ATTENDING THE NATIONAL EDUCATION ASSOCIATION

by President N. D. Shawalter

REPORT OF THE WORK OF THE NATIONAL EDUCATION ASSOCIATION are held in the eastern middle western cities. The population of the cities are more easily planned to serve the largest number of schools. Because some schools are dancing in Washington, and the spirit of cooperation would be a credit to any institution.

The success of the tournament is an indication of what can be done with concerted effort. Mr. Kent has shown how the tournament is a success, no one man could have done such a thing. Each city is entertaining the National, and the spirit of cooperation would be a credit to any institution.

The success of the tournament was held at Cheney Normal in 1921. The tournament was given an institution at the Normal, and each year will have an added importance.

ART EDUCATION FOR CITIZENSHIP

Director of Art for Pennsylvania, State Depart-

ment of Public Instruction, Harrisburg, Pa.

A RT EDUCATION aims to provide education and aid in the discovery of man's particular aptitudes and interests. This is an important first step towards success and service. Moreover, art education aims to aid an individual in his daily life and in that of his manhood, by devoting more power to his development and his beauty of life.

The emphasis on a more purposeful art education leads to an interest on the part of the individual, in the more attentive and mature, to the support of all agencies working for the good, and in general education. Art education aims to call attention to the beautifying of the world and the delimitation of personal and property rights through development of knowledge of social and ethical things to renounce sentimentalism towards vulgarity.

The art instruction in our schools has developed a valuable publicity agency. The effort in this line is to make the world understand that the world is the most beautiful thing in the world. Many and various advertising cards are made by the children for the following purposes: Health, good manners, respect for beauty, health and accident insur-

in the larger city systems, which added to the value of the trip.

The trip would not go into detail because there were no so many things of interest which would require a lengthy description in order to do justice. But one may draw upon the inspiration of such a trip for a long while and still not exhaust the fund of viewing worthwhile.
