Eastern State Washington College

Frustrated Men Students Seek Dead Week Jollies

By Bob Stevens

Pre-final-week tension reached its peak late Sunday night as nearly 500 students in Eastern's dormitories went on a snowballing spree that covered the entire campus and ended with a bonfire at the door to Sigma Nu.

The would-be-mischief-makers began to gather in front of Gary Hall at about 10 o'clock. As more anxious lads began to arrive, they crowded close to the hedge of high pitch and the old "mob spirit" began to grow. Even the addition courage as the crowd of LA. Hall, snowballs in hand.

It is questionable as to whe­ther or not a pardon was planned for the unsuspecting students, but every move the fellows received a colder than coal reception, the first time the glasses were pecked a few times someone yelled "Mon­re," and off they went.

With the exception of a few curious residents, Monroe Hall girls were no more hospitable. The only real news of interest to the mob was when a lone Volkswagen tried to run the gauntlet of excited males. Fortunately the car escaped unharmed with the ex­ception of a few smashed-in addres­sers who were able to "al-bob" at the door to Sigma Nu.

From Monroe Hall, the ac­tion moved past the President's house to Senior's house, where even the smaller crowd paid little attention to the irate lads who "even parked" in front of the men's dorm. The students became and finally gained the side door of the hall while the other anxious mob crowded in the halls. Something inside appeared to be on fire in the hearts of our brave men, however, because the previous efforts were nothing in comparison to their eagerness to get out of there.

In attempting a quick depar­ture, someone was forced to cross the heavy gates in front of the hall. Unfortunately the gate was broken and a slightly startled young man came out in a shower of broken glass. Even the holiest of spirits and the entire mob scurried for the safety of the gate.

Back in the dorms, the some­what relieved men were able to turn once again to the prob­lems ahead . . . dead week, exams, assignments, finals, and for a few, some ingenious excuses for the Dean.

Manley, Paulsen Scoop AMS-AWS Presidencies

Dave Manley, past vice-president of Associated Men Students, moved up into the hierarchy last Thursday by winning the AMS presidency over opponent Matthew Demins in the AMS elections.

Manley rode into office by a 501 vote margin. He polled 192 votes.

Lynda Paulsen grabbed 209 votes of the 520 cast to secure her seat as AWS pres­ident. She was opposed by Don­na Krasdorf who netted 74 and Marilyn Owen who man­aged 79.

Buzz Hatsch stepped off with the AMS vice-presidency. He polled 30 vote margin over his near­est opponent, Ed Harvill.

AWS vice president was filled by Jeannella Halverson who netted 175 votes over Ed Hat­vill's 107. Linda Knapp clinched the AWS secre­tary post with 147 votes.

Other AMS titles saw Vern Paulsen running away with a secure 340 vote margin over John C. Heuerman as AMS treasurer, and Lynne Gregersen taking 130 votes over John C. Heuerman as AMS public relations rep.

Marie Houston will take the AWS vice-presidency this term, no doubt, for next fall. She defeated Kathy Ring by 118 votes.

Voting turnovers were rela­tively poor for the duoc-elec­tion but the ballot was set on a simple plurality basis, leav­ing no question about the final results.

Official tabulation showed:

President
AWS
Lynda Paulsen 175
Marilyn Owen 175
Donna Krasdorf 74

Vice President
AMS
Miles Kinzer 227
Paulsen Scoop 223

State Department Official Speaks

A special Koffee Kutter to­day featured James Phillips, U. S. State Department official.

Phillips will speak in the Ball Lounge at 10:45 a.m. He is a member of the Leg­islatives Affairs for Alternatives, a group of the Student Union America, Phillips attended the school.

August of 1961 State Department official was ap­pointed to the Alliance for Pro­gressive Labor. When he added and the Sophomore Cud of 1962, Phillips attended the Alliance for Progressive Labor.

State Department Conference which con­cluded during the 1961-62 ses­sions.

Golden Circle is a hono­rary of 12 women who are chos­en for their outstanding schol­astic achievement. These girls will also be recognized at this meeting.

Recreation Room Closed For Good

The recently established rec­reation room in the Student Union has had a very short life in the eyes of the U. S. Board members.

The old television room across from the former rumpus room was converted to a recre­ation room. A juke box for dancing and a coke machine were installed.

It was a great thing while it lasted. At almost any hour of the day, students could be found bounding or sliling mer­rily around the room, the music blinding loudly . . . No more.

Some over anxious individ­uals smashed the glass on the juke box and proceeded to add to the problems. Earlier, 50 records were stollen.

The same week the coke machine was broken.

Someone apparently after the money went to the water­works to dis­miss the valves in the ma­chine, putting it out of circula­tion.

Now there is a lock on the door. Both machines, originally intended for student service, have been removed. Henceforth, we hope the abuses of property will continue and that the "recreation room" benefit will not.

Why is it that supposedly good men have a heart, and still possess with childish actions? This is a question many people are asking now.

In the past, mirrors and towel dispensers have been tampered with, the men's restrooms. Numerous instances have been damaged or com­pletely destroyed.

As long as a few individuals continue their immature ac­tions, the rest of the student body will have to suffer.

Some one once called college a "glorified high school." It does not take too few students. Maybe they weren't far wrong.

Parking Fees Up!

Gus Hall is not the only un­sought thing in the state—parking lots have also been banned.

At the last session of the state legislature, our representatives decided that college and university parking lots should be paid for by the people. This means to Eastern's students is that the money for the lots will be raised.

The extra fees will be used to build new parking lots in the Student Union, and maintain the ones we now have.

Fred S. John, accountant, presented the plan to the State Department officials.
Students Advised To Submit SSCQT Applications Now

Applications for the April 17, 1962 administration of the College Qualification Test are now available. The Test is for college local boards through­out the state, and is given by local boards.

Eligible students who intend to take this test should apply at the college registration office. Information is available in a bulletin of information.

Following instructions in the bulletin, the student should fill out his application and mail it immediately to the envelope provided. The test is administered in the Examining Section, Educational Testing Service local board for an application, a bulletin of information, and a brochure of information.

The Movie Makers

By Don Dresse

With the advent of the Academy Awards just around the corner, it is probably time to look over the mill of celluloid film footage produced last year. But they now appear to close to the film made by the Academy Committee on Un-American Activities and its message is main­ly that the said demonstrators were inspired and coordinated by Communist agitation. Much comment has been brought forth on this contro­versial film. Much of the criticism is directed at the clouds of impli­cations used in the picture. The committee chairman, Frank Walter, has admitted factual errors. The movies were produced by the committee from the local television stations, supposedly for the committee's files, but instead they were turned over to a commercial studio and edited into OPERATION ABOLITION.

The most relevant critic of the film is another iron­ically the same film, with different narration. The new film, titled OPERATION CORRECTION, was viewed here at Eastern. The American Civil Liberties Union was the producer of this film and if the viewer has not acquainted himself with the riots in San Francisco, he will find OPERATION CORRECTION a bit cloudy itself.

OPERATION CORRECTION tries and succeeds in clearing up some of the assumptions made in the committee's movie. It explains that there were actually three different groups among the hearings—the public, the students for civil liberties who organized picketing, and the admitted Communists and other­ hostile witnesses supported by the committee. It also re­arranges the shock sequences in their proper order. All in all, it is difficult to believe that two narrations could produce such entirely different effects. Much is a subject of the old adage, "One picture is worth a thousand words."

WINTER QUARTER EXAM SCHEDULE

All Humanities classes Wednesday March 14 from 12:30 to 2:20
All N.S., 101, 192, 123 classes Thursday March 15 from 7:30 to 9:20
All Soc. St., 107 classes Thursday March 15 from 12:30 to 2:20
7:40 classes Thursday, March 15 from 7:30 to 9:20
8:40 classes Friday March 16 from 9:30 to 11:20
9:40 classes Friday March 16 from 7:30 to 9:20

Present Duo Con
HUBBARD'S MORNING CONVOCATION
AND DRISCOLL'S EVENING CONCERT

A veteran observer of the African scene, Margaret Carson Hubbard, and a man who has been described by the Berliner Beitung as a man, "who not only sang like a god, but looked like one," will present two programs tomorrow.

Mrs. Carson, who first went to Africa in the 1920's and lived for years at a time from Cape Town to Cairo, will speak on "As Africans See Africa" at 10:30 a.m. in Showalter auditorium.

Dr. VandeBerg
Appointed To Relations Group

Dr. Loyd W. Vandeberg, chairman of the Department of Practical and Industrial Arts at Eastern, is one of seven United States educators appointed to a nation public relations committee of the American Industrial Arts Association this week.

In announcing the appointment, Dr. Robert Swanson, vice president of AIAA, said that Dr. Vandeberg would be responsible for interpreting industrial arts in the U. S. possessions and in foreign countries.

Dr. Vandeberg is a graduate of Stout State College, Menomonie, Wis., and of the University of Wisconsin. He has been at EWSC since 1947.

Canada and Puerto Rico are the geographical areas of Dr. Vandeberg's responsibility.

Dr. Ralph Manns, Eastern music instructor, was invited to bring the choir to the annual Washington Music Education Association Convention in Tacoma. While in Tacoma, the choir stayed at the Olympia and Winthrop Hotels.

On route, the choir sang for high school groups in Moses Lake and Cle Elum. The student vocalists were received with great enthusiasm at every performance.

While in Tacoma, the choir made two scheduled appearances in addition to some less formal entertainments in the coffee shop of the Olympia Hotel.

At a luncheon held for the music educators from the Eastern portion of the state, the Collegians provided music in a modern mode. The general assembly of the convention was held on Saturday afternoon.

On Sunday, the choir sang for the assembly of the convention as they remain in Tacoma. The choir, under the direction of Dr. Ralph Manns, sang with great enthusiasm.

A great many of the patients, and especially the children at Lakeland Village, enjoyed their visit with the students.

As a result of his splendid London performances in the latter part of 1961, three major European opera houses offered him contacts. Mr. Driscoll finally decided upon the Glyndebourne Opera Society.

At a concert by Driscoll at Eastern Vocalists charm Tacomans

By Mike Stroud

The sidewalk was crowded with music teachers from all over the state as 81 Eastern students comprising the Symphonic Choir unloaded their tired bodies from the two chartered Greyhound buses.

Autopsy On A Dead School Bond

By Chuck Plumlee
Long hours, long days were spent fighting to push the much-opposed school bond issue in Cheney. Memos and cards were sent to voters asking for their support. An extensive campaign was launched to bring the people in to vote.

But the bond failed.
For some reason the people remained unconvinced. Why? Cheney is a small college town—but it doesn't think like one.
The residents of most small towns tend to think alike. They are the obscure residents of the larger towns enjoy. They are more apt to favor what is in their neighbor's views—they communicate better.
But with Cheney a little different situation exists. It is a town, but an extra large school district changes its outlook considerably.
It is true that many towns are located in large districts, but usually they are farming areas with few people. They don't have the problem of a large, varied population.

Starting on January 1, 1956, seven school districts began consolidation into one, huge district. By March, 1961, the Cheney school district was complete. It was an extra large north to south, and east to west. Although its population is not staggering, it is big. It includes people from all walks of life: businessmen, teachers, businessmen, college faculty members and students.

Consolidation threw this varied group of people together and contributed to the killing of the school bond and levy issues.

There is speculation from both sides as to what actually killed the issues. The people who supported the issues said that the extra taxes which would have been levied would have been used to build a new high school, to buy land for another high school and grade school and to build a new school. The opposition said it would have been used to improve the old school.

The proposal was put to a vote and defeated overwhelmingly.

Again we ask the question—Why?

Carmen R. Stewart, board member and one of the opponents, pointed out the answer to this. He said that there was a lack of communication between the board members and the people they represent.

"One thing that is needed is a common language between the people, between the city resident and the educators," Stewart said.

He said that when a bond promoter visits a farm, he must meet the farmer on his own ground. If the farmer is in his corral and a pile of manure must be crossed to talk to him, then it should be crossed.
The farmer is not going to cross it. He is not going to talk to you, Stewart said. He cited a lack of attendance at board meetings as a cause for the lack of understanding. When a farmer or other citizen attends a board meeting, he feels that the professors are Cheney citizens and they are only exercising their right to talk.
Dr. Don S. Patterson, college president, when asked about this problem, commented, "Well, I voted."

The people who opposed the bond and levy are not actually against the building of a new high school. They stress this. But they aren't for anything else. No one has any concrete ideas on how to improve the school, only that individuals, with individual ideas, but they can't form one good idea to encompass all.

Communication, then, is the basis of the problem.

These are people who used to be separated from each other, but now, that they are one district and many either won't or can't express their thoughts. They feel that they are not a part of the whole district.

It was the confusion caused by consolidation and lack of communication caused by the varied population that killed the school bond.

Summer and Smoke

Glorious Hill, Mississippi, came to life in Showalter auditorium last week, and the fact that the three performances were not attended by the full capacity of students and faculty members was the result of strict application of the school's no-smoking policy.

Both the acting and the technical work of the production were commendable. A large, well-skilled audience interpreted the play so well, that the play was a success. The play was directed by Fred Erickson, from Beloit, Wisconsin, who is one of the most important people in the school's drama department, and the audience enjoyed the play that was more than successful.

The play, written by Edward Albee, is a satirical comment on the meaningless life of many people in today's society. It is a play that makes you think, and think, and think some more.

The play was well cast, and the acting was superb. The characters were memorable, and the play was a success.

AGED MILD, BLENDED MILD, NOT FILTERED MILD - THEY SATISFY

Some of our best friends are raccoons

In our job of exploring and drilling for oil we come across all kinds of small furry animals like these.

As a “visitor” in the forest, Standard has a responsibility to protect wildlife and keep the wilderness fresh and green. And we accomplish this in several ways, working closely with fish and game and wildlife officials.

Water wells, essential to our drilling operations, nourish thirsty plants and animals… and nesting and breeding ponds are built for wild fowl.

When wells are in, we assure new growth by reseeding grassland and by planting new trees in the work area.

Exploring teams in helicopters keep sharp watch for fires, and on the ground our men with bulldozers and water trucks stand ready to help when fire strikes.

Good conservation includes thousands of oil-producing areas that are also used for recreation, outdoor sports, farming and grazing.

Multiple use of the land allows more people to enjoy our heritage and the beauty of the great outdoors. At the same time, our natural resources are developed to serve the nation.

planning ahead to serve you better

STANDARD OIL COMPANY OF CALIFORNIA
BUSY SCHEDULE FOR SPRING ATHLETES

Spring sports are fast approaching as Athletic Director Bill Beauchamp has scheduled the meets for the 1962 track, baseball, and tennis seasons.

Bob Anderson's football team has committed itself to a special spring camp held by the Montana State University and the Montana State College at Walla Walla. The spring schedule will consist of three games against Eastern Washington University at Vancouver, Washington State University at Pullman, and Whitworth College. The games are scheduled for the last weekend in April, with the middle of the month as the midpoint for further training.

With finals coming up and three term papers still to do, column writing becomes a little arduous. Like some of you, I'm wondering where the quarter has gone and when grades come out, where the heck I'm going ... "April in Pasco" or "Springtime in San Diego"? I just saw my recruiter the other day. She assured me we're not going to be overseas for awhile. They'll want their time with me?

The good will done by this project will begin their teaching assignments in mid-September. In response to a request from President William V. S. Tubman, Liberia's Peace Corps Volunteers are scheduled to begin teaching in Liberian secondary schools in the fall. With substantial assistance from the Peace Corps, Liberia is launching an extensive school building program. The Peace Corps Volunteers are scheduled to train these teachers to teach in the schools and provide temporary replacements for teachers who are to receive further training.

Liberia is located on the coast of West Africa, between Sierra Leone and the Ivory Coast. It has a population estimated at 2,500,000. Liberia was founded in 1822 by Negro freedom seekers from the United States with the assistance of Liberia, slightly larger than Tennessee, is the republic of Liberia. The country is bordered by the humid coast to the cooler and drier highlands of the interior. It is generally mountainous and forested.

Most of the country is covered with tropical forests, rich in timber and oil nuts. The climate varies from the humid coast to the cooler and drier highlands of the interior. It is generally mountainous and forested. The Republic of Liberia, slightly larger than Tennessee, is the republic of Liberia. The country is bordered by the humid coast to the cooler and drier highlands of the interior. It is generally mountainous and forested.

With an easy win over Freeport, Beechman will have a huge rebuilding program in store for Nicaragua's basketball boosters. The Savages will lose all but one letterman due to graduation or dropout with not too much optimism from this junior varsity team.

Coach Bob Anderson reasons that the morale of the EWSC tennis team has increased by the presence of new players. The tennis season is two months behind the schedule in the history of the Eastern Primary School.

The Savages placed fourth in the 400 yard medley relay team with a time of 3:58.4 by Bill Smith, Killian, and Tommy Layman.

A brief orientation period in the Peace Corps Volunteers is expected to begin their teaching assignments in mid-September. In response to a request from President William V. S. SHAKESPEARE DOESN'T LIVE HERE ANY MORE
A recent and most heartening development in American college life is the emergence of the art-in-residence. In fact, the art-in-residence has become familiar as a sight on campus as Latin ponies, leather elbow patches, Rorschach tests, hula hoops, and Marlboro cigarettes.

And we all know how familiar that is—I mean Marlboro cigarettes. And why should it not be familiar? Why, wherever learning is king, where taste is everywhere, brains prevail, rules supreme, should not Marlboros be everyone’s favorite? The same good sense that gets you through an exam is Restoration Poetry or science physics, or perhaps (do you want your students to come to pick a cigarette? You look for that which is familiar, a little more familiar, and white, a choice of pack and size, or a lot of variation, and look, in short, for Marlboro—and how lucky you don’t have to look far. Marlboro is available at your friendly tobacco or vending machine, wherever cigarettes are sold in all fifty states and Las Vegas.

But I digress. We were speaking of the new campus phenomenon—the art-in-residence—a man or woman who writes, paints, or composes right on your very own campus and who is also available for occasional consultations with superior students. Take, for example, William Cullen Sigsbee, artist-in-residence at the Toledo College of Belles Letters and Fingerprint Identification. As we all know, Mr. Sigsbee has been working for many years on an epic poem in rhymed couplets about the opening of the Youngstown-Akron Turnpike.

But no. The point is that Mr. Sigsbee was an artist-in-residence at Toledo College of Belles Letters and Fingerprint Identification, his program was not what you would call rigid. He started well enough with the immortal couplet we all know: They speed along on wheels of rubber, rushing home in time for dinner...

Then Mr. Sigsbee got stuck. It is not that his muse deserted him; it is that he became involved in a series of time-consuming episodes—a prefrontal lobotomy for Irwin, his faithful dog, fourteen consecutive months of jury duty on a very complicated case of over-time padding; getting his coat caught in the door of a jet bound for Boston, Australia, etc.

He was engaged in a very hard job in Sandusky—posting for a society of hydrates—and on an offer came from the Toledo College of Belles Letters and Fingerprint Identification to take up residence with them, finish his superman up and, in the next three or four times, see a few gifted students.

Mr. Sigsbee accepted with pleasure. In three short weeks he completed the second couplet of his Youngstown-Akron Turnpike epic: The highway is made of solid concrete and at the toll station you get a receipt...

But that’s another story.
Four Eastern art majors have been invited to display their paintings in a four-man show at the Palouse Room of the Bon Marche in Spokane during March. The students are Gary La Turner, Roger Riggs and Ronald Ballow, all seniors, and Terry Barr, a sophomore, who studied art at Shadle Park High. "We feel this is a signal honor for these students," Mrs. Opal Fleckenstein of the art department stated. "We are proud of the honor to Eastern, and hope that as many students as possible will go to see this colorful and interesting show."

The 40 paintings include oils, watercolors, prints and batiks. The Bon Marche's Palouse Room is an important gallery in Spokane, with shows by important Inland Empire artists each month. Eastern has displayed work there once before, but as a group effort. The displays are viewed by approximately 35,000 people.

Lists of the 72 pieces to be exhibited in the Masterpieces of Art show at the Seattle's World's Fair are available at the art department office. The art department is currently making plans to show slides of some of these masterpieces, in order to help students gain an appreciation of the works before viewing the exhibit. The Washington Art association is promoting this procedure in the public school of the state. Two other art shows will be exhibited at the fair, a collection of modern paintings, and a display of the art of the Northwest Coast Indians. The Indian art has been selected by Edna Gunther, University of Washington anthropologist.

Would you volunteer to man the first space station if odds on survival were 50-50? 

Yes ☐ No ☐

How many children would you like to have when you're married?

None ☐ One ☐ Two ☐ Three ☐ Four or more ☐

Do men expect their dates to furnish their own cigarettes?

□ Yes ☐ No ☐

L&M gives you MORE BODY in the blend, MORE FLAVOR in the smoke, MORE TASTE through the filter. It's the rich-flavor leaf that does it!

L&M's the filter-cigarette for people who really like to smoke.
