay for college through my savings. Class wise it's kind a advantage since I have a room to myself and I get to really focus on my work that means I get to go at my own pace and won't worry about rushing anything really.
