Love rocks

Diana LeBlanc

Name for posting: Diana LeBlanc

Relationships to EWU: staff

Additional information: I am a social worker and currently direct the Child Welfare Training & Advancement Program for EWU's School of Social Work. I work for Eastern on the west side of the state. I'm in my 16h year with EWU.

Your experience during COVID-19: Not only has the pandemic been stressful, but also the social and political unrest. In the darkest days, I found focusing on "love" as a universal truth helped me through. I painted rocks with "love" on them and hid them for people to find (painting and hiding rocks is a "thing" in 2020-2021).
