Good and bad of the COVID-19 pandemic

Jose L. Diaz

Name for posting: Jose L Diaz

Major and expected graduation: MSW-Social Work and June 2024

Additional information: Love to cook, travel, and dance!

Your experience during COVID-19:

The pandemic has been good and bad to me in many ways. I have lost love ones due to the pandemic and had my work hours reduced due to the pandemic. But the pandemic has also been a positive experience. To explain, I have been given many opportunities due to the pandemic. I been able to work from home and help individuals apply for Medicaid when exposed to COVID 19. I been able to attend school online utilizing zoom and Microsoft teams. And I learned so much about viruses that I didn't even know before like the fact that our bodies constantly takes in viruses and extracts them each day. So overall the pandemic has changed my life in both good and bad ways.
