**Student Government Ailing**

by Kathy Wilcox

Eastern's constitution states that the legislative branch of the AS has the power to budget and disperse funds on behalf of the Associated Students, and this year the Legislative Branch did not disburse their share of necessary budgeting, bargaining and balancing. For the 1973-74 school year, the AS is running on a total allotted budget of $144,000, which is a decrease of $32,000 from last year. This decrease comes from a drop in funds available to AS.

In order to keep things out of the red, a lot of expense cutting has been done, in nearly every area, from Homecoming to flag football. Yet, in a few select areas, the AS can continue on its present course and to what extent student government will be able to continue on this course, is an open question.

**Budget Ups, Downs Detailed**

by Leliell Williams

"I expect our discussion will state..." said Associated Student legislators Mike Donovan when asked what the conclusions of the Legislative Branch were. Mike lawdon has run in the past few months and now said that they have accomplished some things, but unfortunately common situation, certain issues have been hit hard by the Riddle administration with possibly positive outcomes.

In October, the Board of Trustees voted to allow dorms to set their own hours on a floor to floor basis, a move largely brought about by the AS and Riddle. Although dorms in certain dorms and on certain floors has become apparent regarding what hours should be set.

Riddle said he knew of no such problems, but acknowledged they could exist. He did say, however, that dorms that are usually having conflicts of interest from time to time among their residents. Despite any such problems, the dorm hours issue was what Riddle termed, "something we finished." Collective bargaining for professors was and is an issue Riddle expressed deep concern over. While local estimations of representatives have indicated the students will not be left out of any future negotiations, Riddle says the final decision as to what role each group will play will be determined by the legislature.

For this reason, Riddle said he has been doing considerable reading on the subject and said he plans to propose his own version of a bill regarding collective bargaining. This is one of several moves, he said, being made by the AS which are not visible to the general student body. He did say though, if the students to lose any power or influence on campus due to collective bargaining, they would know it.

A third major issue Riddle said his administration has worked on to date is cutbacks in AS government staff, a small, but first step in overcoming all AS.

While the number of assistants has been cut from eight to three according to Riddle, all elected officials have increased pay increases. The increases, mounting to about $270 a year, have not yet been approved by the amount of work to do and offices in the Easterner.

Riddle says his administration has instituted a new approach for AS government, but is still stuck with a system which is partly, if not mainly, self-administering—running only to keep itself in operation.

The present Riddle administration will be in office seven more months, and in that time may accomplish a certain amount of work, and bring about change for the better.

However, Riddle said administrative changes will continue to be faced with an ailing system. A situation Riddle terms "a condition Riddle terms that may be the downfall of the Riddle administration."

V.D. Painfully Progressing at Eastern
by Judy Sire

"There are 8-10 positively diagnosed cases of gonorrhea at the student health center every month. It's reaching epidemic proportions," commented medic Bob Woodruff when asked about the prevalence of venereal disease at Eastern. "And that's not counting the students who go to a private physician or to the county health department."

The people would really be upset if there was a smallpox epidemic, however, the sexually transmitted diseases are kept hidden and under cover and are thus allowed to spread. Venereal Disease is growing to be quite a problem here at Eastern. A little knowledgeable detection-treatment-prevention therapy would go a long way to alleviate the pains and damaging effects of V.D.

Veneral Disease, or sexually transmitted disease, is the main heading for several ailments. The Health Center reported that there are many cases of protozoa, fungus, virus and other bacterial caused infections coming in. In the hospital there are several cases of the really dangerous venereal diseases. So the students with symptoms may come in with great apprehension of having contracted Syphilis, Gonorrhea, Chancroid or Lymphogranuloma, all serious venereal diseases. But in spite of the more prevalent lesser ailments, V.D. is still at the dangerous epidemic level.

Gonorrhea is the most frequently occurring, serious disease here at Eastern. So it should be brought out from under cover. If those who are infected can be alerted before the infection spreads, they will not count the students who go to a private physician or to the county health department.

Gonorrhea symptoms are most obvious in the male--2 to 5 days after contact he has painful urination with a burning sensation and a discharge of pus. Diagnosis is simply a microscopic examination of the discharge. The technician is looking for the gonococcus organism which causes the whole problem.

Since the male develops the symptoms, and not the female partner, it becomes his responsibility to notify his partner(s) of the infection so that they too can seek proper medical attention.

If gonorrhea is left untreated in the male, complications develop. Abscesses and swelling of the penis can occur, it can spread to the bladder, seminal vesicles, and so forth and render him STERILE.

In women the bacteria lodge in the cervix and urethral openings and spread slowly into the reproductive system and bladder. Unless she is informed of her infection by a male partner, the female often goes without treatment until there are complications. Salpingitis (Fallopian tube infection) is common and disrupts menstrual cycles, causes lower abdominal pain, nausea, vomiting, and fever. If left untreated it eventually leaves her sterile.

Diagnosis in the woman is usually done on the basis of medical history (ie infected partner) and a culture, which can be read in 48 hours.

Syphilis symptoms appear from 10 days to 3 months after exposure and may disappear without treatment in a few days. The primary or first stage symptoms is the development of a small chancre or sore which can be located in the genital area, on the anus, or even on lips, tongue or fingers. This chancre can disappear without treatment. This only means the disease has gone deeper into the body. The disease is not cured with just loss of symptoms.

Treatment for V.D. varies according to the strain or type contracted. This is why diagnosis and treatment by a physician is necessary. Treatment might be penicillin (as for gonorrhea) or tetracycline, or erythromycin or ampicillin, or a variety of other antibiotics in specific doses. Self-diagnosis and treatment is especially dangerous since some infections are not touched by certain medications.

If you have any reason to suspect that you have been exposed to V.D. have it checked out at the Student Health Center, your private physician, or the County Health Department. At the present time gonorrhea is the only venereal disease to be treated on site. It is not necessary to travel to Spokane Hospital for treatment. A student who does not have health insurance or who cannot pay the to treatment will not be turned away. The cost is only $20.

"My gonorrhea is a perfect symbol of your special love.

"I can show you how to have the Life Insurance you need--on your present budget!"

"My company, Penn Mutual, has developed a brand new plan specially for college seniors and graduate students.

"It not only provides the same life insurance protection you'd expect to buy when you're through school...it does it right now, even if you're on a tight budget and working part time."

"Let me give you the facts. I'll take just 10 minutes, and believe me, it's worth 10 minutes. Phone me or use the coupon."

"Rays keep the Pyramids of Egypt intact.

"Keep the Pyramids of Egypt intact by using one of my coupons!"

Well boys and girls, I usually don't admit I'm wrong because I'm usually not wrong.

I've been building up the drama department's production of "On the Side of the Angels" for two weeks now. After reading the script I thought it just couldn't be loused up. I was wrong. This production had all the humor of a diarrheic bird. To start with, in the first scene, Kelly (Gary Zodrow) and Gussie (Debby Rigg) had to use the bathroom or something. They went through their opening lines like their mouths were going for the land-speed record (they made it!). I kept feeling that they knew of some impending doom that the audience didn't. They did. The rest of the play was coming.

Homer Perkins (James Armstrong) came out and livened things up somewhat, but that was soon stifled by the appearance of the lawyer, T.M. Holliday (Larry Tuffs). Mr. Tuffs had all the warmth and acting ability of a cigar store Indian. Instead of graying his hair so it would at least look like he was a middle-aged lawyer, he must have just sprayed silver paint streaks on it. Very slick, but then his make-up was more professional than his performance.

Then the mayor (Jay Parkh) came in. His bad acting was only reconciled by the fact that most mayors are exactly that - bad actors. The school superinten­dent (Jeffrey Olson) is a gawking giant, always having to duck under doorways. If we would have had any luck that night he would have mercifully cold-clocked himself on one of them.

On and on it went. Just when you thought they were down as far as possible they descended more. This production started off slow and tapered down. There were certainly laughs, but that was because of the script, not the actors. In fact, it would be safe to say that the show got laughs in spite of the actors. While all of this was going on stage there was a more revolting bitts of Hillsdale, Ohio, is continually tossing down shots of bourbon. I wished he would have passed the bottle down to me. I could have used a couple of pulls myself.

The kids are excused. For them it was a command audience. The parents are not. Especially when in an effort to quiet their kids they make twice as much noise telling them to shut up. These people obviously have no respect for actors or the audience.

In all this cacophony James Armstrong was on stage playing the sardonic bourbon-drinking newspaper editor Homer Per­kins. Homer to keep his sanity he would have had any luck that night he would have cold-clocked himself on one of them.

Remember how it was? You trouble in your basic classes? Getting to beat myself. The best thing about it is that its free.

It's the Tutoring Center, located in Room 118, Martin Hall. Come on in anytime, Monday thru Friday, 9:00 to 11:00 and from 12:00 to 3:00.

Are you having Fall Quarter 1972 blues getting to you? Are you having trouble in your basic classes? Help is as near as your legs can take you. The best thing about it is that its free.
Prize Concert Coming

by Rob Reed

The Eastern Washington State College Symphony Orchestra will present its first concert of the year Monday, November 13, in the Pence Union Building at 8:15 p.m.

This concert will feature the world premiere performance of a work by Jack Fortner, Professor of Composition at Fresno State College.

Last spring the Music Department at Eastern announced an international competition for a new orchestral work. After months of deliberation over the many works submitted for this competition, a panel of judges awarded the $500 first prize to Jack Fortner for his entry.

Scored for classical instrumentation, Fortner’s piece employs many innovative compositional techniques. Some sections of the work are for improvisation by either flute, violin, or cello. In these sections the composer has provided instructions to specify the nature of the improvisation, but on the other hand, when was the last time you heard an orchestral session?

Fortner’s piece “June Dawn, July Noon, August Eveings...” is essentially an avant-garde composition employing improvisation as well as counter tones (previously only used in East Indian music) and assorted thumpings and bumpings (previously only heard when someone dropped something on stage). The piece also relies on jazz and has very complex rhythms.

Fortner himself will conduct Mozart’s “Sinfonietta Concertante” on flute which will feature graduate assistant Barbara Nino and professors Arthur Blauhl, Wendall Jones and Wendell Exline as soloists. Under Dr. Jones direction, Eastern’s 50-piece orchestra will also perform Stravinsky’s “Divertimento” from “The Fairy’s Kiss” ballet and Haydn’s “Symphony No. 6” (“Le Matin”).

Fortner has won several awards for his creative efforts, including the Foundation Roanyart International Composition Competition in 1966 and the Prix de Rome in 1967. Past winners of the Prix de Rome include such well known composers as Berlioz, Bizet and Debussy.

Dr. Jones is looking forward to this year as being one of the best ever for the orchestra at Eastern. The group has grown in size and is working hard for the November 13 concert. The public is invited to attend this event free of charge.

Curt Byrnes Envisions Evergreen Wrestling Title

Season Opens Nov. 18 at Coeur d'Alene

The North Idaho Junior College Tournament at Coeur d'Alene on November 18 will kick off the season for Eastern's wrestling squad under the direction of Curt Byrnes.

Ceynor is a junior transfer out of North Idaho and last year nabbed the junior college 167-pound class. Unfortunately, he is not listed among Eastern's returning lettermen: Jenks and Jerry Byrnes, were lost to graduation, and Byron Smith, who split his time between football and wrestling, is also missing from the roster.

Tom Luehmann and a freshman single-caller, Joy E. Hlousek, are the only returning lettermen.

The Savages face a demanding schedule including such foes as Brigham Young, W.S.U., Montana State, and Montana. Eastern's goal is to take the title away from Central.

Freshman quarterback Dave Curtis is expected to play where the receiver had one foot in bounds.

After Eastern Oregon had stopped deep in Savage territory for the first of three Interceptions, the Savages were unable to have a first down against the fired up Mountie defense.

Surprise Ambush in LaGrande

The Eastern Savage football team got started in the first quarter. This writer felt they got the shaft. After Eastern Oregon had stopped deep in Savage territory for the first of three Interceptions, the Savages were unable to have a first down against the fired up Mountie defense.

The opening kickoff man Schmidt got but a piece of the football in attempt, aiming to kick it off the tee, and the Savages had a first down at the Mountie 40 yard line. The kickoff had gone about 50 yards before Eastern Oregon coughed it up again, a White fumble at the Mountie 4 yard line.

With 11 minutes left in the first half, the Savages had gained a total of 3 yards on the ground. But that changed rapidly, after a Bob Picard punt return to the Eastern 41. Fullback Phil Wheat was hit behind the line, but then Glindeman zipped a beautiful pass to Steve Farrington, coasting down the right sideline, good for 39 yards. Then Duron, twisting, and shedding would-be tacklers along the way, went around left end for a 21-yard touchdown run. Gary Holmes converted, and the score was 15-7.

After two Hunt runs, the Mounties surprised the Savage defense on third down and thirteen at the Eastern 25-yard line. Quarterback Gary Syphers took the center snap and pitched to regular quarterback Mike White. White heaved a perfect trick play to split and Art Thurton in the right corner of the end zone for the score. But there was only one thing wrong. Time had run out before the play started in the first quarter. This writer and two members of the Eastern coaching staff were next to the timekeeper, who had been attempting to signify the end of the quarter with a buzzer for some time. The timekeeper later told officials on the field that the play started with time left on the clock. It was a moot question.

The setting soon turned comical. The EOC kickoff man Schmidt got but a piece of the football in attempting to kick it off the tee, and the Savages had a first down at the Mountie 40 yard line. Glindeman hit Picard for 12 yards, and giving the Savages hopes of a tie with time running out.

Duron, on a nothing-done run, fumbled again, and the Mounties recovered. With 11 minutes left in the first half, the Savages had gained a total of 3 yards on the ground. But that changed rapidly, after a Bob Picard punt return to the Eastern 41. Fullback Phil Wheat was hit behind the line, but then Glindeman zipped a beautiful pass to Steve Farrington, coasting down the right sideline, good for 39 yards.

Eastern Oregon coughed it up again, though, as big Jim Gorland recovered a White fumble at the Mountie 32. On fourth and five, and operating out of an "I" formation that provided good blocking for Glindeman most of the afternoon, the toll veteran threw to Picard open down near the goal line. Picard caught the ball out-of-bounds.

The teams traded interceptions as the game drew to a close, with linebacker John Van Deelen picking off the last, and giving the Savages hopes of a tie with time running out.

Glindeman, on third and 12, hit Gorsk for the first down at the Mountie 33, and then Wheat powered to the 22 for another first down. With less than two minutes on the clock, Glindeman threw incomplete four consecutive times, and that was it.

EASTERN SPORTS

Evco Standings

By Norm Taylor

The Eastern Oregon rush. Crippled fullback Phil Wheat was hit behind the line, but then Glindeman zipped a beautiful pass to Steve Farrington, coasting down the right sideline, good for 39 yards.

The Savages looked like they would score on their first possession of the second half after Daniels recovered a fumble by Mountie fullback Joe Neveu at the Eastern 47. Durgan was rocked up twice for no gain and a first down, but Glindeman hit Picard for 12 yards, setting up a fourth-and-2 play.

Glindeman, not noted for running interceptions, scampered around left end, broke several tackles, and ended up with a 28-yard gain down to the Mountie 14. Durgan got it down to the 12 on two carries, and Glindeman, under heavy pressure, hit Picard down at the 6.

Glindeman, on first down, went up the middle for no gain, and then was thrown for a big loss. After an incomplete pass, the Savages' field goal kicker Holmes missed a 33-yard attempt. Holmes has not kicked a field goal all season.

Eastern Oregon coughed it up again, though, as big Jim Gorland recovered a White fumble at the Mountie 32. On fourth and five, and operating out of an "I" formation that provided good blocking for Glindeman most of the afternoon, the toll veteran threw to Picard open down near the goal line. Picard caught the ball out-of-bounds.

The teams traded interceptions as the game drew to a close, with linebacker John Van Deelen picking off the last, and giving the Savages hopes of a tie with time running out.

Glindeman, on third and 12, hit Gorsk for the first down at the Mountie 33, and then Wheat powered to the 22 for another first down. With less than two minutes on the clock, Glindeman threw incomplete four consecutive times, and that was it.
It did not compare favorably with Kansas City's Arrowhead Stadium or its football pages. Its presence, place; Texas Stadium. The Eastern Oregon football "stadium," didn't, that is. That was the site of the Eastern Washington football team's latest game.

It had its unique aspects, though—a nearby cemetery a Roman Gabriel threw away, an abundance of dogs and dogs on the field, and a sign sponsored by the EDC Veterans Club that offered the encouragement, "Keep Humping, Mounties."

The ramshackle facility that served as combination grandstand and game—its days appear to be numbered in fractions. It has been moved up to 3.

Other noticeable aspects of the stadium were a faulty timer and timekeeper—Eastern Oregon scored its second touchdown on that started with no time remaining on the clock in the first quarter as the Eastern coaches were being bad sports.

Hearing this remark while seated nearby, advised his listeners that each Tuesday and Thursday evening.

They have been bad-mouthed by fans and sportswriters for their conference championship, has been plagued with shortcomings.

Winning in football is simply overemphasized at the intercollegiate football games, then football is bad for the culture, and should be done away with.

A highly competitive and controlled bottle for high stakes.

The aura of invincibility that the Central Wildcats had before last year's loss to the host team, Manfred Duske and Ohio State.

The deadline tournament in intramurals in Nov. 27.

The only match they lost was to the host team, Portland State, while Central, Miss Parsons is looking ahead to Nov. 18, when the Eastern women will have their own invitational meet.

The Savogettes will host Montana, Central, a U.S. Volleyball Association team from Missoula, Whitworth, and possibly Portland State. Miss Parsons had sent a letter of invitation to Notre Dame, but she received a reply from the Indiana university that no Indiana women's volleyball team is representing the university this year. She said she would invite the Portland State team instead.

The USAV team, a non-collage group, consists of good, young volleyball players, she said. The Savogettes will meet WSU in a home match Nov. 16 at 5 p.m. The volleyball team that represents WSU in the Pine League, the "A" squad, lost both ends of a doubleheader to North Idaho Tuesday, Oct. 31. The team will play host to Gonzaga's "A" squad Tuesday, Nov. 14.

Basketball Dress Rehearsal

The promising Eastern basketball team will put on full dress rehearsal Saturday afternoon as a part of homecoming activities, Coach Jerry Krause said that his charges will put on an exhibition beginning about 4 p.m. Saturday, near the end of the Eastern-Western homecoming football game. It will provide some glimpses of the basketball stars of what may be a championship roundball team.

The women’s volleyball traveling squad topped Central Washington, WSU, Gonzaga, Eastern Oregon and Whitworth Saturday in an all-day tournament at Missoula, Montana, and took second place honors.

The only match they lost was to the host team, Montana, which took top honors in the tournament, Miss Bath Parish, coach, was more than pleased with the team's efforts, citing Mary Rubright and Pam Parks as stars.

Another big women’s volleyball team slotted for tomorrow night and Saturday in Pullman, the WSU invitational. Along with the host Cougars, the Savogettes will be participating, joined by Montana, Whitworth and Central. Miss Parsons is looking ahead to Nov. 18, when the Eastern women will have their own invitational meet.

Budget Detailed
continued from page one

A few departments have re­
maind with increased budgets, such as Employer’s taxes, Freak Squad and the nursery school here on campus.

On the other hand, some of the areas which received budget increases were: the AS legisla­
tive, branch from $2,400 to $2,575; summer recreation, $2,013 to $2,900; and campus recreation, from $8,468 to $10,500.

A general travel fund for AS officers remains the same at $3,000. Kjeldsen said this fund was necessary for the various trips to Spokane, transportation for visiting speakers, and trips to Seattle for conferences.

How is an increase or a cut determined? Why do some get thousands of dollars lopped off their budgets, and others remain constant, or become increased?

Kjeldsen said the AS “looks into the degree of benefit people will get from each area—like intramurals, which received an increase because lots of people take part in them. We try to keep each program operating at a decent level.” He also added that “each area, when budgeting, is cut across the board, but one is given special preference.”

SIXTH ANNIVERSARY
CHARTER FLIGHTS
EUROPE-HAWAII
MEXICO-JAPAN

Here is a first for Eastern—five professors teaching the same class. Revolutionary Changes in Latin Ameri­ca is the course title and each professor will relate his particular area of study to the events happening in Latin America.

Five areas of study will be covered—Economics, Foreign Language, Geography, History and Political Science.

The role of women in athletics at Eastern was studied and public relations were again noted as a “must” requirement to make the program work.

A task force will be created to take one last look at the recommendations and from there they will go on to the appropriate agencies for final disposition.

Disease Spreads
continued from page two

Health Center and the county Health Department diagnosis and treatment are confidential and free.

Venerable Disease is one of the diseases that have to be reported to the County Health Department. So those infected can expect to be interviewed confidentially on the day the County Health Nurse is in Cheney to help determine the source and notify those infected.

Prevention is the key to venerable disease control. The only protect­
ive device is the prophylactic or condom, and it is not even totally effective. Prompt treatment and notification of those exposed is essential in combating this epidemic disease.

Penicillin-resistant gonorrhea is beginning to evolve from self­
treatment with inadequate, low­

quality penicillin usually sold in war­
torn countries. Soldiers all over the world bring home resistant strains for their country to cope with.

On the smaller, but still epidemic, scale here at Eastern, V.D. diagnosis increases after a holiday or vacation. “September and January are big months here,” commented Woodruff. We need an all out effort to get rid of this crippling disease soon. So open those communication lines and get V.D. out from under cover!”

 parenthesis, such as Employer’s taxes, Freak Squad and the nursery school here on campus.

On the other hand, some of the areas which received budget increases were: the AS legisla­tive, branch from $2,400 to $2,575; summer recreation, $2,013 to $2,900; and campus recreation, from $8,468 to $10,500.

A general travel fund for AS officers remains the same at $3,000. Kjeldsen said this fund was necessary for the various trips to Spokane, transportation for visiting speakers, and trips to Seattle for conferences.

How is an increase or a cut determined? Why do some get thousands of dollars lopped off their budgets, and others remain constant, or become increased?

Kjeldsen said the AS “looks into the degree of benefit people will get from each area—like intramurals, which received an increase because lots of people take part in them. We try to keep each program operating at a decent level.” He also added that “each area, when budgeting, is cut across the board, but one is given special preference.”

Maybe the way to change the world is to join a large corporation.

We don't make a lot of noise, but this is where it's really happening. You see, a large corporation like Kodak has the resources and the skill to make this world a little more decent place to live. And we intend to do what we can to see that this is exactly what happens.

Take our home city, Rochester, New York for example. We cut water pollution in the Genesee River by using natural bacteria to dispose of unnatural wastes. We cut air pollution by using electrostatic precipitators in a new combustible waste disposal facility. We helped set up a black enterprise program in downtown Rochester, and we've been experimenting with film as a way to train both teachers and students—including some students who wouldn't respond to anything else.

And we didn't stop with Rochester. Kodak is involved in 47 countries all over the world. Actively involved.

Why? Because it's good business. Helping to clean the Genesee River not only benefits society... but helps protect another possible source for the clean water we need to make our film. Our combustible waste disposal facility not only reduces pollution... but just about pays for itself in heat and power production and silver recovery. Our black enterprise program not only provides an opportunity for the economically disadvantaged... but helps stabilize communities in which Kodak can operate and grow. And distributing cameras and film to teachers and students not only helps motivate the children... but helps create a whole new market.

In short, it's simply good business. And we're in business to make a profit. But in furthering our business interests, we also further society's interests.

And that's good. After all, our business depends on society. So we care what happens to it.
Candidate Disqualified

What started out as a joke among a few guys on fourth floor Morrison Hall turned into a source of major controversy when John Bligh ran, won and was disqualified from the position of Homecoming Queen for that dorm.

Over 50 per cent of the dorm residents voted and John won with a majority of 60 votes out of 245 votes.

However, Bligh was disqualified because the dorm president hadn’t checked the rules and didn’t know that the position could only be held by a female.

“Not only was this sex discrimination, but one person really shouldn’t have all the say in a matter such as this, the worst part is that it made a force out of the democratic process and 60 people in Morrison Hall were denied their right to vote,” commented Jon Eikelburg, floor president.

Here’s an offer for powder buffs.

Bustin’ for an Oly.

Headin’ in for an Oly.

Spring for an Oly.

We’ll send you all four of Oly’s 20”x26” ski posters pictured here (three above in black and white, one on the left in full color) when you send us your check or money order for $2.75. In other words, you get four great ski posters and we get $2.75.

Now what could be a better deal than that?

Enclose check or money order made payable to OLYMPIA BREWING COMPANY. Cash cannot be accepted. Return the completed form and check to:

The Gift Shop.
