NOAH DAVID SHOWALTER ..................President
Graduate Lewiston Normal School, Idaho; A. B., A. M. Washington State College; graduate student University of Idaho, Columbia University and Leland Stanford Junior University. Instructor in rural, graded and high schools; city and county superintendent. Head Department of Rural Education, 1909-1911. President, 1911-

LOUISE ANDERSON ..................Domestic Science
Graduate State Normal School, Cheney; B. S. University of Washington; student, University of California. Teacher in graded schools. At Cheney since 1914. Department of Applied Sciences and Arts.

ROBERT DODGE BALDWIN ..................Education
A. B., Princeton University; A. M., Columbia University; graduate student Leland Stanford Junior University. High school instructor and principal of county union school; Young Men's Christian Association Boys' Secretary. At Cheney since 1917. Department of Education.
DAVID ALEXANDER BARBER..................................Education
Graduate Ferris Institute; graduate Central Michigan Normal College; A. B., A. M., University of Washington; graduate student University of Chicago. Rural, graded and high school work; city superintendent. At Cheney since 1923. Department of Education.

MARY EMELINE BARTON..................................Library
Ph. B., Grand Prairie Seminary; library course, Simmons College. Student of Miss Warren, Chicago. At Cheney since 1911. Department of History and Social Science.

ADA LOUISE BELL........................................Voice
Graduate Vocal Department, Trinity University; pupil of Mme. Santus, George Sweet, Mme. Johanna Hess-Burr, Richard Lone and Franz Proschowsky; studied oratorio with Dr. Charles Allum; lyric diction with Dora Duty Jones and coached with Mme. Nikisch. At Cheney since 1921. Department of Music and Dramatic Art.

JULIAN EUGENE BUCHANAN...........Director of Summer School
B. S., University of Michigan; A. M., Harvard University; graduate student University of California; teacher in rural and graded schools; instructor and principal in high schools. At Cheney since 1901. Department of Science and Mathematics.

GEORGE EDWARD CRAIG.....................Rural Education
Four-year diploma State Normal School, Cheney; A. B., Leland Stanford Junior University; student, Washington State College and Columbia University. Teacher in rural and graded schools; principal high school; city and county superintendent. At Cheney since 1912. Department of Education.

EDWARD LAMONT DALES..........................Manual Arts
Graduate Normal Industrial School, Ellendale, N. D.; fouryear diploma, State Normal School, Cheney; A. B., University of Wisconsin; student Stout Institute, Jenkins' Institute, University of California. Teacher in graded school; instructor in high school. At Cheney since 1917. Department of Applied Sciences and Arts.

FLORA E. DAVIDSON..........................Health Education
Graduate Missouri State Normal School, Warrensburg; B. S., University of Missouri. Teacher in rural and graded schools; principal high school; instructor in the teacher-training department. At Cheney since 1921. Department of Education.
MARY VIRGINIA DICKINSON .........................French
Graduate State Normal School, Oshkosh; A.B., University of Wisconsin; graduate student University of Wisconsin. Supervisor in the training departments of normal schools; head of French Department and teacher of English in normal schools. At Cheney since 1921. Department of Language and Literature.

JEANNETTE S. DONALDSON .........................Education
Graduate State Normal School, Cheney; A.B., University of Washington; A.M., Columbia University. Teacher in rural and graded schools; county superintendent. At Cheney since 1919. Department of Education.

CECIL PEARL DRYDEN .........................Training School
Graduate State Normal School, Lewiston, Idaho; A.B., University of Washington; student, Washington State College. Teacher in rural and graded schools; instructor and principal in high school. At Cheney since 1923. Department of Teacher Training.

ANTOINETTE DUSTIN .........................Health Education
Graduate Sargent School for Physical Education; A.B., Columbia University. Teacher of physical training and swimming in Y. W. C. A.; director of playgrounds. At Cheney since 1920. Department of Education.

KATHERINE R. DUTTING .........................Resident Nurse
Graduate Franklin County Hospital Training School for Nurses, Greenfield, Mass. Student, Department Nursing and Health, Columbia University. Superintendent of Hospitals. At Cheney since 1921.

ALVIN ALLEN EUSTIS .........................Health Education
A.B., Washington State College; student, Pomona College and University of California. Instructor and coach in high school. At Cheney since 1920. Department of Education.

JOSEPHINE FITZGERALD .........................Extension
Graduate State Normal School, Oshkosh; A.B., University of Chicago. Teacher graded schools; instructor in methods; critic; director of practice departments and of model school. At Cheney since 1910. Department of Education.
CHARLES ELLIOTT FOUSER ...................................... Music
   Mus. Bac., Chicago Musical College; diploma, Northwestern School of Music. Teacher in high school; first class musician and band sergeant, U. S. Army; instructor in normal school and university. At Cheney since 1923. Department of Music.

OTIS W. FREEMAN ..................................... Geography and Mathematics
   A. B., Albion College; M. S., University of Michigan; student Northwestern University; instructor and principal in high school; instructor Northwestern University; consulting geologist. At Cheney since 1924. Department of Science and Mathematics.

NETTIE E. GOODMAN .................................. Secretary to President
   Graduate Normal Institute; Gem City Business College, Quincy, Illinois. At Cheney since 1910.

WILLIAM ERNST HAESELER ................................ Commerce
   Graduate Williss Business University, Springfield, Ohio; Bliss-Alger College, Saginaw, Michigan. Instructor in high school and business college. Member International Accountants' Society. At Cheney since 1919. Department of Social Science.

RHEA HAMBERT ......................................... Training School
   Graduate State Normal School, Oshkosh, Wisconsin; A. B., University of Washington. Teacher in graded schools. At Cheney since 1916. Department of Education.

RAYMOND F. HAWK ....................................... Extension
   A. B., DePauw University; graduate student Drew Theological Seminary. Teacher of graded schools; principal of high school; deputy county superintendent. At Cheney since 1923. Department of Education.

RICHARD J. HOCHTRITT .................................... Printer
   Inland Printer Technical School, Chicago, diploma; journeyman printer and publisher of country newspaper; foreman of commercial plant. At Cheney since 1922. Department of Applied Sciences and Arts.

H. EDWIN HOLMQVIST ................................... English
   A. B., Leland Stanford Junior University; graduate student University of Washington; member California legislature, 1909; admitted to Oregon State Bar; instructor and principal in high school; principal evening school for foreigners. At Cheney since 1923. Department of Language and Literature.
ALBION HARRIS HORRALL.....Superintendent of Training School
A. B., Purdue University; A. M., Washington State College; student Stanford University. Principal and instructor in graded and high schools. Extension instructor normal school and college. Sergeant, first class, Air Service, U. S. Army. At Cheney since 1924. Department of Teacher Training.

GRACE B. HULSCHER.................Public School Music
Graduate National School of Music, Detroit, Michigan. Supervisor of music, Brainerd, Minnesota; Grand Forks, North Dakota; Everett, Washington; and instructor in Public School Music at the State College of Washington. At Cheney since 1920. Department of Music.

JOSEPH WYNNE HUNGATE.........Agriculture and Biological Science
A. B., Washington State College; M. S., Cornell University; student University of California; instructor in high school. At Cheney since 1905. Department of Applied Sciences and Arts.

CEYLON SAMUEL KINGSTON .......Vice President
A. B., St. Lawrence University; A. M., University of Michigan; student Columbia University. Instructor in high school and college; high school principal. Acting President, 1910-1911. At Cheney since 1901. Department of History and Social Science.

LENORE KUYKENDALL.................Training School
Graduate State Normal School, Cheney; A. B., University of Washington; reconstruction-aide occupational therapy, U. S. Veterans’ Hospital. Teacher in city schools. At Cheney since 1923. Department of Teacher Training.

JAMES S. LANE......................Manual Arts

ALBERT RAY LANG.................Education
A. B., Nebraska Wesleyan University; A. M., University of Nebraska; Ph. D., Leland Stanford Junior University; instructor and principal in high schools; superintendent county, high school, and city school system; Superintendent of Schools, Panama Canal Zone. At Cheney since 1924. Department of Education.
CHARLOTTE C. LANG.................................Training School
Fourth-year diploma, State Normal School, Cheney; student
Teachers College, Columbia University. Teacher in rural
and city schools. At Cheney since 1922. Department of
Teacher Training.

LAURA M. LARSEN.................................Training School
Graduate Wisconsin State Normal, Superior, Wisconsin; B. Ed.,
University of Washington; student University of Calif­
ornia; graduate student University of Chicago. Teacher
in public schools. At Cheney since 1920. Department of
Teacher Training.

MARIAN A. LAWTON..............................Violin
A. B., Washington State College; student of Gottfried Herbst
and Karel Havlicek. Private teacher; supervisor high
school music. At Cheney since 1922. Department of
Music.

DORA S. LEWIS.........\{Dean of Women\} Domestic Science
B. S., Washington State College; student University of Wash­
ington. Teacher in public schools; assistant in State
Department of Education. At Cheney since 1921. De­
partment of Applied Sciences and Arts.

ELIZABETH LOUISE MARTIN..................Geography
Graduate State Teachers College, Mankato, Minnesota; B. S.,
University of Chicago. Teacher in public schools; in­
structor in geography in normal college. At Cheney since
1921. Department of Science and Mathematics.

THEODORE NORTON.............................Librarian
A. B., University of Washington Library School. Assistant in
Reference Department, Tacoma Public Library; assistant
in Reference Department, University of Washington
library. At Cheney since 1924. Department of History
and Social Science.

J. ORIN OLIPHANT.........................History
Graduate State Normal School, Cheney; A. B., A. M., University
of Washington. Teacher in high school. At Cheney since
1921. Department of History and Social Science.

HELGA OYEN...............................Training School
Graduate State Normal School, Minot, North Dakota; A. B.,
State Teachers College, Valley City, North Dakota; stu­
dent University of Chicago. Teacher in rural and graded
schools; instructor in high school and college. At Cheney
since 1923. Department of Teacher Training.
MARGARET PAIGE ........................................ Piano
Mus. B., Oberlin Conservatory of Music; School of Music, Colorado College; pupil of Dean Edward Danforth Hale and Frederic Ayres. At Cheney since 1922. Department of Music.

MYRA ELIZABETH PANNEBAKER ................. Training School
Graduate State Normal School, Cheney; A. B., University of Washington; student University of California. Teacher in rural, graded and high schools; assistant supervisor in grammar grades. At Cheney since 1914. Department of Teacher Training.

EDITH WOODBURN PATTERSON ................. Domestic Art
A. B., Leland Stanford Junior University; graduate student at Stanford and University of California; student State Normal School, San Jose, California. Teacher of graded schools, instructor in high school, evening school and Smith-Hughes classes. At Cheney since 1920. Department of Applied Sciences and Arts.

HAZEL JEAN PLYMPTON ......................... Art
Student Portland Art School; University of Chicago; Columbia University, Extension course; Reed College. Teacher and supervisor in graded schools; instructor in high schools and normal school; reconstruction-aide occupational therapy, U. S. Army. At Cheney since 1921. Department of Applied Sciences and Arts.

GLADYS P. QUINN ............................ Assistant Accountant
Student Colorado Agricultural College and Iowa State College; teacher commercial subjects, high school. At Cheney since 1923.

HAZEL OLSON SEEBER ....................... Assistant Registrar
Graduate Northwestern Business College, Spokane. At Cheney since 1919. Department of History and Social Science.

ALLYN MOORE SHAFFER ..................... Chemistry and Physics
B. S., M. S., Northwestern University; graduate of U. S. Army School of Military Aeronautics, Austin, Texas; Second Lieutenant (pilot), Air Service, U. S. Army, with service in France; student Alliance Francaise and at the Sorbonne, Paris; graduate student and teaching fellow, University of California. Member American Chemical Society. At Cheney since 1922. Department of Science and Mathematics.
SAMUEL F. SHINKLE. Education

HARVEY NEIL STRONACH. Accountant

Law and Business Administration, Truro College. Member Washington State Bar. High school instructor and accountant. At Cheney since 1910. Secretary of Board of Trustees.

MARY GULICK SWERER. Art

Graduate Pratt Institute; student Wooster University; Applied Arts School, Chicago; Chicago University. Teacher and supervisor of drawing in graded schools; instructor in high school and normal school; reconstruction-aide occupational therapy U.S. Army. At Cheney since 1920. Department of Applied Sciences and Arts.

RALPH EARLE TIEJE. English

A.B., A.M., Ph.D., University of Illinois. Instructor in college and university. At Cheney since 1917. Department of Language and Literature.

VIVIAN DELT TURNER. Expression

Graduate Northwestern Normal, Dixon, Illinois; A.B., Iowa State Teachers College; B.O., Northwestern University; graduate student University of Chicago and Horner Institute of Fine Arts. Instructor in high school and normal schools. At Cheney since 1923. Department of Language and Literature.

LUCIEN VARDAMAN TYLER. Commerce

Graduate State Normal School, Kirksville, Mo.; Draughon's Business College; student University of Washington; A.B., A.M., Washington State College. Teacher in rural and graded schools; principal and instructor in high schools; stenographer, bookkeeper, manager and instructor in business college. At Cheney since 1918. Department of Social Science.

MARTHA H. WILLIAMS. Training School

The Normal Seminar

The Normal Seminar

GENERAL STATEMENT

LOCATION

Cheney is situated on the crest of the divide between the Columbia and Spokane rivers. It is sixteen miles distant from Spokane by rail and twenty by the Washington Central highway. Rail service is furnished by the Oregon-Washington Railroad and Navigation Company, the Chicago, Milwaukee and St. Paul, the Northern Pacific, and a motor bus line; the Spokane, Portland and Seattle line also stops at South Cheney, one mile from Cheney.

BUILDINGS

All the Normal School buildings are modern and fully equipped, the Administration Building being one of the finest in the United States and the dormitories presenting a homelike appearance. The former houses the recitation rooms, gymnasium, auditorium, and offices, is fireproof throughout, ventilated by a modern force system, and in the summer is supplied with washed, humidified air.

The eight-roomed Manual Arts Building, similar in design and construction to the Administration Building, is located on the northwest corner of the campus, and houses the wood-working, crafts, and printing divisions.

The Training School is a three-storied structure with full basement, housing the grade school work for almost three hundred children.

Monroe Hall, named for the president of the Board of Trustees, and Senior Hall are the two girls' dormitories. Each is a three-story structure of the same design as the other buildings on the campus, furnishing accommodations for one hundred girls each. Most of the rooms are arranged in suites consisting of two sleeping rooms and one study room, and afford accommodations for three girls. Meals are furnished in the dining-room at Monroe Hall to occupants of both dormitories. Each of these units is presided over by a director whose special care it is to see to the physical comfort and welfare of the students under her charge.

Sutton Hall, the men's dormitory, is similar in design and construction to the other buildings on the campus. It provides
room and board for one hundred men. The sleeping quarters are arranged upon the dormitory model. The study rooms accommodate from two to four men each. The hall operates its own dining-room.

The Power Plant furnishes heat to all buildings, and also pumps the water used by the school from a well driven five hundred feet thru the basalt to the underlying granite. The cemented and sealed casing of this well still further insures purity, an item emphasized by the fact that the school has had no cases of disease traceable to the water supply. A similar plant furnishes water to the town.

EXPENSES

The Normal School is maintained, as far as actual operation expenses go, by the state for the primary purpose of training teachers for service in the public schools, but certain incidental expenses must be borne by each student. The total enrolment fee for each quarter is $5.00, which includes the fees for the library and various student activities.

The fee of $5.00 is distributed as follows: Library fee $2.00; Health fee 50 cents; and the remaining $2.50 is budgeted by the Student Finance Committee among the following activities: men's athletics, women's athletics, debate, lyceum, associated students, and the Normal School Journal.

Miscellaneous Expenses

A laboratory fee is required of all students in Science, Manual Arts, and Home Economics courses. For fee in course in typing see special announcement of the Commerce Division.

Students taking private lessons in voice, piano, or violin are charged according to the scale listed under the department.

Textbook costs are cut to the lowest possible minimum by the Normal Book Store, which furnishes texts practically at cost.

GROUNDs

The twenty-acre campus of the Normal School is divided among the various activities so as to insure the most effective use. The front area has been graded and parked under the direction of a competent landscape architect, and affords a pleasing and attractive prospect. To the rear of the Administration Building are located the school gardens. The back campus
The Normal Seminar consists of an athletic field on which is laid out a quarter-mile track, football field, and baseball diamond.

The Training School is organized as a separate department of instruction. It has classes for children from the first to the ninth grade, inclusive. Each grade covers a course of study prescribed for the public schools of the State of Washington. The pupils of each grade are divided into "A," "B" and "C" groups and promotions are made at the end of each quarter (12 weeks) of work. This plan of promotion prevents the necessity of any child's being retarded for a longer period than twelve weeks. It also permits children to move forward from one group to another as they prove their ability to advance.

Boys of the grammar grades are given manual training in the shops; girls of the grammar grades are given sewing, cooking, and industrial work in connection with the noon lunch department.

Grading is based upon the latest system of scientific tests and measurements, thus enabling the teachers and supervisors to place children in their grades and groups where they can work to best advantage and attain the highest efficiency for the effort expended. We cordially invite the cooperation of parents in our efforts to carry out this very important phase of our work.

The school is open during the Summer Session, and retarded children or those who desire to shorten the school course are thus given opportunity for further work. The school is open only from 8 o'clock till 12 in the summer.

BOARD AND ROOM

Dormitories

Monroe Hall, described on page 17, is one of the finest and best equipped dormitories in the Northwest, and with Senior Hall, similar in arrangement, affords the most homelike possible surroundings for students. All suites are furnished with hot and cold running water. Ample bath facilities are provided; and a kitchenette and large living room are provided free. Laundry rooms are also open to students without charge. Each hall is under the direction of a competent matron.

The rooms are furnished with beds, mattresses, pillows, sheets, pillow cases, one double blanket for each bed, towels, chairs, study table, and rugs. Occupants take care of their
rooms, and provide such extra blankets and comforters as are needed.

Board and room at the Halls cost $6.00 per week. This rate does not allow a discount for absence over week ends. Guests cost twenty-five cents extra each per meal. Rooms are reserved in order of application upon receipt of $5.00 per application, the amount being deducted from the bill for the last month. If the application is cancelled not later than five (5) days previous to the opening of the school year, $3.00 of the deposit will be returned, otherwise cancellation causes forfeiture of the entire sum. Requests should be addressed: Business Office, State Normal School, Cheney, Washington.

Private Homes

Private homes in Cheney furnish board and room, or room separately, at rates varying for the former from $28 to $30 per month. Light housekeeping rooms are also available. In order to insure proper care in the selection of such rooms the student should secure the approved list from the Dean of Women. Men and women are not permitted to room in the same house.

Working for Board and Room

Some students find it necessary to earn a part of their expenses. To these a limited number of opportunities is open either in or about the school, or in the homes of the community. All students seeking such employment should, however, have a clear understanding with the employer as to the rate of pay and the amount of work expected. They should, also, plan to carry less than the regular schedule of school hours. Women desiring such employment should apply to Mrs. Dora Lewis; men to Mr. A. A. Eustis.

THE LOAN FUND

The Students' Loan Fund consists of several separate sums, contributed in part by Mr. Dumas, of Dayton, and Mr. Charles Allen, of Seattle. The fund is constantly increased by the interest on previous loans and the profits of the moving picture plays which are given under the auspices of the Associated Students. At present it totals $9,000.

These funds are administered by a faculty committee; and needy students who have been in residence one quarter should
make application to Mr. J. E. Buchanan. The notes must be secured by the additional signature of a reliable party; they run for not more than one year, and bear six per cent interest.

SCHOLARSHIP FUND

Two scholarships are offered each year to the graduates of the two-year course who desire to continue their studies for another year. They are awarded by the Cabinet upon a basis of scholarship, general achievement, and character.

The C. D. Martin Scholarship, of $150, is open to men; and the S. W. Webb and Son Scholarship, of a like amount, is open to women. Both funds were founded by business men of Cheney.

SOCIAL LIFE

The social life of the school is supervised and directed by the Students' Council Committee of the faculty and the Advisory Board of the Associated Students. The aim is to provide clean and profitable entertainment, especially on Friday and Saturday evenings. Such gatherings are at different periods featured as class functions. A weekly play-hour on Tuesday evenings, lasting one hour, affords a further diversion. All such affairs are given in the School Gymnasium.

THE ASSOCIATED STUDENTS

The student body is organized into the Associated Students for the purpose of advancing the best interests of the school and promoting all school activities as well as aiding in the discipline and management of the school as it affects the student body.

STUDENT ORGANIZATIONS

The following clubs and societies have been organized and are maintained by the students: The Yep Kanum is a girls’ walking club, which awards emblems to those who hike a certain number of miles. The Dramatic Club supervises the staging of all plays. The Y. W. C. A. meets each Thursday for religious service; it also conducts a rest room for women on the first floor of the Administration Building. The Lyric Club is a girls' glee organization under the direct supervision of the Department of Music and Dramatic Art. The Ellen H. Richards Club is open to all students majoring in domestic science and arts. The Dag-
The Geography Club, Camp Fire Girls and Boy Scouts are also active organizations. The Avon Club is composed of women who are members of the Roman Catholic Church. The Press Club is a group of students interested in news writing.

**STUDENT PUBLICATIONS**

**ATHLETICS**

The school encourages all forms of athletic competition. The institution is a member of the Columbia Valley Conference, and of the Tri-Normal School Association. During the past year it won the football, baseball, basketball, and track championships in the former group; and the basketball and track championships in the latter. The basketball team also won the Minor College Championship of the Northwest.

The athletic field is laid out with a quarter-mile cinder track, a baseball diamond, and a football field.

The W Club is an organization of men who have won their letter in athletics, and its aim is to foster loyalty to the school and ideals of sportsmanlike conduct.

**DEBATE**

The school is a member of the Triangular Normal School League of Washington, which debates for the Guy Allison Trophy Cup. During the past year debates were also arranged with the class teams from the State College. During four years of competition for the trophy Cheney has won the cup twice, and Bellingham twice.
The commercial course is offered with three objects in view: (1) to prepare teachers for the commercial branches; (2) to train young people for business life; (3) to make it possible for the regular students to become more broadly trained by taking some of the commercial subjects as electives. The courses are so arranged that a student may carry either three or five credits as arranged at the beginning of the course.

A laboratory fee of $2.50 per quarter is charged each student for the use of the equipment in the typewriting division. This covers the use of the machines, text books, and other supplies necessary to the course, but does not cover the cost of the student’s practice paper.

The Extension Division is organized under the Normal School Extension Act of 1917 for the purpose of affording to teachers in service and others in the community who so desire an opportunity to pursue such studies as they may find most advantageous. Such work is especially helpful to those who find it advisable to continue their training without giving up their positions, to candidates for certificates to meet the new requirements in education, to those who wish to specialize, to those who wish to earn college credits, to those who are anxious for professional recognition, and to those who feel that more training would be useful in daily life.

The courses offered are the same in general character as those given regularly at the institution and the credits earned apply as those obtained in residence. Work may be done in extension classes or by correspondence. A small fee to cover local expenses is charged for all courses. Work must be completed within one calendar year from date of registration.

Special attention is called to the non-credit work conducted by the Extension Department. The field service includes school surveys, demonstration of special lines of work, supply of mate-
rials and library books, conferences, visitation, community lectures, and cooperation with school officials, superintendents, principals, and teachers, in educational movements in a county or in the state.

In order to avoid overlapping in service the state is, as the law provides, divided into four districts for extension work only, the State Normal School at Cheney serving the eastern counties.

A bulletin giving complete information concerning correspondence courses will be mailed upon request.

All correspondence concerning such work should be addressed to The Extension Division, Cheney, Washington.

THE NEW ORGAN

One of the outstanding features of the school equipment is the new organ built in the auditorium at an expense of $20,000. This instrument was designed and built by W. W. Kimball & Company of Chicago, pioneer organ builders in the United States. The key-desk contains three manual key-boards Swell, Great, and Choir, and a concave radiating pedal key-board of the most modern type. The old style stops of the draw-knob type have been supplanted by the more modern tilting tablets, which may be operated with utmost ease by a single finger without detaching the hand from the key-board. These stop-keys are supplemented by a large number of combination pistons, which may be adjusted instantly by the organist without leaving the bench. These devices enable the performer to call into action an entire group of stops instantly, cancelling at the same time all others not desired.

The connection between the key-desk and the remainder of the organ is made by means of electricity. The organ itself is divided in two chambers located on either side of the proscenium arch well up toward the ceiling. The tones from these two chambers may be made to speak together, or to answer each other according to the desire of the organist.

The organ is used for chapel exercises, concerts, recitals, motion picture accompaniment, and figures prominently in the annual performance of “The Messiah,” one of the important events of the school calendar.
HEALTH EDUCATION

All students are under the supervision of a graduate nurse for health inspection, advice and direction in physical training.

An initial examination, physical and medical, is made and repeated every six months or oftener if necessary for a knowledge of the student's condition and needs. Reconstruction work is undertaken for individual cases. Two hours a week of practical work in the gymnasium, or its equivalent for reconstruction cases, are required of all.

It is the aim of this department to give the student an understanding of the requisites of good health and sanitation for herself, the child, and the community, and to lay a foundation which shall enable the teacher to be of real health service to her school and its homes.

The work of the division includes physical training, applied gymnastics, corrective gymnastics, their study and application, and the study of physiology, general and personal hygiene and sanitation. Special lectures on reproduction and venereal diseases are given to men and women separately.

THE NORMAL LIBRARY

The Library is used by the students as a general reading room and a reference room. Most of the books are on open shelves; current magazines are on an open rack; students are urged to use this literature freely in the library and to use the books at their homes for periods of two weeks. There are permanent reference books and short time books whose use is restricted to meet the needs of all readers. Special collections of juvenile literature are most helpful to the Training School and to classes in methods.

Student help is used in the library and a capable student who so desires may begin training for a library course in this way.

Books and bound magazines in the library: On May 1, 1922, library records showed 16,997 books cataloged. January 12, 1924, showed 19,109, or 2,112 added since the last report.

The magazine list for the current year contains the names of 164 periodicals.
The Teacher Training Department is a very essential and significant one since the Normal School receives students for the express purpose of educating and training them to become teachers in our public schools. In order to know whether or not teachers have been produced, some medium of careful testing, discovering, and building is necessary. The Teacher Training Department furnishes this medium.

**Purpose:** This department bears the same relation to the professional training of teachers that a laboratory bears to the training of scientists. Students here have the opportunity of observing actual teaching by experienced teachers, of doing practice teaching under the supervision of a well-trained staff, and of seeing the administrative details of school organization in operation. It further serves as a laboratory in which new educational theories may be tested by experiment, and where proposed methods may be adapted to the various conditions under which the student will be required to teach.

**Organization:** The Training School consists of eight grades, each being divided into three groups, which contain from five to twenty pupils each. It is recognized that smaller, rather than larger groups, are of greater benefit to the student in that he can under such conditions give concentrated attention to the vital factors of teaching.

**Supervision:** This department is in charge of the Superintendent of the Training School, eight critic teachers, the supervisors of art, music, home economics, manual training, and physical training, and the director of health. Written plans or outlines of all lessons are to be made by the student teacher and submitted to the critic teacher or supervisor for approval before they may be taught. Students are allowed as much freedom and originality in both method and management as is consistent with sound educational principles.

**Student Teaching:** Students must complete their first year of work before doing any practice teaching. The course of study requires five credits in teaching. To secure five credits in teaching demands as a minimum one hundred (100) minutes a day of
actual work in the Teacher Training Department during a quarter of twelve weeks.

This work includes teaching, writing reports, observing, criticising, lesson-planning, assisting the teacher, attending conferences, and keeping records. An endeavor is made to place the student in the atmosphere of a real school with as much of the responsibility peculiar to the teacher in charge as possible.

Students while teaching will be held responsible for the progress of their pupils in the subjects they teach.

### SUMMER QUARTER

The fourth quarter of the State Normal School at Cheney is known as the Summer Quarter. In 1925 it opens June 1, and runs eleven weeks. This length of time is greatly to the advantage of the teacher who wishes to progress quickly with the work of the school and still continue to teach during the winter. Practically all types of work offered in the other quarters of the year are offered this fourth quarter. A student is permitted to carry the same amount of work as in any other quarter.

*Training School:* The Training School will be in session, giving Senior A’s an opportunity to do their practice teaching and others opportunity to observe teaching under competent supervisors. Such conditions now obtain that students may complete their entire course in the sessions of the Summer School and receive their Normal Diplomas.

*Special Courses:* In addition to the regular work of the school special emphasis will be placed on such subjects as Home Economics, Manual Training, Agriculture, Expression, Art, Music, Primary Methods, and Play Ground Activities.

*New Certification Law:* The new law of certification requires that all applicants for the second grade elementary certificate must be high school graduates and, in addition, must attend one quarter in an accredited institution of higher learning in which elementary teachers are trained and earn 12 quarter hours of credit.
Provisions will be made whereby such students may elect subjects for
professional training and at the same time receive
normal credit. They are not limited to such subjects but can
take any line of professional work they desire.

The subjects required for a first grade elementary and life
certificate will be offered. The new law provides that grades of
85 per cent and above earned in normal schools in the additional
subjects required may be accepted by the State Board of Educa-
tion in lieu of examination in such subjects. Provision will be
made that will enable applicants for such certificates to earn the
required credit in the Summer School.

Catalog: The bulletin descriptive of the Summer Session
will be issued about March 15. This bulletin will list the courses
and give such information as is usually desired.

NOTICE TO PROSPECTIVE STUDENTS

1. Grades will be accepted from all reputable institutions
   of higher learning and from accredited high schools. Such cre-
dentials should be filed either in advance or upon registration.

2. Those asking for advanced standing must furnish credits
   from institutions formerly attended and catalog giving detailed
   information as to the course pursued.

3. No one may graduate or take an elementary certificate
   from this school with less than a year (36 weeks) of attendance
   and forty-eight (48) credits earned in residence.

4. Special training in education will add to your ability
   and the great demand for trained teachers always insures the
   specialist a position.

5. Our Appointment Committee assists students in securing
   positions which are best suited to their training and adaptability.

6. Any specific information not furnished in this catalog
   will be furnished to you thru correspondence.
ENTRANCE REQUIREMENTS

1. The completion of a four-year high school course or its equivalent is required of those who desire to begin with the first year of the Normal course, except as listed under 2.

2. Applicants who have not completed a high school course, who are 21 years of age or older, who hold a second grade certificate, and who have had five years' teaching experience may be classed provisionally as first year Normal students.

3. Special students who have not completed the four-year high school course may be admitted,—
   (a) If 21 years of age.
   (b) For special subjects, extension work, or correspondence courses.

4. Work done elsewhere of similar value will be fully credited in this institution.

5. To receive a diploma or certificate a student must be at least thirty-six weeks (three quarters) in actual residence at this institution, and carry the minimum number of credits (48).

ISSUANCE OF CERTIFICATES AND DIPLOMAS

Certificates and diplomas except life diplomas are issued at the close of each quarter. However, formal graduating exercises occur only at the close of the spring and the summer quarters.

Life diplomas are issued at the close of the spring quarter; and since they are issued to alumni in such large numbers each year, exercises connected with the granting of the life diplomas have become a part of the annual alumni celebration the Saturday preceding the spring commencement.

TRANSCRIPTS OF STUDENTS' RECORDS

Students who wish to send a transcript of their records to other institutions will be furnished the first copy without charge. A fee of $1.00 will be charged for each transcript thereafter. The fees will be turned over to the organ fund.
COURSES OF STUDY

I. The average student assignment is sixteen hours per week—maximum eighteen hours per week. Net length of periods is fifty minutes.

II. Credits are reckoned in terms of recitation periods. One credit means a class recitation one period a week for a quarter. Forty-eight credits constitute a year’s work. One full year of physical exercise will be required of all students in addition to the regular credit work for graduation. In laboratory work two hours are counted for one hour of credit.

The courses offered consist of

(a) An elementary course of one year which leads to the Elementary Certificate. The Elementary Certificate is good for two years and is non-renewable.

(b) A two-year course which leads to the Elementary Normal School Diploma. The Elementary Normal School Diploma is good for five years and is non-renewable. The work of this course is outlined in the field of primary, intermediate, grammar, and rural school grades; in manual arts; in home economics; in art; and in music.

(c) A three-year course which leads to the Special Normal School Diploma. This diploma is good for five years and is non-renewable.

(d) A four-year course which leads to an Advanced Special Normal School Diploma. This diploma is good for five years and is non-renewable.

(e) A one-year advanced course open to college and university graduates, which leads to the Graduate Normal School Diploma.

(f) A Normal School Life Diploma is granted to holders of any Normal School Diploma issued by this school who have had twenty-four months of successful teaching experience.

A course in Music is offered with 34 credits required in music.

THREE-YEAR COURSE FOR THE SPECIAL NORMAL SCHOOL DIPLOMA

Forty-eight credits are required in addition to the 96 credits of the two-year course. Since this course is designed to lead to special diplomas in Music, Household Arts, Manual Training, etc., no prescribed course is outlined. The student will plan his work with the head of the department concerned. It should, however, be so planned that the year's work will fit into the general plan of the four-year course outlined below.

FOUR-YEAR COURSE

This course is essentially the regular college course. It is built upon the policy of major lines together with balancing minor lines. The details of the individual course will be worked out by conferences between the student, the chairman of advanced standing committee, and the head of the major department.

ONE-YEAR ADVANCED COURSE FOR GRADUATE NORMAL SCHOOL DIPLOMA

One year of work is required of college and university graduates, the course to be approved by the head of the department in which the work is taken.
Graduates of the four-year course of the State Normal School at Cheney will be given the same standing by the University of Washington as those of other institutions as indicated by the following official notice given by that institution:

“The University of Washington gives graduate standing to a student who has completed a four-year course in an approved normal school, following graduation from an accredited secondary school. Before being admitted to candidacy for an advanced degree, however, such a student, in common with graduates from any other institution, must be approved by a committee appointed by the Dean of the Graduate School. Approval implies that the student has the quality of mind and the attitude toward advanced work which would justify his going on for an advanced degree, and that he has the necessary foundation in his proposed major and minor subjects.”
SYNOPSIS OF DEPARTMENT COURSES

GENERAL STATEMENT

The organization of the institution has placed the different lines of instruction in seven departments as follows:

APPLIED SCIENCES AND ARTS.

- Agriculture
- Fine Arts
- Home Economics
- Manual Arts

EDUCATION

- Education
- Health Education

HISTORY AND SOCIAL SCIENCE

- History and Social Science
- Commerce

LANGUAGE AND LITERATURE

- English
- Expression
- French

MUSIC

- Music

SCIENCE AND MATHEMATICS

- Mathematics
- Chemistry
- Physics
- Geography

TEACHER TRAINING

- Practice Teaching

A brief description of the courses offered by the State Normal School is given. These are placed in the order of the organization above. Complete information concerning any course may be had by addressing the head of the department. Subjects marked "A" after the number are upper division courses.
APPLIED SCIENCES AND ARTS

AGRICULTURAL AND BIOLOGICAL SCIENCES

1 Agriculture
An elementary course dealing with the general principles of plant and animal production.
(5 credits)
Winter and summer quarters

3 Poultr ying
Poultry house construction, feeding and care of poultry, study of the common breeds, incubation and brooding.
(3 credits)
Winter quarter

5 Soil Physics and Fertility
Study of chemical and physical characteristics of soils with reference to crop production.
(3 credits)
Winter quarter

7 Horticulture
A course in the propagation of plants, with special reference to school needs. Gardening and school ground decoration receive particular attention.
(3 credits)
Summer quarter

8 Farm Crops
Important crops of eastern Washington, their production and marketing, their enemies and diseases and their control.
(5 credits)
Fall quarter
9 Nature Study
A study of the materials suitable for use in a course in nature study in the grades. It includes the collecting of such materials. One bird trip a week is required during the greater part of the quarter.
(3 credits)
Fall, spring and summer quarters

10 General Zoology
Structure and natural history of the invertebrates.
(5 credits)
Fall quarter

12A Mammal Study
Classification, habits and life histories of the mammals.
Field work is required.
(3 credits)
Spring quarter

13A Ornithology
Study of the birds of Washington and particularly of eastern Washington. Classification, use of key, study of habits and life histories. Field work is required.
(3 credits)
Spring quarter

14 General Biology
A course dealing with the principles of the subject and their relation to modern society. The work consists of laboratory practice, together with reports and recitations.
(5 credits)
Winter quarter

15 Biological Principles
A briefer course than the preceding, with very little labora­tory work. It is designed largely for those who have had courses in botany or zoology or both. Considerable outside reading is involved.
(3 credits)
Fall quarter
The Normal Seminar

16 General Entomology
Classification and structure of insects, study of noxious insects, relation of insects to disease. Field work is required.
(5 credits)
Spring quarter

18 General Botany
Structure, classification, ecology of plants and their economic importance.
(5 credits)
Fall quarter

19A Systematic Botany
Study and classification of the native plants of the region as well as some others to be found on the campus.
(5 credits)
Spring quarter

20 Boy Scout Leadership
Given in conjunction with the Spokane Council Boy Scouts of America. Training in scoutcraft, and the organizing and conducting of a troop. A certificate is presented to each man completing the course.
(1 credit)
Spring and summer quarters

ARSTS AND CRAFTS

1 Freehand Drawing and Perspective
A course offered to those who have not had the regular high school work. It includes freehand perspective and object drawing, using pencil rendering and blackboard sketching as the methods of expression.
(3 credits)
All quarters

2 Primary Handwork
This work has been planned to meet the practical art problems which present themselves in the lower grades and in the
rural schools. A definite idea of design and color is given in the making of objects directly usable in schools.

(3 credits)
Winter, spring, and summer quarters

3 Elementary Design

Terms and principles will be defined and practiced. The course will deal with the practical uses of design, but the problems will not be applied to materials. This course is required of all who take the elective courses in the crafts.

(3 credits)
Fall and spring quarters

4 Color

Theory of color. Color combinations applicable to costumes, interior decoration, and ornaments will be made.

(3 credits)
Spring quarter

5 Art Methods

This course combined with Primary Handwork will give a general view of the work done in the fine and applied arts in all the grades of the elementary schools. Art is considered from the standpoint of its correlation with other subjects, with community life, and with the home life of the child. Prerequisite: Art 1.

(3 credits)
Fall, spring and summer quarters

6 Art Principles

A course based upon the development of the appreciation of the fundamental principles of art, and their application to those things with which we come in daily contact. Application is made also to the work in the elementary schools, including picture study and school room decoration. Prerequisite: Art 1.

(3 credits)
Fall, winter and summer quarters

7 Industrial Art 1

A course presenting elementary basketry and bookbinding.

(3 credits)
Winter and summer quarters

before the metal work is undertaken. Not given in winter quarter of 1924-25.

(3 credits)
Winter and spring quarters

13 Water Color
The technique of different processes and methods are studied. Students will be required to furnish their own studies. Prerequisite: Art. 1.

(3 credits)
Winter and spring quarters

14 Pen and Ink Sketching
Much time is given to the handling of these mediums and to the various methods used. Outdoor sketching is given during the latter part of the course. Not given in winter of 1924-25.

(3 credits)
Fall and winter

15 Bookbinding
This course will consist of several problems based on the different phases of book binding. It will be adapted to practical use, especially in the rebinding of old books and magazines. Not given in 1924-25.

(3 credits)
Winter and spring

16A Textile Design
The history of textiles will be studied and the relation of character to material and adaptations will be made. Not given in 1924-25.

(5 credits)
Fall and spring quarters

17A Figure Drawing
Advanced drawing, working from the draped figure. Prerequisite: Art. 1. Not given in 1924.

(3 credits)
Winter quarter
The Normal Seminar

18 **Art Supervision**  
Organization of courses of study and ordering of art materials will be planned.  
(3 credits)  
Spring quarter

19 **Supervision and Practice in Art**  
Student teaching.  
(2½ credits)  
All quarters

20 **Picture Study**  
A course designed primarily as an aid in teaching the appreciation of pictures and their correlation with other subjects.  
(3 credits)  
Spring and summer quarters

21 **Art Appreciation**  
Includes study of pictures and sculpture, touching briefly upon other art expressions, such as tapestry, pottery, jewelry, etc.  
(3 credits)  
Winter quarter

---

**HOME ECONOMICS**

Minimum requirements for a two-year certificate: Domestic Science courses 4, 5, 6 and 9. Chemistry is desirable as a prerequisite for cooking. Domestic Art courses 27 and 30 or 31. Drawing and color work will be found of value in preparation for Domestic Art courses.

1 **Cookery**  
A study of the composition of foods and the principles of cooking with practice in following tested recipes. Planned for students who have not had cooking in high school.  
(3 credits)  
All quarters
2 Food Selection

A lecture course which aims to give an understanding of how to select foods according to the rules of healthful living.

(1 credit)
All quarters

3 Cookery

A study of the production, distribution, marketing, and cost of foods with emphasis upon the composition, nutritive value, principles of cooking and the place in the diet. Cookery 3 is an intensive study of the foods supplying carbohydrates, fats, vitamins, and ash. Prerequisite: Cookery 1 or its equivalent in high school.

(5 credits)
Fall and spring quarters

4 Cookery

A continuation of Cookery 3 making an intensive study of the foods supplying proteins and of table service for breakfasts, luncheons, dinners, teas, and special occasions, including menu planning, table setting, table decoration, and practical experience in serving.

(4 credits)
Winter and summer quarters

5 Equipment and Methods

A study of laboratory management and equipment, courses of study, text books, and methods of teaching home economics.

(3 credits)
Winter and summer quarters

6 Practical Dietetics

This course presents the fundamental principles of nutrition.

(3 credits)
Fall and spring quarters

7a Nutrition

Methods of conducting nutrition clinics giving actual experience with a training school class.

(2 credits)
All quarters
8A Advanced Cookery

Planning, preparation, and serving of meals.
(3 credits)
Fall and spring quarters

9 Household Management

A study of the management of household operations, systematic planning of daily routine, labor saving equipment, food planning, marketing, the apportionment of the income through the family budget, and other modern problems of living.
(3 credits)
Winter and summer quarters

10 Short Courses

Courses presenting the planning, preparation, and serving of salads, desserts and quick breads, respectively. Prerequisite: Cookery 1 or its equivalent in high school.
(1 credit each)
All quarters

11 School Lunch

The food needs of school children with plans and methods of serving hot lunches in schools.
(1 credit)
All quarters

12 Serving

Table service for breakfasts, luncheons, dinners, teas, and special occasions, including menu planning, table setting, table decoration, and practical experience in serving.
(2 credits)
All quarters

20 Plain Sewing

(5 credits)
All quarters
22 Elementary Dressmaking
Three dresses involving the handling of various cotton materials. One may be a made-over problem. A study is made of altering and placing patterns and of styles suitable for the different members of the class.

(5 credits)
All quarters

23 Art Needlework
The course consists of learning the simple decorative and embroidery stitches and doing eight or nine problems showing the application of the stitches.

(3 credits)
All quarters

25A Advanced Dressmaking
Remodeling of dress, making an evening or afternoon gown and fancy blouse.

(5 credits)
Winter and summer quarters

26A Tailoring
Making two-piece suit and blouse, or coat and dress.

(3 credits)
Summer quarter

27 Costume Design
A study of types of persons and types of line, material, color, etc., suited to each. Presentation lessons.

(3 credits)
All quarters

30 Spring Millinery
Making of spring and summer hats, and making of various kinds of trimmings.

(3 credits)
Spring and summer quarters

31 Fall Millinery
Making of frames for fall and winter hats; covering and trimming them.

(3 credits)
Fall and summer quarters
The Manual Arts Division aims to reach three classes of students: first, those for whom the teaching of manual arts is a major subject; second, those who desire to do some teaching of manual arts, or make it their minor subject; third, students for whom such courses as are announced below may constitute part of a program of liberal study.

All courses numbered from 100 to 199 are for freshman study; courses numbered from 200 to 299 are sophomore courses; courses numbered from 300 to 399 are junior courses; from 400 up senior courses; all courses numbered from 1 to 99 are elective subjects and not courses for those intending to teach manual arts.

WOODWORKING COURSES

100 Toycraft

A course for teachers who desire to give some handwork in wood to their classes in the rural schools. This course deals with toy construction in its many forms.

(3 credits)
Fall, spring and summer quarters

101 Rural and Elementary Woodwork

A graded course of problems and tool work for fourth and fifth grades. Work in thin wood, kites, bird houses, farm, poultry yard, garden and house problems is given.

(3 credits)
Fall and summer quarters

102 Elementary Joinery

A course of practical projects for the sixth grade, consisting of housed, half lap and glued joint problems. Curved line work, oak upholstered stools, and mechanical drawing are also included.

(3 credits)
Winter and summer quarters

230 Elementary Furniture Construction

An elementary course in cabinet making, involving the construction of a piece of furniture having mortise and tenon joints,
upholstery, caning, reed, rush, splint, and cord weaving, etc. Considerable attention is given to the correct tool processes, and a study of the various materials used.

(3 credits)
Spring and summer quarters

320 Advanced Furniture Construction

This is an advanced course in cabinet making. Mortise and tenon, drawer, panel, and veneer construction are taken up, also, turned, band-saw work, fluting and inlay may be used in the piece constructed. Prerequisites: Courses 102 and 203.

(3 credits)
Spring and summer quarters

103 Elementary Carpentry

Simple framing, finishing, study of lumber in the construction of some small building or parts of buildings.

(3 credits)
Spring and summer quarters

340 Mill Work

The purpose of this course is to give the student a practical working knowledge of the various wood-working machines. Special attention is given to the installation, maintenance and the care and use of machines that are used in an up-to-date wood-working shop.

(3 credits)
Fall and summer quarters

350 Pattern Making

This is an advanced shop course and requires considerable skill in the use of wood-working tools, and a thorough foundation in mechanical drawing. Arrangements are made for observation of foundry practice and pattern-making as it is carried on in the best commercial shops. Patterns are made for machine parts. The construction of a set of patterns for machines that can be used in the Manual Arts shop will be taken up.

(3 credits)
Spring and summer quarters
214  **Elementary Woodturning**  
A short course which takes up the use and care of lathes and tools. Spindle and face-plate work is done.  
(1 credit)  
Winter and summer quarters

12  **Advanced Woodturning**  
A longer course which takes up oval, chuck and spiral turning. Also includes work done in course 104.  
(2 or 4 credits)  
Fall, spring and summer quarters

330  **Wood Finishing**  
In this course a study is made of the various finishes that are used in the Manual Arts shop. Besides making the stains and fillers that are used in the wood-working classes each student is required to take pieces of the various woods that are commonly used and completely finish a set of samples.  
(1 credit)  
Winter and summer quarters

106  **Production Course**  
Factory methods, as far as our shops will permit, are used in the production of projects in this course.  
(1 credit)  
Winter and summer quarters

**METAL COURSES**

240  **Auto Mechanics**  
A study of automobile engine construction and operation, carburetor, ignition, and general automobile repair. Practical work in repairing, adjusting, and maintenance of automobiles.  
(3 credits)  
Winter quarter

420  **Radio, Theory and Construction**  
Theory of transmission and reception, detectors, tuners, regeneration, amplifiers, loud speakers, etc. A study of various circuits used in receiving sets, construction and operation of receiving sets.  
(3 credits)  
Winter quarter
110 Elementary Electrical Work
The building of buzzers, motors, and wireless sets. Work with batteries and bell circuits.
(2 credits)
Spring and summer quarters

120 Sheet Metal
This course is divided into two parts: elementary work that can be given to seventh grade boys with a minimum equipment, and machine work that can be used in high schools.
(3 credits)
Spring and summer quarters

DRAWING COURSES

205 Descriptive Geometry
The point, line, plane, plane figures, inter-sections, shades and shadows, developments and intersections of curved surfaces, are covered.
(4 credits)
Fall and summer quarters

202 Mechanical Drawing
A course that can be used with first year high school students. The layout of the sheet, geometrical construction, lettering, theory of shape, description and placing views are the topics taken up.
(3 credits)
All quarters

301 Advanced Mechanical Drawing
A course that can be used with second year high school students. The following topics are taken up: Freehand drawing, pictorial, cabinet and perspective drawing, principles of size, description and technic of the finished drawing. Tracing and blueprinting are also done.
(3 credits)
All quarters
302 Architectural Drawing

Architectural lettering, foundations, framing, mouldings, details of building construction, wall coverings, stairs and conventions are taken up.

(3 credits)
All quarters

303 Advanced Architectural Drawing

Preliminary planning, sketching, floor plans, elevations, details, inking, tracing and blueprinting.

(3 credits)
All quarters

305 Machine Drawing

Working drawings, fastenings, rivets, pipes, pipe fittings, screw threads, springs, keys, cotters, shafting, shaft coupling, stuffing boxes, bearings, journals, and hangers are the topics taken up.

(3 credits)
All quarters

306 Advanced Machine Drawing

Pistons, piston rods, crossheads, engine cranks, eccentrics, pulleys, belting, spur gears, bevel gears, worm gears and valves are the topics taken up.

(3 credits)
All quarters

1 Engineering Drawing

Applied geometry, lettering, orthographic projection, developed surfaces and intersections, and pictorial representations are the topics taken up.

(4 credits)
Fall and summer quarters

2 Engineering Drawing

Pictorial representations, bolts, screws, working drawings and technical sketching.

(4 credits)
All quarters
3 Engineering Drawing
   Structural drawing, map drawing, blue printing and tracing.
   (4 credits)
   All quarters

ORGANIZATION, ADMINISTRATION, AND THEORY COURSES

206 Observation and Supervised Teaching of Shop Work
   This course gives the student practical experience in conducting Manual Arts classes. Under supervision of an experienced teacher the student has charge of classes of boys from the training school.
   (2½ credits)
   All quarters

145 Psychology of Manual Arts Teaching
   The primary aim of this course is to assist in the making of necessary connections between the more general courses in educational psychology and the theory of teaching in the special subjects.
   (2 credits)
   Winter and summer quarters

150 Organization and Administration of Manual Arts
   The underlying principles of shop organization are studied. Planning, installing, cost of equipment, and the administration of Manual Arts courses in elementary and secondary schools are the fundamental points covered.
   (2 credits)
   Spring and summer quarters

OTHER COURSES

220 Elementary Printing
   The work of this course consists of study, observation and practice in the processes of the print shop, working toward the forming of proper habits of work. The work includes the use of the composing stick, emptying stick on the galley, taking proofs and correcting the type matter.
   (3 credits)
   Fall and summer quarters
The Normal Seminar

360 Printing
Second quarter work is taken in this course. (3 credits)
Winter quarter

361 Advanced Printing
Third quarter work is taken in this course. (3 credits)
Spring quarter

107 Concrete
A course that can be used successfully with seventh grade classes. Classroom talks, sketching, drawing building forms, placing, curing and testing are the content of course. (3 credits)
Fall and summer quarters
1 **Psychology**

A course which aims to give the student (1) the technical vocabulary of the subject and (2) psychological laws and theories which will enable him to better understand child life and teaching methods.

(5 credits)
All quarters

2 **Rural Sociology**

An introductory course with special reference to farm and home conditions as found in the Northwest.

(3 credits)
Fall, winter and summer quarters

3 **Rural Administration and School Law**

A course dealing with rural administrative problems and school laws for the State of Washington.

(3 credits)
All quarters

4 **Observation and Methods**

This course is concerned with the practical working of psychological laws. One-half of the time is spent in the training school observing expert teaching which is discussed from the standpoint of applied psychology.

(5 credits)
All quarters

5 **Principles of Education**

The purpose of this course will be to gather information from the various fields of science, sociology, philosophy, etc., and so organize it that the student will build up for himself a body of principles in terms of which to evaluate new processes and solve new problems.

(5 credits)
All quarters
6 Child Study

This course is designed to present the facts, as far as they have been scientifically determined, concerning the nature and development of the child mind. Not given in 1923-24.

(3 credits)
Spring and summer quarters

7 Primary Methods

This course will deal with such problems as phonics, seatwork, numbers, home geography, beginnings in reading, language work, etc. For teachers of the first to fourth grades.

(5 credits)
All quarters

8 Intermediate Methods

This course will deal with the problems that confront teachers in grades four to six. Special emphasis will be placed on methods of teaching arithmetic, language, geography and history.

(5 credits)
All quarters

9 Upper Grade Methods

This course will deal with the problems of grades six to nine inclusive. A brief study will be made of the Junior High School movement, and of the problems of method and organization involved.

(5 credits)
All quarters

10 Reading Methods

This course deals with the results of the investigations designed to discover the best methods of teaching reading in the grades. It deals with the physiological and psychological phases of the problem, as well as with the pedagogical principles.

(3 credits)
Winter and summer quarters.
11 Primary Source Materials
This course is designed to provide a first hand acquaintance with the best texts and supplementary material for the primary grades in the various subjects taught.
(3 credits)
All quarters

12 Upper Grade Source Materials
A study and compilation of supplementary and illustrative materials suitable for grades four to nine, inclusive. Application of the above to teaching units.
(3 credits)
All quarters

13A Curriculum Study
A foundation course in methods giving particular attention to the principles underlying the selection and organization of elementary curricula, and the best methods of presenting this material.
(3 credits)
Spring and summer quarters

14 Method of Study
A course designed to improve the college student's own method of study and to furnish him with practical insight into how to develop effective methods of study among children.
(2 credits)
Fall quarter

15A History of Education in America
A study of great educational movements. Some attention will be given to colonial education but the greater part of the time will be given to events following 1800.
(3 credits)
Winter and summer quarters

16A Advanced Educational Psychology
A survey of the literature of the last ten years bearing on the psychology of the teaching process. Cannot be taken without permission of the instructor.
(5 credits)
Spring and summer quarters
17A  Educational Surveys, Tests and Measurements
A practical course giving the student practice in giving and interpreting the various tests, scales and other measurements designed to measure educational products.

(5 credits)
Winter and summer quarters

18A  School Administration
This course is planned with special reference to the needs of those working in small school systems and will deal with practical problems.

(5 credits)
Spring and summer quarters

19A  Measurement of Intelligence
This course aims to familiarize the student with the literature of the subject as well as to give practice in giving and interpreting mental measurements.

(5 credits)
Fall and summer quarters

20A  Ethics
A course dealing with the relation of the individual to society. The work is based on a text and wide outside reading. Each student is required to present an acceptable thesis on some ethical problem.

(3 credits)
Fall quarter

21A  Systematic Psychology
A course in pure psychology. The main emphasis will be upon the phenomena of mind without reference to any educational applications. Open only to those who have had general psychology. Not given in 1923-1924.

(5 credits)
Fall and summer quarters
HEALTH EDUCATION

Courses 1 and 2, Personal and Applied Hygiene, include physical training and the study of general and personal hygiene and sanitation. The physical training work is given two days a week. This work is taken throughout the junior year—three quarters.

1 Junior Work for Women
   (a) Folk Dances.
       All quarters
   (b) Gymnastics.
       All quarters
   (c) Games of Skill and Athletics. Field work.
       All quarters
       (No credit)

2 Junior Work for Men
   (a) Athletics.
       Football and other field work, games for school playground.
       Fall quarter
   (b) Calisthenics.
       Calisthenic drill, marching evolutions and gymnastics.
       Winter, spring and summer quarters
   (c) Apparatus Work.
       Light apparatus work, corrective exercises and marching evolutions
       All quarters
       (No credit)

3 Educational Hygiene
   For both men and women of the junior year. Personal and general hygiene, physiology, sanitation, school hygiene and medical inspection.
   (3 credits)
   All quarters
4 Educational Hygiene
Advanced course for students who have completed course 3 or its equivalent.
(2 credits)
Winter quarter

5 School Hygiene
A general lecture course.
(1 credit)
Winter and summer quarters

6 Method Course in Physical Training
Senior requirement. Method course dealing with the main features of physical training for the eight grades. This course aims to give the teacher material suitable for all grades, methods of teaching it, and acquaintance with the educational values of a system of physical training.
(3 credits)
All quarters

7 Swimming
Swimming for beginners.
(No credit)
All quarters

8 Gymnastics and Corrective Work
Classes and individual work arranged according to need.
(No credit)
All quarters
HISTORY AND SOCIAL SCIENCE

HISTORY

1 Sociology
The object of the course is to develop a clear conception of the nature of social relations. The subjects studied are: (a) the influences that shape society; (b) the perspective of social evolution; (c) social control; (d) social pathology.

(5 credits)

(5 credits)

Fall and summer quarters

*15A American History, 1783-1865

Formation of the Constitution, political development, western expansion, the slavery question, secession, to the end of the Civil War.

(5 credits)

Winter quarter

*By taking courses 14, 15, and 6, students will be enabled to pursue the study of American History intensively for a full year.
1 Theory of Shorthand
The Gregg system is taught. Theory and technic of the system.
(5 credits)
Fall and summer quarters

2 Intermediate Shorthand
Business letters from dictation at a speed of about seventy-five words per minute.
(5 credits)
Winter and summer quarters

3 Advanced Shorthand
Technical and general matter with increased speed.
(5 credits)
Spring and summer quarters

4 Beginning Typing
Mastery of the keyboard and technic of typing. The touch method is taught.
(5 credits)
All quarters

5 Intermediate Typing
Preparing for manuscripts, legal papers, and civil service requirements.
(5 credits)
All quarters

6 Advanced Typing
Development of greater speed and accuracy. Mimeographing and manifolding.
(5 credits)
Winter, spring and summer quarters
7 Elementary Bookkeeping
Retail business. Individual proprietor. Fundamental principles. Use of purchase, sales and cash books, journal and ledger. Practice in the preparation and handling of negotiable instruments and other business papers, keeping a bank account, etc. Trial balances and statements.
(5 credits)
All quarters

8 Intermediate Bookkeeping
(5 credits)
All quarters

9 Advanced Bookkeeping
(5 credits)
All quarters

10A Commercial Law
(5 credits)
Winter and summer quarters

11 Penmanship
Legibility and speed emphasized. Forearm movement.
(No credit)
All quarters

12A Higher Accounting
Cost accounting.
(5 credits)
All quarters
13A Secretarial Training

Dictation and transcription of actual letters together with office practice fitting the student for the work of a secretary. Courses 1, 2, 3, 4, 5, and 6 are prerequisites.

(5 credits)
Fall and summer quarters

14A Teaching of Shorthand

A study of the texts used in high schools with emphasis on methods of developing speed. Prerequisites: courses 1, 2, and 3 in Commerce.

(3 credits)
Spring and summer quarters

15A Teaching of Bookkeeping

A study and discussion of the various methods of approach to the subject, books of original and final entry, statements, etc., with an opportunity for practice teaching. Prerequisites: courses 7, 8 and 9 in Commerce.

(3 credits)
All quarters

16 Machine Bookkeeping

Training in the use of posting and calculating machines.

(3 credits)
All quarters

20A History of Commerce

A study of the development of commerce and commercial methods with emphasis on the period since the Industrial Revolution.

(5 credits)
Spring quarter

21A Marketing

Its growth, principles and processes, including the functions of the middleman; also a study of transporting, storing, and the problems of co-operative marketing will be offered.

(3 credits)
Summer and fall quarters
22A Railway Transportation

A study of the economic problems of the railway systems in the United States, with a special study of the Interstate Commerce Commission, and the present trend of transportation problems.

(5 credits)
Summer and fall quarters

23A Business Organization

A study of the forms of business organization, including the development of corporations, trusts and monopolies and the problem of their regulation will be given special attention.

(3 credits)
Spring quarter

24A Retail Merchandising

A special study of the retail store; its management, policies, organization, etc. Also a study of the department stores and mail order houses will be offered.

(3 credits)
Winter quarter

OTHER COURSES giving credits in this department are:
Commercial Geography (see Geography).
Commercial Arithmetic (see Mathematics).
Business Writing (see English).
The following courses in commerce are open only to those who have had two years' work above high school or its equivalent.
THE LIBRARY

COURSE IN LIBRARY METHODS

A course of 10 lessons is given to all regular students. This course aims to suggest to students the value of:

1. The dictionary card catalog and other library tools.
2. The best reference books.
4. Specific knowledge in the organization of school libraries.
5. Wide reading through life for knowledge and development, recreation and uplift.
6. Libraries for all citizens with emphasis on the place of the county library.
100 Elementary Grammar
Required of all first year students. See course 1.
(5 credits)
All quarters

1 Review Grammar
A rapid review course. May be substituted for course 100.
Not given for less than ten students.
(2 credits)
All quarters

2 Composition
Sentence structure, punctuation, paragraphing. Required for
graduation. Prerequisite: 100 or 1.
(3 credits)
All quarters

3 Story-Telling
A course dealing with the materials for story-telling in all
the grades, and the bibliography of literature suitable for grades
1-4, inclusive. Required of all students in the primary course and
recommended to others. Prerequisite: Senior standing.
(5 credits)
All quarters

4 Juvenile Literature
A study of the literature available and suitable for grades
5-8, inclusive. Required of all students specializing in the in-
termediate course. Prerequisite: Senior standing.
(5 credits)
All quarters
5 Advanced Grammar
An intensified study of the subject. Recommended to all students in the intermediate and rural courses. Prerequisite: English 1 or 100.
(5 credits)
Summer and winter quarters

6 Masterpiece Course
A study of various masterpieces, both prose and poetry, illustrating various types of literary expression and art.
(5 credits)
Spring quarter

7a Major Poets of the Romantic Period
Wordsworth, Coleridge, Byron, Scott, Shelley, Keats.
(3 credits)
Spring quarter

7b Tennyson and Browning
(2 credits)
Spring quarter

8A Victorian Prose
Carlyle, Arnold, Ruskin, Mill.
(3 credits)
Summer quarter

10A English Novel
(3 credits)
Fall quarter

14 Shakespeare
Romeo and Juliet, Lear, Richard III, Hamlet. Not open to first year students.
(3 credits)
Winter quarter

15 History of the Language
A brief survey of the forces that govern the development of the English tongue. Open to seniors.
(2 credits)
Spring quarter
16 Contemporary Poetry
   (2 credits)
   Fall quarter

18A Contemporary Drama
   A rapid reading of modern plays with a study of present day
   stage conditions. Open to seniors.
   (3 credits)
   Summer quarter

20A The Beginnings of American Fiction
   Brown, Irving, Cooper, Poe, Hawthorne. Open to seniors.
   (3 credits)
   Winter quarter

30 Oral English
   Students in Manual Arts or Home Economics may substitute
   this course for Expression 1.
   (3 credits)
   Winter quarter

31 Rhetoric and Composition
   A study of the paragraph and expository style.
   (3 credits)
   Fall quarter

32 Journalism
   Open only to those on the staff of the school paper.
   (3 credits)
   All quarters

33 Business Correspondence
   The kinds of business letters and the psychology back of
   each.
   (3 credits)
   Winter and summer quarters

41A The Oratory of the Old Testament
   (3 credits)
   Fall quarter
42A The Poetry of the Old Testament
   (2 credits)
   Spring quarter

44A Greek Drama in Translation
   The work of the major Greek dramatists in English translation. No knowledge of Greek is required.
   (3 credits)
   Summer quarter

MODERN LANGUAGES

FRENCH

(Not less than three quarters of French will be accepted as credit toward graduation.)

1, 2, 3 Beginners' Course
   Grammar, composition, reading of simple texts.
   (5 credits per quarter)
   Fall, winter and spring quarters

4, 5, 6A Intermediate Course
   Reading of texts, conversation, composition. Prerequisite: One year of French.
   (5 credits per quarter)
   Fall, winter and spring quarters

7, 8, 9A Advanced Course
   Open only to those who have had two years of French.
   (Credits to be arranged)

SPEECH

1 Reading
   A study of the fundamentals of reading with practice in the art. Required for graduation.
   (3 credits)
   All quarters
2 Corrective Speech
A study of the causes and the correction of bad practices and disorders of speech. Emphasis laid upon phonetics.

(2 credits)
Winter quarter

3 Literary Interpretation
The application of mental and vocal technique. Recommended to teachers of Reading and English. Prerequisite: Course 1.

(3 credits)
All quarters

4A Extemporaneous Speaking
A study of the principles of extemporaneous speaking and their application. Prerequisite: Course 1.

(3 credits)
Fall quarter

5A Debate
Open only to those on inter-school debating teams.

(2 credits)
Winter quarter

6A Public Reading
A course for those who show marked interpretative ability and who wish to specialize in dramatic platform work. Prerequisite: consent of the instructor.

(2 credits)
All quarters

7A Argumentation
Training in the analysis of questions, arrangement of material, brief making, and speech writing. Practice in rebuttal and defensive argument. Prerequisite: course 4.

(3 credits)
Winter quarter
8A Oratory
Practical application of persuasion to the various forms of oratory. An original oration must be written and delivered. Prerequisite: course 4.
(2 credits)
Spring quarter

9A Play Production
A practical course in the staging of plays. Every student has actual experience in both acting and play management.
(2 credits)
Fall and spring quarters
1 Sight-Singing and Ear-Training
The tone relationships of the major and minor modes in songs and dictation. The rudiments of music.
(3 credits)
All quarters

2 Primary Music Methods
A study of methods and representative material suitable for the primary grades.
(3 credits)
All quarters

3 Advanced Music Methods
A study of methods and representative material suitable for the intermediate and upper grades.
(3 credits)
All quarters

5 Music Appreciation
A chronological survey of the work of the great masters from Palestrina to Wagner.
(2 credits)
All quarters

6 History of Music (a)
The story of music history. The elements of musical form.
(2 credits)
Fall, spring and summer quarters

6 History of Music (b)
The history of music considered topically.
(2 credits)
Winter and summer quarters
The Normal Seminar

7A Supervisor's Course in Music
A study of the supervisor's problems. Comparative methods and materials. Dictation and conducting.
(5 credits)
Spring and summer quarters

8 Elementary Harmony
The practical application of simple harmonies in the harmonization of melodies.
(2 credits)
Fall, spring and summer quarters

9 Advanced Harmony
A continuation of the foregoing with more advanced material.
(2 credits)
Winter and summer quarters

10 Chorus
(1 credit)
Winter, spring and summer quarters

11 Glee Club
(1 credit)
Fall quarter

12A Form and Analysis
Chord reading. A study of masterpieces from the standpoint of form.
(2 credits)
Winter quarter

13A Composition of Music
Assigned projects in the composition of songs, anthems, and short instrumental pieces.
(2 credits)
Spring quarter

14 Orchestra
The study and public performance of overtures and symphonic movements.
(1 credit)
All quarters
16 **Piano**  
(One credit per lesson per quarter)  
All quarters

17 **Violin**  
(One credit per lesson per quarter)  
All quarters

18 **Voice**  
(One credit per lesson per quarter)  
All quarters

19 **Organ**  
(One credit per lesson per quarter. Class limited to ten students.)  
All quarters

19a **Arranging and Conducting**  
The arranging of four-part music for string and wind instruments. The theory and technique of conducting.  
(2 credits)  
Fall and summer quarters

20 **Chamber Music**  
The study and public performance of classical quartets, trios, etc.  
(1 credit)  
All quarters

**PRACTICE AND TUITION FEES FOR PRIVATE LESSONS IN MUSIC**

Instruction in vocal and instrumental music is given in private lessons at the following rates of tuition:  
One lesson per week, $15.00 per quarter. (12 lessons.)  
Two lessons per week, $24.00 per quarter. (24 lessons.)  
The pianos for practice may be rented at the following rates:  
One hour daily for 12 weeks, $3.00.  
Two hours daily for 12 weeks, $6.00.  
The charge for practice on the organ is 30 cents per hour.  
Private lesson periods are thirty minutes in length.

A special course for supervisors of music is offered with 34 credits required in music subjects. A special bulletin pertaining to this course will be sent upon application to the Director of the Department of Music.
1 Arithmetic
This course seeks to accomplish two ends. It affords a good review in the subject and gives some attention to methods of teaching. The course is required of all juniors preparing for rural, intermediate or upper grade work, or for the elementary certificate.
(5 credits)
All quarters

2 Commercial Arithmetic
A brief course upon accuracy of computation and efficiency of process.
(4 credits)
Winter and summer quarters

3 Solid Geometry
This course requires a year's work each in plane geometry and algebra.
(5 credits)
Spring and summer quarters

4 College Algebra
The course gives a rapid review of secondary school algebra with some consideration of advanced topics in algebra that would be necessary in further work in mathematics. This and the following courses in mathematics are accepted in the junior and senior years.
(5 credits)
Fall and summer quarter

5 Plane Trigonometry
A practical course in the solution of triangles including the development of necessary formulae.
(5 credits)
Winter quarter
6 Analytic Geometry
A continuation of the year's work in mathematics.
(5 credits)
Spring quarter

7A Differential Calculus
This course gives the usual fundamentals of the subject.
(5 credits)
Fall quarter

8A Descriptive Geometry
A course given for third year students in Manual Arts.
(5 credits)
Spring quarter

GEOGRAPHY

1 Elements of Geography
A junior college course dealing with the fundamental principles of human adjustment to geographic environment. The course aims (1) to develop in the student the power to interpret physical environment in terms of its influence on human activities; (2) to train the student in the selection and preparation of essential material for teaching of geography. Required of all students.
(5 credits)
All quarters

2 Methods and Graphics
A study of teaching methods involving (a) the contrasting of old and new methods of teaching geography in application to actual teaching problems; (b) the organization and interpretation of geographic facts in the form of charts, maps and graphs. Prerequisite: course 1.
(2 credits)
Winter and spring quarters
3 Commercial Geography
A course dealing with (a) geographic factors which control production; (b) commodities produced to meet modern needs; (c) geographic factors controlling trade in these commodities with special emphasis on principles of transportation and world trade routes. Should be taken by all those who expect to teach as well as by those who are in commercial work. Prerequisite: course 1.
(3 credits)
Summer and winter quarters

4 North America
A regional course in which the principles of course 1 are applied to the study of a continent. The study of the physical features is approached through the distribution of industries and population in each country, and emphasis is placed on factors determining future development. Prerequisite: course 1.
(3 credits)
Winter quarter

5 South America
A regional study of South American problems emphasizing our commercial relations with South America. Prerequisite: course 1.
(3 credits)
Summer and spring quarters

6 Physical Geography
A course adapted either as preparation for the state teachers' examination or for advanced credit.
(3 credits)
Summer quarter

7 Geography of Washington
A study of the contrasted geographic environment of the eastern and western part of our state applied to distribution of industries and population. The course is intended to train teachers in the geographic interpretation of home surroundings and in the use of current study material.
(2 credits)
Fall quarter
8A Geographical Influences in American History
A study of the geographic factors which have shaped our history. Special emphasis is placed on the westward movement; on the rise of cities; the growth of trade and transportation; and the place of the United States as a world power. Prerequisite: permission of instructor.
(3 credits)
Fall quarter

9A New World Problems
A study dealing chiefly with the geography of the new Europe and the geography of her colonial problems. Other continents are studied incidentally in terms of their geographic influence upon post-war problems. Prerequisite: same as for course 8.
(3 credits)
Winter quarter

CHEMISTRY

1-2-3 General Chemistry
The principles of chemistry and the properties of the elements and their more important compounds, with emphasis on the applications of chemistry to industry and everyday life.
This is essentially a single continuous course extending throughout the regular school year. Students should plan their programs so as to include all three courses during successive fall, winter and spring quarters.
Three class periods and two double laboratory periods per week. Laboratory fee $1 each quarter.

1 General Chemistry
(5 credits)
Fall and summer quarters

2 General Chemistry
Continuation of course 1. Open only to those who have completed Course 1 or its equivalent.
(5 credits)
Winter quarter
3 General Chemistry

Continuation of course 2. Open only to those who have completed Course 2 or its equivalent.

(5 credits)
Spring quarter

5-6 Qualitative Analysis

Review and extension of chemical principles applicable to analysis; the systematic detection of metals and acid groups leading to the identification of simple inorganic substances. Prerequisite: General Chemistry.

Continuous throughout two successive quarters; largely laboratory work.

Two class periods and three double laboratory periods per week. Laboratory fee $1 each quarter.

5 Qualitative Analysis

Open only to those who have completed General Chemistry or its equivalent.

(5 credits)
Winter quarter

6 Qualitative Analysis

Continuation of Course 5; open only to those who have completed Course 5.

(5 credits)
Spring quarter

7-8 Organic Chemistry

An introduction to the chemistry of the carbon compounds including the principles of organic chemistry and methods of preparation and properties of the typical and more important organic compounds with special attention to those which are of importance in industry and everyday life. Prerequisite: General Chemistry.

Continuous throughout two successive quarters.

Three class periods and two double laboratory periods per week. Laboratory fee $1 each quarter.
7 Organic Chemistry
Open only to those who have completed General Chemistry or its equivalent. Not given in 1924-1925.

(5 credits)

8 Organic Chemistry
Continuation of Course 7; open only to those who have completed Course 7. Not given in 1924-1925.

(5 credits)

PHYSICS

1-2-3 General Physics

The laws of force and motion, properties of matter, nature and transformations of energy and the fundamental physical phenomena of the universe with illustrations and application of the principles to familiar things.

Divided into three quarters, any one of which may be taken independently of the others, but if possible Mechanics should precede any other work in physics and students are advised to take all three quarters in succession.

Three class periods and two double laboratory periods per week. Laboratory fee $1 each quarter.

1 General Physics: Mechanics and Sound
(5 credits)
Fall quarter

2 General Physics: Heat and Light
(5 credits)
Winter quarter

3 General Physics: Electricity and Magnetism
(5 credits)
Spring and summer quarters
1  Teacher Training
Supervised teaching in the primary grades: first, second and third.
(5 credits)
All quarters

2  Teacher Training
Supervised teaching in the intermediate grades: fourth, fifth and sixth.
(5 credits)
All quarters

3  Teacher Training
Supervised teaching in the seventh and eighth grades.
(5 credits)
All quarters

4A Teacher Training
Supervised teaching in any grade for those who have completed the two-year course.
(5 credits)
All quarters
