SCHOOLS NEARER HOME

From an enrollment of 16 to 1016, is the recorded weekly growth of the State Normal School of the United States, situated in the heart of a great industrial city. Many parents whose sons or daughters have lived in Spokane for years do not realize the progress which has been made in the educational institution at that very door and parents are deprived of the advantages which are very evident in the best public schools. More people are realizing today than ever before the importance of education and providing their children with the best possible education. At the same time, there are many who are depriving themselves of that privilege and encouraging their children to attend school for fifteen or eighteen hours a day.

In the west, where men and women are ever happy at home, and in the east, where the climate is more agreeable, I can see poor mother put on by our school as much as the high school and economic problems, health and sanitation of the home, cook books, and so on, is as much as the high school and economic problems, health and sanitation of the home. Where the parents are more aware of the importance of education, the children's education is more likely to be successful. Where the parents are less aware of the importance of education, the children's education is more likely to be unsuccessful.

SOCIAL TRAINING FOR OUR BOYS

CULTURE has a distinct commercial value in the business world, and the young man who understands the field of culture has a distinct advantage. The culture background of a well-trained boy is a big asset in gaining recognition in the business world.

We are more or less aware that, although the minds and muscles of our children are well trained in the academic field, they are not so well trained in the social field. In other words, the child is more likely to be successful in gaining recognition in the business world when he has been given a good social training.

The professors are trained in the same schools with students who are more or less aware of the importance of social training. In most cases, the students who are more aware of the importance of social training are more likely to be successful in gaining recognition in the business world.

TEACHER TRAINING AND TANGIBLE TRIBUTES

Teacher training and tangible tributes are important, and we must provide for them in our educational system. The lack of teacher training and tangible tributes in our educational system is one of the main reasons why our educational system is not as successful as it could be.

The purpose of teacher training is to prepare the teachers to be able to instruct their children effectively. The purpose of tangible tributes is to reward the teachers for their hard work.

We must provide for teacher training and tangible tributes in our educational system. The lack of teacher training and tangible tributes in our educational system is one of the main reasons why our educational system is not as successful as it could be.

WASHINGTON STATE HYMN

By Florence Douglass

Come, let us sing of Washington. The home of our fathers.

The state of noble passions, Of Washington. We sing of our love.

May all share in shaping fair The state where we live.

This nature makes a home for man, “North skies of glory, blue.

In every heart and every breast.” Industrious and true.

In work and friendship true. Washington, high Washington.

We give our hearts to thee. May all serve, thy love preserve.

Guard thy prosperity. May we all serve, thy will be done.

For the foil of his man’s thought. Thou wert a greater light.

Respond with fees and guile. Thy glory shines in western stars.

For our nation and our state. God and Righteousness may stand.

And keep thy children true. And may God and righteousness be.

May thy path in wisdom’s way. O God and Righteousness be.

Lead thou the children of God. Trust in the Lord and in the confidence of his mercy.

Up to God’s noble heights. May God and Righteousness be.

O God and Righteousness be. Thou shalt stand.

Of Love, and Liberty.
