Opportunities during the COVID-19 pandemic

Angel Gutierrez

Name for posting: Angel Gutierrez

Major and expected graduation: Business, 2025

Additional information:

Your experience during COVID-19:

During the pandemic it was really easy. The reason is because when schools were shut down and everyone was force to go online. I went to work during the pandemic I found an essential job that hired me on the spot. This was a huge deal for me because I knew it well prep me for when college began. I had enough money saved up to buy myself a 2015 car, not only that but I saved up enough to pay my apartment rent for the first quarter with out worry. Although the pandemic has a negative impact I had seen many opportunities from this.
