**Students view overthrow with eagerness, skepticism**

By Carol Wendt

Iranian students at Eastern are thousands of miles removed from the streets of their homeland, but the promise of a new government has not diminished their interest in the outcome of the growing protests in Iran.

"I don't think it's inconceivable that fear keeps some Iranians from publicizing their views," said Greg Robinson, a NBC crewman and a 42-year-old leader Jim Jones.

A supporter of Huyatollah Khomeini, Hossein looked to the Moslem religious leader as the country's savior.

"The people are not going to be afraid of anything anymore," Hossein said, speculating on the prospect of the holy man taking control of the country and naming a new prime minister.

"Black Friday was the first day of the army fired on the people," Hossein said. The incident happened in Tehran. Hossein's home and the focus of most of the violence the past few months.

**Cult influences waning**

By Nancy Green

Many young Americans are adopting a more cynical attitude about religious cult movements since the Jonestown tragedy in Guyana last November. San Francisco Examiner editor Reg Murphy said Friday.

Murphy, who lost a photographer in the ambush, told Spokane journalists Friday that young people especially are beginning to question cult membership since the Nov. 18 slaying of a California congressman and four members of his fact-finding party. The assassinations were followed by the mass suicide of 913 followers of People's Temple leader Jim Jones.

Rep. Leo Ryan, D-Calif., Examiner photographer Greg Robinson, two NBC crewman and a 42-year-old woman who was defecting from the People's Temple were ambushed by cult members at a jungle airstrip near Jonestown. The group had come to investigate reports of physical abuse and restraint of members who wanted to leave Jones' compound.

"It must have been very hard for the Heath family to have a paper named for you that was so objective that coverage seemed unfair," Murphy said. "Certainly there were times when they were displeased. But we were never pushed to the point that we couldn't do a professional job and maintain credibility in the community."

**Painting out the world**

But most of the questions focused on Jonestown. Murphy described the 27,000-acre agricultural complex as "an incredible turning inward" of society.

"Jim Jones almost literally painted out the world and painted out the windows so that he could see everything in the room but not the outside of the world," Murphy said. "The people at Jonestown had only a single father figure to deal with and no context to the outside world. It's how a society goes crazy.

"The presence of reporters at Jonestown did not target the ambush, as some have claimed. Murphy believes."

"Rev. Jones clearly did not want the outside world to talk about Jonestown and he was not naive enough to believe that Rev. Ray would not make a full report on conditions there," Murphy said.

"It was clear that preparations had been made for the murder of anyone who came to investigate. There were a lot of weapons in the camp."

Reports of the death of photographer Greg Robinson and wounding of reporter Tim Reiserman stunned the Examiner staff, Murphy says. That day was followed one week later by the assassina- tion of San Francisco Mayor George Moscone and city supervisor by a former supervisor.

"This made the staff more dedicated. No one flinched or turned down assignments," he said. "They could understand first-hand the price of trying to describe a society that's gone crazy."

"We were reduced to investigating the deaths," Murphy said, "and trying to find out what happened."

**Altering perception**

At that time Prime Minister Shahpour Bakhtiar still headed the government as an appointee of Shah Mohammad Reza Pahlavi, who fled the country earlier this year.

Hossein described the revolu­tion in Iran as a religious, not political movement.

"A supporter of Huyatollah Khomeini, Hossein looked to the Moslem religious leader as the country's savior."

"The people are not going to be afraid of anything anymore," Hossein said, speculating on the prospect of the holy man taking control of the country and naming a new prime minister.

"Black Friday was the first day of the army fired on the people," Hossein said. The incident happened in Tehran. Hossein's home and the focus of most of the violence the past few months.

**Tradition meets irony**

He described the irony of the violence in relation to an Islamic tradition. "The people bathe themselves every day and put on clean garments in preparation for death. Then they go out in the streets and demonstrate."

His family is typical of Iranians practicing the tradition, then risking their lives in the streets.

When Hossein talked to the **cont. on p. 3**
Legislature eyes fee allotment

Daryl Hagie, provost for student services, and Ken Dolan, assistant to President H. George Frederickson, presented an alternative plan of service and activities fees distribution to the A.S. Legislature Monday.

Hagie told the group of committee of "students, staff and faculty, chaired by Andrew Kelly of the Board of Trustees" has been established to advise the BOT on procedures for allocating $5 and $A fees.

A memo presented by Hagie said that for the past two years, athletics has received 30 percent of the fees, other departmentally-related areas such as fine arts, 10 percent, and Associated student activities, 60 percent.

The administration, however, now proposes that the funds be redistributed 30 percent, 15 percent, and 55 percent, respectively. "But this is by no means final," said Hagie.

The memo stated that departmentally-related and athletic expenditures have decreased by 15 percent and A.S. activities have increased by the same amount.

"I look at it as a cut to direct student services," said Legis­lator Melody Lewis.

Legislator Denver Parmenter said by allowing a committee outside the legislature to distribute funds, the legislature would be in violation of the student constitution.

Parmenter referred to the section reading "all power for S and A budgeting for A.S. students is vested in the A.S. Legislature."

Parmenter said such a violation of the constitution could result in all legislative members being removed from office.

"But such a statement is a little exaggerated," Dolan said.

A.S. Attorney General Ed Woodell said the basic "wrang­ling" of the issue will be in determining whether or not implementation of Dolan and Hagie's plan would be a constitutional violation.

A more concrete figure proposal will be worked out by Hagie, Dolan, A.S. President Ron Woodell, and A.S. Vice President Fred McDowell sometime this week.

Corrections

In last week's review of the memo, "The Roar of the Greasepaint, The Smell of the Crowd," the name of Marcus Jochim was omitted. He played the role of Cocky.

Thawing out

Mr. Groundhog's shadow may have promised six more weeks of winter but spring gave a breath of hope in the Cheney area this week. Higher temperatures and chinook winds have melted much of the snow on campus. But flooding from the run-off has threatened to become another problem for winter-weary residents.

Board handles discrimination

Sexual discrimination and harassment, although not a large problem at WSU, is one that some people can find difficult to handle. They don't know where to go or what to do about it, according to Dr. Joan Niemann, assistant professor of applied psychology.

It was this problem that caused Ken Dolan, affirmative action officer and assistant to the president, to create the Title IX Advisory Committee.

Enacted in 1972, Title IX of the education amendment prohibits sex discrimination in federally assisted education programs. Consisting of Patti Case, director of the student center for academic assistance, Patricia Hahn, chairman of speech pathology and audiology and Niemann, the committee's job is to hear and review complaints relative to sex discrimination, Niemann said.

"We put ourselves in support of women or men who have this problem," Niemann said, "and who feel they've been discriminated against on basis of sex."

Discrimination can include such areas as grades, acceptance into graduate school, hiring prac­tices, physical education or allocation of funds. The committee also handles matters dealing with sexual harassment.

"People don't talk about it," Niemann said. "They feel it happens, but they're not willing to go out on a limb."

A case is first handled as close to its position as possible by the department chairman or supervisor, Niemann explained.

"If it comes to a hearing, then the case goes to the Title IX hearing officer, William Kidd," she added.

The women of the committee will assist in any way possible. They will even accompany the person to the hearing process.

"We will give it in any way needed," Niemann said. "We will hear the person out and give them assistance."

"Hearings could be embarrass­ing," she continued. "Some women find it difficult to go to a man about a harassment problem. It was Dolan's policy to establish a committee for ad­vising."

Harassment of faculty in also a reality, but members are ex­pected to be able to handle such situations, Niemann said.

"The committee is working to improve communications within the institution," she said. "Many people this happens to don't know where to go or what to do. It isn't always easy to handle."

LUNCH MENU

Thursday, Feb. 15: Tomato Soup, Liverwurst on Rye w/Corn Chips, Beef Stew, Fruit Salad Bold
Friday, Feb. 16: Clam Chowder, Tacos, Ravioli, Salami Salad Bold
Saturday, Feb. 17: Brunch
Sunday, Feb. 18: Brunch, Monday, Feb. 19: Brunch, Holiday Special
Tuesday, Feb. 20: Scotch Broth, Sloppy Joes, Salmon Loaf w/Cream Sauce, Ham Salad Bold
Wednesday, Feb. 21: Cream of Chicken Soup, Hamburgers, Macaroni & Cheese, Taco Salad

Lunch tickets are available in the Cashier's Office for 10 lunches for $13.50 or $2.96 per day.
Iran... students view of home

from p. 1

Easterner, he said he hadn't heard from his family in three months. That meant not only that their welfare was a mystery, but also that Hossein's means of support was rapidly dwindling. He hadn't paid for room and board for fall or winter quarter, nor this quarter's tuition. And he had only about $100 left.

Other Iranian students here were facing similar difficulties, he said. Many were sharing their resources to get by. "Some have more, some less. We borrow tests when we can and sometimes do without."

American ignorant

Hossein called the shah an American puppet, whose Prime Minister Bakhtiar was not much better. "It's not a matter of who's in charge, it's who has influence."

...westernization is not modernization

"A lot of Iranians are using American culture to get by. They are not escaping it, they are integrating it."

...and Khomeini as a suitable leader the people will hunger for more, Kourash said.

...and becaus so many interest
groups--devout believers in Islam, anti-shah politi
cians, communists and others--believed in Khomeini for a
certain reason, to depose the shah."

...the political revolution in Iran

"Most of the people now are happy about the political revolution in Iran because they think it is the only way to get a better system."

...and becaus so many interest
groups--devout believers in Islam, anti-shah politi
cians, communists and others--believed in Khomeini for a
certain reason, to depose the shah."

...the political revolution in Iran

Kourash said that the political revolution in Iran has been a success because it has brought about a new government and a new way of life. However, he also said that the political revolution has brought about many problems, such as inflation and unemployment. The Easterner, February 15, 1979, p. 3
Opinion

Chinese parody

To thy Gracious and Most All Knowing Shepherd of the Gnu
and keeper of the Worthy Gus Prints; thy Servant requests understanding.
In this time when the Snow Nun marks our reason
is, a strange Occurrence belafts our Land.
It is a mystery, deep
with little meaning, I fear. That the Little Prince of the Middle Kingdom should journey to our Land and,
of wonders, speak through the mouths of Others! Having taken the humble duty,
Thy Grace of marking the Path of the Little Prince as he travels, this
now I shall relate, the better
that an answer may be revealed
He did, preceding all other travels, visit the Keeper of the Eagle,
the Great Jynx, who truly fears the Throne and is plagued of course
Greatly, in the Crescendo of Crisis.
An Omen!? The Little Prince did talk of many things
before the Great Jynx even the
Gracious Worthies of the Gnu,
Lord Reynolds, Lord David, and Lord
Walker paid homage. The Little Prince, who is also the Keeper of the Dragon,
did speak through the mouths of others!
In true stuff it not strange that the Little Prince should come to
the Eagle's nest only to gesture menacingly at the Bear, his hedge-enemy
beyond the long wall?
Did the Bear not become angry at the Eagle as well as at the Dragon?
But the Little Prince then protested
It was not so much said he
and the Little Prince took
leave of Jynx and travelled
into the Zone of Giants and the Kingdom
of Carter where the monster
Billy doth reign. The Keeper of the
Dragon visited there a Pinto Shrine,
and the Little Prince sniffled of the
Deer's grease of the Second Henry of Ford and
paid slight homage to our fallen King.

The Bible Belt and those others who hide
The Green Great of the Cameras.

And the Student of the Economics. There, faculties are devoted to contemplation in matters
Dear, I fear.
I pray that you, Most Gracious and surely
Most High, will give us
An Answer to this Riddle! And too
I pray that my lines be not writ too
with little meaning, they be judged
similarly.

Your Servant,
William W. Munroe
Munroe is a senior at Eastern, majoring in international affairs.

Letters

Thanks from chief

The Cheney Fire Department wishes to extend its
gratitude to the students of Eastern Washington University
who aided the department during the recent Gordon Manor Apartment Fire.

Quickly evacuating the building, and standing back
during the initial fire fighting
helped more than anyone will know.
The students are highly commendable for their orderly
and unpanicked way of dealing with the fire.
Thank you
Anthony J. Singleton
Fire Chief

Shame on you

As concerned students, my friend and I went out to the
airport today to protest the proposed tuition hike to de-
parting Dixy Lee Ray.

We froze various parts of our anatomy in our attempt to
show Dixy that although we
were only
30 brave souls strong,
we represented a stu-
dent body numbering 7200.
But what does she do? As
she passed the sign carrying
and chanting—albeit freez-
ing—students she merely smil-
ed and waved and sped her
way on to the waiting plane.

We were disappointed that
a greater show of strength was
not made by Eastern's stu-
dents. They don't seem to care
about the increase and won't
feel its effects until it's too
late.

In spite of that we are going
to get our point across and we
won't take the proposed in-
crease lying down.

Else Kay
Lanie Daniels

So you want to be a...?

Sociology

By Carol Wetzl

In an effort to increase flexibility and thus benefit students, Eastern's sociology department is planning to reduce the requirements for a major from 36 credits to 45, said professor Robert Throckmorton, former department director and spokesman for chairman Doug B. Gwyn.

At the same time, course requirements in theory, research and methods were increased when the department program was upgraded a few years ago.

"As a result, some majors were lost, but those completing the program had no trouble getting into the graduate programs of their choice," Throckmorton said. Graduate students (for which there is no program here) have gone on to Kent State University, University of Chicago, University of Toronto, and the London School of Economics, among others.

"However, regardless of the social science discipline chosen, students frequently encounter difficulties getting work with only a B.A.," he said.

"To increase student marketability, the department is introducing a thematic approach to its curriculum. Three areas of study have been developed under the new scheme: Health and Society, Community Studies, and Crime, Delinquency and Corrections.

"Each theme discloses the role sociologists have played in these career areas, the occupational opportunities available and the particular electives in sociology that will best prepare the student for the occupational areas he has chosen as well as a list of supporting courses that will further enhance his or her marketability," Throckmorton said.

By reducing the overall credit requirement for a major, more room is left for supportive courses and a broader educational background created from the students' other interests.

"Sociology provides a particularly good basis for the study of (criminal) deviant behavior, delinquency, and corrections... health problems like alcoholism, drug dependency and emotional illnesses since each issue involves cultural values and beliefs, in addition to social relations."

That's just one example. Sociology can be useful for students interested in everything from journalism to law, Throckmorton said.

Research Stressed

Thanks to Professor Bilal Hashmi, the sociology department is endowed with an unusually large amount of knowledge of third world countries. Hashmi uses his experiences in directing Eastern's Center for Sociological Research.

Research involves issues such as aging and policies dealing with it, industrialization—its social and economic consequences, and other issues at all levels of government and related to the less developed countries.

"I am teaching a course in social development this quarter and I'll say 45 to 70 percent of the students are foreign students," Hashmi said, adding that many are from third world countries.

The foreign students learn various strategies of social development to take back home," he said.

Candidates Forum

Mark Lisi
Position 8
As a student at EWU, I seek to position 8 of the Associated Student Legislature in order to expand my perception of what the A.S. Leg. has done for the student body, and to a greater degree, to discover what the A.S. Leg. has not done for the student body--and why.

I believe that the communication between the student government and its constituency can be made more effective than it has been to date. Students must enjoy a more active role in their legislative process if the A.S. Leg. is to achieve its potential as a true reflection of the student community.

Therefore, my platform, my energies, will be applied toward seeking realistic and efficient methods of input and feedback between the A.S. Leg. and the students of EWU.

Mark Lisi

Arne Stevens
Position 7
During the late 60s and early in this decade, a new order was established on college campuses across the nation. Among the changes which occurred during those years was recognition of the students' right to have some control over their academic environment. Over the last several years there has been a serious erosion of these basic student rights at Eastern Washington University.

We are losing ground to the Great Leviathan which resides in Showalter Hall. Our voice is dwindling in virtually every area of academics and administration. It has been argued that this retribution is a natural response of the "excesses" of the sixties. It has also been argued that students are only around for four years and therefore should have only very limited control over their lot on campus. No matter what the excuse is for denying us our rights we must not let them slip away.

There are three major areas in which we must work:

1) There is strength in numbers. We must involve more people in campus activities, particularly those who commute or take classes in Spokane.

2) We must wrest those controls over academics which are legally ours from the administration. We really have a problem where Service and Activity (S&A) fees are concerned. Major alterations to the student budget are arbitrarily made every year by the Board of Trustees.

3) Most important of all, there must be continuity in government to assure student involvement and rights. We must develop an organization and an information system which will allow us to shadow the system in Showalter hall.

I have been working from outside of student government to accomplish these changes. Now, with your help, this approach will be manifested in the A.S. Government.

Karen Cossey
Position 6
To The Students Of Eastern:

My name is Kathy Svinth, and I am running for leg. position 7. I decided to run for election because I believe in the potential of the Student Body at EWU. As with almost everything, it can be as good as we make it. It is my desire to have more student representation. It is a person's privilege to decide how active they want to be, if at all, in any organization. I want to represent those students who would like to see Eastern be the best it can be and to give those less interested the chance to be aware of what is going on and to let them know that I care about what they think. Change won't happen overnight and it is long in coming, but it is needed and I want to be a part of it...let us共同努力 to openly represent the voice of Eastern. I would like to see the student government strengthened and be made more accessible to the student.

Some issues that I am concerned with are: Dorm Life, Prison or Pleasure; parking citations; and the freedom to express yourself as a responsible individual without having to be afraid of condemnation.

"There is substantial evidence that participation in public affairs is regarded with indifference by vast numbers of members. The average citizen seems to feel the exercise of political rights burdensome, boring, and often lacking in significance."

It has been argued that participation in public affairs is regarded with indifference by vast numbers of members. The average citizen seems to feel the exercise of political rights burdensome, boring, and often lacking in significance.

Gary Mueller
Position 8
My main reason in seeking a position this winter is to convince the student body into attending the A.S. meetings. I attended the February 12 meeting and there might have been eight students present. The student body should take more of an interest in the legislature and EWU itself.

I would also like to fight the tuition increase which our most beloved governor has suggested. This tuition increase could very well keep many people from attending EWU or any other state college in Washington next year. I'm a freshman this year and I feel the need to get involved in Eastern's political system, and the student around.

Barbara Zane
Position 9
Obviously student apathy is running rampant. After watching student political apathy over and over again to overcome this situation, it is my position that student government should represent the entire student population, not yield to the wants of a small pressure group. If you agree with this philosophy then get involved the best way you can, vote in the up-coming student government election.

Donald Dover
Position 6
To The Students Of Eastern:

As a first year student of Eastern Washington University I was appalled to discover the intense bureaucracy of the student government. I was also surprised to find that so few students are involved in student activities. However, when the student legislature represents small special interests. Therefore, if you don't feel the need to be aware of what is going on and to let them know that I care about what they think. Change won't happen overnight and it is long in coming, but it is needed and I want to be a part of it...let us共同努力 to openly represent the voice of Eastern. I would like to see the student government strengthened and be made more accessible to the student.

Some issues that I am concerned with are: Dorm Life, Prison or Pleasure; parking citations; and the freedom to express yourself as a responsible individual without having to be afraid of condemnation.

Cheating: Should its prevention be up to teachers or students?

By Kitty Macinnis

Part one of a two-article series on cheating at the college level, and specifically at EWU, and the teacher-student ratio is low, that's just an invitation to cheat on any test. Even a first-time test. "I think it's better when the proviso to control test conditions," one student said. "When a classroom is jammed and the teacher-student ratio is low, that's just an invitation to look at someone else's paper and copy it," said an economic professor.

On the other hand, one English teacher condones her leaving the classroom during a test. "It depends on what kind of test is given. With essay-type answers, it's pretty hard to look at someone else's paper and copy down everything," she said.

Another English teacher agreed with the foregoing comments. "Cheating assignments at the general education class level have had to be watched carefully though. Depending on the situation, a student would probably be flunked on a particular assignment on which he plagiarized, but wouldn't necessarily be flunked for the entire course," the teacher said.

If the professor is being fair to students in a testing situation and on class assignments, one student said, then he feels less inclined to cheat-or to be unfair to the professor, since they haven't seen anyone looking at places outright, especially during in-class testing. "I haven't seen anyone looking at my papers lately," said one undergraduate.

"My paper's usually kept covered worth the hassle," another student said. "I don't even think about people looking on my papers," another professor said. "In my (music) major, it's almost impossible to cheat, because of the nature of the subject," remarked a co-ed. "You either practice and have the theory backing you up or you don't."

The education teacher said he trusts his students implicitly. "The attitude of a teacher-to-be leans towards eliminating all thoughts of cheating," he said. "And frankly, I like to think my upper level ed students are honest," he said.

Will professors confront a student they suspect cheating? Almost every professor interviewed admitted to turning their head at times when they observed wandering eyes during a test. An English teacher summed up the situation neatly: "I don't notice it sometimes, making a big deal and embarrassing the student is not worth the hassle."

Other professors may go so far as to make eye contact with the student after he was observed. He may or may not receive an "F" on the test. "Sometimes eye contact is enough," said a psychology professor. "A cheater looks for the teacher condoning his leaving the classroom during a test." Other professor said. "Student rights have changed. It seemed that before, an accused cheater had little recourse against his accuser. Now, the accused student was against his own interests. However, though the accused better have good evidence, because students can fight back and appeal."

How had is the cheating problem at Eastern? What happens to cheaters, and what action can the college take?

To answer the first of those questions, not very. "Only a few cases reach my desk-the flagrant ones," said one administrative official.

At Ogdon, assistant provost of student services since 1971, there has been an average of one cheating case per year that his office has dealt with. "As I recall, two of eight plagiarism-related cases were pure and unadulterated," he said. "The rest were more complicated-involving forged grades, breaking and entering buildings, offices and file cabinets, or stealing grade books."

"If the eight, I think at least half-half maybe more-were suspended. You have to realize that not many cases get this far," Ogdon said.

The steps an accused cheater follows are these: if the accuser presses charges for suspension, the student will appear before the University Disciplinary Committee, made up of five faculty members and five students. If, however, further action is decided upon.

Ogdon deals with cases where charges are not pressed. "I'll attempt to meet with the student and refer him for counseling, if it seems appropriate," he explained.

Cheating is usually handled at the classroom level, if it's handled at all. Oddly enough, instances involved in cheating will come before the committee faster than an act of violence. I'd guess it's because cheating is considered to be an act against the body as a whole, whereas being the ones out ahead as a result of their actions, if they're not caught," Ogdon said.

Cheesy Police Beat

Cheney Police Department

Feb. 5, 1979, 8:12 a.m.-John Parker reports a dog at large on the roof of the telephone company. Feb. 7, 1:28 p.m.-A Cheney woman reports a green substance in the street, unknown source, and asked police to identify the substance. Police responded and substance was identified as shark repellent. Repellent appears to be working.

Feb. 9, 11:15 a.m.-Currie Peterson reported that a dog bit her in the chest and back. Police report confiscated property (marijuana paraphernalia) including two cigarettes out rear seat of a vehicle.

Feb. 11, 8:29 p.m.-Mrs. Cliff Ferguson reports a bicycle-car accident at the B leadership Restaurant. Sam Kim, 14, received bruises and small puncture wounds.

You don't have to shop around. Iceland has the best bargain to Europe.

$295 roundtrip.

You've heard a lot about fares to Europe, but none of them can compare with the one you've just found. Iceland Air's 14-5 day JETX fare from Luxembourg is just $295 roundtrip. Tickets must be booked and paid for 30 days in advance. Fare subject to change. No weekend surcharge.

Iceland Air will get you there with your dinner, free cognac, awaken and excellent service all the way across the Atlantic.

We take you to Luxembourg, right in the heart of Europe, where you'll be just hours away by train or car from the center of Europe's most famous landmarks.

Sears: seats are limited, so don't wait any more time before.

You've already found the best bargain to Europe. Cancel now before their governments.

February 15, 1979 THE EASTERNER Page 7
Monte Carlo night set

By Betty Buckley

If a poll were taken to determine the friendliest students on campus, Brandon Powers would rank at the top of almost every one's list.

The dark-haired Powers is now in his second year at Eastern, after transferring from Kearney State College in Nebraska. Once classes are through for the day, he enjoys goofing around with his friends and neighbors in Peace Hall.

Warner just your typical college student, right? Wrong. Brandon is five years older.

Son of Peace Hall director Bob Powers and wife Sandy, Brandon throughly enjoys his life as a dorm resident. The antics and quick tongue of this dark-haired imp has made him a favorite among the college crowd. And he returns this feeling.

“Sometimes they (the students) let me come up to their rooms and even let me water their plants,” he said, grinning. “That’s a lot of fun. I think they ask me up because they like me and cause they think I’m cute.”

While cafeteria food has long been a sore spot in the lives of most college students, Brandon enjoys his trips to Tawakonie Commons.

“I like the food. They have sandwhiches—deee-licious! Good chill, too,” he said. “And I like those little meal tickets.”

Because of his close association with campus life, Brandon is very definite about his reasons for going to college.

“I want to smoke and drink,” he said gleefully. “And then I’ll be a peacemaker—off to stop my dad from smoking. I’d tell him to stop or else I’d put him in jail.”

While he has plenty of girl friends already, Brandon had no intention getting married any time soon.

“My wife will stay home while I work. Because if I didn’t have a little kid—what if we couldn’t get a baby sitter? That’s not worth the hassle anyway,” he explained. “I’ll go out to work because I’m the boss of the house.”

While he enjoys the freedom of dorm life, Brandon says he is aware of the responsibilities that come with it.

“I do exercises. And the spills so hard they hurt,” he said. “And I like earballs too.”

With bedtime at 7 p.m., Brandon squeezes in as much television as possible, including his favorite soap opera, “Santa Barbara.”

“I don’t believe violent programs have had effects on children,” he said. “We just play; we don’t want to hurt each other. So we pretend pretend. We just pretend.”

Another must-see on television is the rock operas. "It’s a fantastic show,” he continued. “The President Jimmy Carter,” he says in a lazy southern drawl. “I’ve seen him on TV, but not for real. I like him. Yippy.”

And as Brandon Powers, a sophisticated college student at the age of five would say, "That’s it now for the news report. See you later.”

"Earnest" opens soon

Spaulding, as Algernon Moncrieff, his friend: Karen Williams as Gwendolen Fairfax, her daughter; Mary Jo Blemenshien as Cecily Cardew, John Wotton’s fiancée; Kate Christiansen as prism, Cecily’s governess; Kris Kittelson as The Reverend Canon Chasuble; C. Michael Isom as Churchwarden; John Ehrman, the butler at Worthing’s house; and Greg Bugge as Algernon’s “Gentleman’s gentleman.”

The play will show each Thursday, Friday and Saturday through March 19. Reservations may be made by calling the University Theatre box office, between 3 p.m. and 7 p.m., Monday through Saturday.
What to do if you sight a Mountain Fresh Rainier

If you see something that you cannot explain, what should you do?

Well, the Rainier Brewery's advice is first to use common sense. Think about it. Quite often you will shortly realize that what you saw has a rational explanation.

If you are convinced that you have seen a Mountain Fresh Rainier, you can report it to the manager of any local grocery store or tavern. Each store has at least one employee who is assigned to such phenomena. If there is no grocery base in your near vicinity, you can give your report to a bartender or to a state law enforcement officer. Often such reports are investigated immediately.

If the MFR's cannot be tracked down, the information is passed on to the proper authorities.

Below is a reproduction of the official questionnaire that is given to persons who report a sighting. If you see an MFR, fill out the form carefully and send it to Rainier Sightings, Joey August Distributing, 400 E. 1st, Spokane, Washington 99203. Your cooperation is greatly appreciated.

Please print

This questionnaire has been prepared so that you can give the Rainier Brewing Company as much information as possible concerning the phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you will give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission.

1. Are you two artist's drawings of authenticated beer shapes. Did the object you observed most resemble (Circle one):
   a. A
   b. B

2. When did you see the object?
   Day
   Month
   Year

3. Time of day (indicate by drawing hands on clock): [Diagram]
   A.M.
   P.M.

4. Where were you when you saw the object?
   Nearest postal address city or town state or county

5. What was the condition of the sky?
   a. Clear
   b. Bright
   c. Cloudy
   d. Overcast

6. If you saw the object during DAYLIGHT, where was the SUN located as you looked at the object? (Circle one):
   a. In front of you
   b. To your left
   c. To your right
   d. Don't remember

7. If you saw the object at NIGHT, what did you notice concerning the STARS and MOON? (Circle one):
   a. None
   b. Bright
   c. Mottled
   d. None
   e. No moonlight - pitch dark
   f. Moonlight - clear
   g. Disappear and reappear
   h. Don't remember

8. These are objects found in the vicinity of recent beer sightings. Circle any or all of similar objects you might have observed at the time of the sighting:
   a. A
   b. B

9. What were the weather conditions at the time you saw the object?
   CLOTHES (Circle one):
   a. Clear sky
   b. Heavy
   c. Scattered
   d. Other

   WEATHER (Circle one):
   a. Dry
   b. Fog, mist, or light drizzle
   c. Moderate or heavy
d. Snow

10. The object appeared:
    a. Solid
    b. Transparent
    c. Vapor
    d. Golden, carbonated liquid

11. The edges of the object were:
    a. Very sharp
    b. Like a bright star
    c. Sharcly outlined
    d. Don't remember

12. Did the object:
    a. Appear to stand still at any time?
    b. Suddenly speed up and rush away?
    c. Break up into parts or explode?
    d. Glow off smoke?
    e. Change brightness?
    f. Snap or pop its top?
    g. Display a fuzzy white cylindrical
    h. Don't remember

13. Tell in a few words the following things about the object:
    a. Sound
    b. Color

14. Draw a picture that will show the shape of the object or objects, label and include in your sketch any details of the object that you saw such as wings, projections, etc., and especially without trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving

15. Where were you when you saw the object?
    a. Inside a building or car
    b. In a grocery store
    c. At the beach
    d. In an airplane (type)
    e. On sea

16. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an arrow on the curved line to show the direction it was moving when you first saw it. Place a "C" on the compass when you last saw the object.

17. Did you observe the object through any of the following?
    a. Eyeglasses, Yes No
    b. Sunglasses, Yes No
    c. Telescope, Yes No
    d. Binoculars, Yes No
    e. Spotting scope, Yes No
    f. Camera, Yes No

18. In 50 words or less, please give your theory for the object and/or true nature of MFR:

19. What is your name?
    a. __________
    b. __________
    c. __________

   Address: __________
   City: __________

   State, Zip: __________

White leads tracksters

By Scott Bahr

Vict White, EWU's high-jump champion, leapfrogged a career-best 7'3" mark last Saturday at the Eastern Washington University Collegiate Indoor Track Meet and led the men's division to a sweep in the jumping events, said Coach Jerry Martin.

White bested his previous mark two inches and is now on his way to Kansas City, Mo. for the National Indoor Track and Field Championships, scheduled for tomorrow and Saturday. White will be defending his national indoor championship.

Martin said White is the favorite to win going into the competition.

The Eagles took six first-place finishes in the men's division, with Bruce Sinkkel winning with the long jump with a 22 feet-11 and three-quarter leap, and Jeff Frederick in the triple jump by 20 feet, 5 and one-half inches. Greg Koonoy won the 60-meter hurdles in 8.1 and former carrier Rick Gehrt took the 1,000-meter run in 2:30.5. The EWU relay team, consisting of Dan Butler, Randy Taylor, Dave Sullivan and Steve Kinsel, won the 400-meter relay.

Other placers in the competition included second-place finishers Paige Sagen in the pole vault and Stan Kerr in the 400-meter dash. The second team for the Eagles took third place in the two-mile relay.

In the women's competition, the University of Washington team took first and the Yikes finished out of 12 events, with one of their losses coming from EWU trackster Lisa Sorrell, who set a new school record of 39.6 in the 300-meter dash.

"I think our girls did a fine job which was a result of some hard training," Coach Sheila Wilkins said. "I was especially pleased with Sue Pike, who ran the 800-meter event for the first time this year and took third place with a time of 2:18.2." Wilkins said Sorrell also took second place in the 400-meter dash, which the top four runners ran the event in 7.7 seconds.

"It was a very tight race and it took the judges almost 10 minutes to decide how the girls placed," said Wilkins. Jamie Day from EWU placed third in that race.

Other placers in the women's competition included Kathy Mayberry in the 500-meter run, Shelly Hammock in the 300-meter dash, Cheryl Washert in the long jump, Tammie Grub in the shot put and Jackie Van delrace in the 1,500-meter run.

The Eagles travel to Moscow, Idaho, this Saturday and return to Moscow on March 3 for the Kimmel Indoor Track Meet.

Gymnasts take third

The Eagle women's gymnastic team finished third in the Portland State Invitational last weekend.

The University of Oregon was top placer with 115 points. Spokane Community College took second with 116, and Eastern with 110.

Coach Lloyd Howell said Ann Corbin was the Eagle's highest finisher, as she was fourth in the floor and beam exercises and ninth in all around. He added that Corbin's 30.6 overall points gives her a chance for national competition in late March.

Howell said the squad will travel to the University of Washington on Feb. 24 to meet one of their toughest rivals of the season.

Women make playoffs

With a victory over Northwest Nazarene and a loss to Seattle University, the Eagle women's basketball team cinched a regional tournament spot in playoffs scheduled for early March.

Maria Loo scored 21 points as the Eagles defeated Northwest Nazarene 86-40 last Saturday in the Pavilion. Neil Ann Massie added 13 points as Eastern led at halftime by 20 and as much as 30 in the second half.

The story was different last Thursday, as Seattle University slipped by the Eagles 62-61.

aggressive defense by Arlene Sonday and a few long jump shots by Jean Ness, Eastern fought back from an 11-point deficit.

A three-point play by Ness with only four minutes left to go tied the game but the Eagles could not keep the lead as the teams traded baskets for the remainder of the game. Ness led the Eagles with 18 points.

Eastern takes on Gonzaga and Central Washington at the Special Events Pavilion Friday and Saturday.

STUDENTS — (MEN AND WOMEN)

WE WILL PAY YOU ABOUT $500 TO GET OUT OF CHENey THIS SUMMER!

ATTEND A SIX WEEK CAMP IN KENTUCKY

* You will learn a variety of skills to include leadership, first aid, physical conditioning, map reading, land navigation, marksmanship, tactics, ranger techniques

CHOOSE YOUR CLASS DATE: MAY 21 - JUNE 28 JUNE 11 - JULY 19 JULY 9 - AUG 16

* THERE IS ABSOLUTELY NO OBLIGATION TO THE ARMY OR ARMY ROTC. Attend the camp. Find out if you're interested. If so, then the camp is a short-cut through Army ROTC at EASTERN WASHINGTON UNIVERSITY. If not, take your pay and experience with no strings attached!

* Why has the Army decided to offer college students nearly $500, paid travel, and adventure training with no obligation? To find out, see Captain Jim Spring between 9:00 a.m. and 1:00 p.m. on Wednesday, February 21 in the PUB or call 359-2388.

Gymnastic competition

Gwaltney national contender

By Jody Mulloy

Jim Gwaltney may be Eastern's next defending NAIA national champion in floor exercise competition, despite injuries he suffered in practice that kept him out of action all last week.

Coach Jack Benson said Gwaltney slipped almost two weeks ago during a dismount off the high beam. He landed on his head, and pulled muscles and tendons in his chest.

The gymnast will not compete in tomorrow's meet against Washington State University so that he can focus his energies on national competition in Wisconsin March 2 and 3. The Eagle gymnasts are 3-3 for the season and looking forward to the nationals, the coach said.

Gwaltney was a triple winner in a recent dual meet with Eastern Montana College. He took first in parallel bars, horizontal bars and all-around competition.

"John is a potential champion," Benson said. "He has a very good chance to win in the parallel bars, horizontal bars and all-around competition. He is a mainstay of the team."

"I've yet to put a full team on the floor because several members have been out with injuries," Benson said. "But we're trying to put it together before nationals and really go for it."

The Eagle gymnasts have qualified for national competition, including Gwaltney on parallel bars, sidehorse and vault; Bill Jackson on rings, horizontal bar, vault and all-around; Don Chittick on still rings and Van on vault.

Next weekend, EWU gymnasts will travel to Portland State, with nationals to follow.

This will be the last home meet Friday, Benson said, with the Eagles facing WSU at 7:30 p.m. in the gymnastics room of Phase II, second floor.

Benson said the WSU team will feature Dushi Lufi, a competitor in the last Olympic games and a former NCAA champion.

One other member of the Eagles team, Nick Van, has been plagued by back injuries, Benson said. But the coach is hoping Van will be able to compete this weekend and in nationals.

"To qualify, team scores have to be 166 points," Benson said. "We've scored 179, 186 and 191 in our meets, which is well above the minimum."

Early start for champ

Gwaltney became interested in gymnastics as a youngster. When he was 12, Gwaltney's legs were injured when he was hit by a car.

After the accident, he had difficulty participating in sports such as track, baseball or tennis. "So some of my friends turned me on to gymnastics," he said. "I enjoyed it so much that I kept with it into high school."

As a member of the high school gymnastics team at Colorado Springs, Colo., Gwaltney captured numerous awards and earned a scholarship to a New Mexico junior college. During his two years on the junior college level, Gwaltney placed well in the all-around and parallel bars competition at nationals.

After two years of junior college, Gwaltney took a year off before transferring to Eastern, where he is majoring in commercial recreation.

"Because he is new to the league, Gwaltney feels that he is more or less competing against himself."

"To be successful at this, you really have to be positive," Gwaltney said. "But you also need to have fun."

Grapplers pin rivals

The Eagle wrestling team ended a grueling five-matches-in-four days road trip by returning with an impressive four wins and one loss, said Coach Stan Opp.

Eagle grapplers Jay Breckinridge, Dave Reimnitz, Dan Thew, and co-captain Mike Stolp returned with no losses.

The grapplers began their road trip Wednesday with a close loss, disappointing 23-20 loss to Boise State on Thursday, they beat Idaho State and Copernicus and won Friday to provide the winning margin as the Eagles came from behind to win, with a 10-5 decision, against Boise State.

The Eagle to win, with a 10-5 decision, before pins were collected by Warnock at 118, Jay Breckinridge at 142 and Mike Stolp at 177.

"We had several close losses in the match and the road trip took out a portion of our performance," Opp said.

Against Boise State, the grapplers collected pins from their 150-pound ace Dave Reimnitz and heavyweight Dan Thew, who won with pins four times this weekend, and decisions from Kai Warnock at 118, Jay Breckinridge at 142 and Mike Stolp at 177.

Against Idaho State University Thursday, Thew pinned his opponent to provide the winning margin as the Eagles came from behind to edge them 35-34.

In the Idaho State match, the Eagles collected four other pins from Warnock at 118, Ruben Martin at 136, Breckinridge at 142 and Reimnitz at 150. Opp said co-captain Stolp at 177 was narrowly leading his opponent going into the third round by 2-2 when he overwhelmed him to win 12-3.

On Friday the grapplers collected three pins, three decisions and four forfeits as they crushed Western Montana 54-6.

Warnock started with a 4-0 decision at 118 and was followed by Martin at 136 with a close 11-10 loss Wednesday at 136. Breckinridge won by pin at 142 and Lloyd Cherry at 158 won by decision over Eric Rjala at 167 won 15-2 for a superior decision and heavyweight Steve Stolp collected his third pin in as many days.

I was very pleased with the performances of Cherry and Rjala because it got them back on the winning track," Opp said.

"They've had some tough matches in dual-meet competition and the win gave them their confidence back."

The Eagle grapplers Saturday again proved they can pin their opponents as they took five matches by pins en route to a 45-10 victory over Dickinson State, and three pins for a 30-10 margin over Montana State University.

Martiner at 126 was the first Eagle to win, with a 10-5 decision, before pins were collected by co-captain Larry Bush at 134, Cherry at 158, Rjala at 167, Dave Head at 190 and heavyweight Thew. The Eagles also won three matches by forfeit.

The Eagles travel to Central Saturday for the Central Washington University Invitational. It will be their last tournament competition before the nationals.
ASEWU PRIMARY ELECTION TODAY

Position #6
☐ Karen Cossey
☐ Don Dover

Position #7
☐ Kathy Svinth
☐ Arne Stevens

Position #8
☐ Mark Lisi
☐ Gary Mueller

Position #9
