The Women's Center is for Everyone

EWU Women's Center Monroe 114 359-2847 (Cheney) 458-6327 (Spokane)

Welcome to Eastern Washington University's Women's Center. Located on the first floor of Monroe Hall in Room II4. We're open from 8:30-4:30 daily. All students, staff, faculty and community members are invited to participate in the activities sponsored during the year or just drop in for a cup of coffee or a quiet area to read. We maintain a library and topical files on issues relating to women, make referrals to University resources and local agencies, and arrange for counseling services. Our noon program series is free and open to the public. If you're interested in meeting our staff and learning more about what the Center can offer you, please stop by.

PROGRAMS

Women in Action: The Spokane Regional Women's Commission: In April, 1986, a grassroots group of concerned women formed the Spokane Regional Women's Commission in order to advocate locally for a full voice and role for women. Since its inception, the Commission has organized 10 task forces on issues concerning local women, including employment, education, cross cultural support, health, lesbian support, single parents, government, child care, violence against women, and older women. The Commission has been instrumental in drawing attention to city and county affirmative action issues, employment and policy within the police department, and the current escalation of serial rapes in Spokane. Madeline Kardong, President of the Commission, will speak about how the Commission functions to respond to local needs, why it has been so successful in addressing those needs, and what current issues are facing the Spokane area now.

"Reflections: Margaret Mead:" Filmed in three days of extended conversation with anthropologist, writer, teacher and social critic Margaret Mead, "Reflections " presents this remarkable woman reflecting on her life and her career. Most famous as a popularizer of anthropology, Mead discusses social and technological change and its impact on cultures, the changing relationships between the sexes, and the future of the nuclear family. This film includes footage of her visits to the remote cultures she studied, and is from the Profiles in Reflection Film Series.

EWU'S OWN; BACKPACKING BUILDS WOMEN

According to popular perception, the liberated woman of the 80's is healthy, active, assertive, easily avoids "guilt trips," and always communicates openly and honestly. Seven intrepid EWU faculty women honed their brave new women skills this August on an overnight backpacking trip to St. Regis Lake in the Montana wilds (Bear Country). Assertiveness training was provided early as we informed several off-road motorcyclists that they weren't allowed on "our" wilderness trail, immediately followed by a workshop in coping with guilt as we discovered we'd misread the trail regulations. Women's health issues were addressed in a well-attended bunion seminar, and aerobic fitness was promoted as several participants held time trials to determine how fast one could exit the oh-so-refreshinmg mountain lake. Most important, we all had the chance to build our communication skills as we discovered just what Chris meant by "the last quarter mile of the trail might be just a bit steep." If you're interested in participating in our brave new women cross country ski outing this winter, contact Chris Jacox, x 2898, or Suzanne Schwab, x 2867, scribe and chief identifier cf plants not chosen to come to dinner.
