Stanley and Biggs Receive Top Honors at Awards Con

Outstanding Senior Woman and Man of the Year were two honors awarded at the annual awards Thursday. Besides these awards, 55 other scholarships were awarded by Associated Students and groups on campus.

Friedelica Biggs was named Outstanding Woman by means of Secretary of Student Affairs, Dr. Ralph Buntrock, Richard Alex, Robert Johnson, Rich Hilby, Will Hartman, Jack Breston, Susan Keller and David R. Lewis.

The seniors, Dickenson, associate professor of laws, Mr. Stan Witter, of languages, they will make their studies at Eastern.

Dr. Harold Stevens and Ed Dickenson, associate professor of laws, they will make their studies at Eastern.

For the above reason, it will be necessary for the students who plan to register to employ this "New Student Registration Card" and return it to the registrar’s office no later than September 15.

Appointments will be available for distribution about the end of the term. Future cards will result in the denial of registration. These cards will be available until September 15.

Students who are in attendance at Eastern this fall will automatically have a registration card with them and it will be necessary for them to file a "For-
President Patterson: Let No One Mistake Our Mandate

President Don S. Patterson

I am glad to accept the invitation to share with you one of my firm convictions in this year's last issue of the Easterner. I think it perfectly fitting that we are entering a crucial time in our lives, and I am sure that you, the reader, are also aware of the great responsibilities inherent in the role of leadership.

Our college has been taking a more active role in shaping society, and I believe that the efforts of all of us have gone more than we realized. I am proud to say that the Easterner has played a significant part in that role.

The Easterner has been a medium for the expression of ideas, opinions, and concerns of the students and faculty. It has been a vehicle for the sharing of information, and a catalyst for change.

I believe that the Easterner, as an organ of the college community, has a responsibility to its readers and to the institution as a whole. We must continue to strive for excellence in all aspects of our work, and to maintain the highest standards of integrity and professionalism.

I am confident that the Easterner will continue to serve the students and faculty of Eastern Washington State College with dedication and distinction for many years to come. Thank you for your support, and I look forward to working with you all in the future.

Sincerely,
Don S. Patterson
President
Science Building Nears Completion

The building, which was originally scheduled for completion and use by summer quarter, is awaiting its finishing touches.
Speech Correction Classes Offer Services To Many

An eight year old dream has finally become a reality. The Creative Arts Division, department of speech, announced that courses leading to a certification in speech correction will be offered at Eastern starting this summer.

This action stems from the fact that lip, head, and other speech difficulties have been a national problem, Miss Alice Moe, an assistant professor of speech, said that in eight years of enrollment, speech correction classes have expanded from five to 25-33 during the year, and to 40 and 50 during the summer session. College students and supplies from the From the Campus school were at first the only beneficiaries of the clinic. Services have been expanded to the Spokane and the State colleges. Fifteen credits are given to those who have taken the course and have studied further. They serve on city and county staffs.

The brand new science building will be the nucleus of speech correction activities. And for those who fear the summer heat they have no need to turn your head, because the building is air conditioned.

The following is a rundown of the classes to be given this summer:

- June 8-27-Phonetics
- July 16-27-Aural Rehabilitation

Jobs Numerous For Students Willing To Move

By Chuck Plumb

Graduating seniors should have no problem getting jobs if they are willing to move. Raymond M. Giles, placement director, looked over the job situation for Eastern's graduates and found it to be one of great opportunities.

Last year, Giles said, there was a need for 460 teachers in the state of Washington. Washington gradu- ates filled only 197 of these positions. The outlook this year, he said, seems to be the same.

Although the biggest percentage of Eastern's graduates is assigned to the Spokane area, this area is not where the big opportunities lie. Giles said that Seattle is just a small part of the many school districts in the state and the United States. It cannot possibly support all the graduates who want to teach there. A lot of competition is received from the experienced teachers who desire jobs in the Spokane area.

In general, teaching demands are getting greater. There are more openings for high school teachers and most of these jobs can be found in Washington.

In the liberal arts there are according to Giles, almost as many jobs available as education. Here, again, the graduate must be willing to travel. Most of the jobs in industry and business are found around the major population centers. Few can be found in the Spokane area.

Boeing calls for many graduate engineers training courses. Giles said that most students are put into training programs when they go to work in industry and business after graduation.

The Washington Employment Security officials reported that there is a good demand (continued on page 9)

Besides Miss Moe, Robert C. Thompson, director of the Speech clinic at Ithaca college, N. Y., with ASHA accreditation, will be here to help conduct these summer sessions.

480 Speech Re-education, an introduction to speech problems, will be given by Miss Moe at 8:10 daily.

481 Speech correction will be given by Miss Moe daily at 9:20. This course deals with the study of speech disorders. Emphasis is placed on those who require special handling.

482 Clinical practice, which provides work under supervision in connection with remedial speech programs in the Campus school and college, will be taught jointly by Miss Moe and Mr. Thompson.

Dr. Donald L. Brehm, Ithaca, A.S.B.A. will join the staff this coming fall.

Anyone who is interested in taking these courses—or for certification or therapy—are urged to contact Miss Moe at the Speech Center before summer registration.

The good life is a full life, complete with the comforts and conveniences of a full living standard. It is also a balanced life, in which the stimulation of mass production. Because they can advertise, companies in America have provided the good life for practically everybody. Can any other nation say as much?
Western Proposal is Accepted By NSA

Eastern proposal to establish a national student mock election in 1964 was accepted at the meeting of the Great Northwest Region of the NSA held at Columbia, D.C., May 18 and 19.

The proposal was adopted in the belief that it would aid in fulfilling the grand ideals of the USNSA, which include the furthering and fostering of democratic principles and government. The proposal as formally stated lists the responsibilities of the national, regional and local student associations in establishing the mock elections.

**THE OPTIMIST**

By Walt Hartman

Chuck Messinger, Mick Soss and Roger Kromer once again headline Eastern sporting news as the trio had much to do with giving Eastern national prominence in the track and tennis worlds.

Messinger, Eastern's outstanding gymnast and track man, once again proved that the two sports do not conflict by capturing a first place time in the District NAIA track and field championships held in Ellensburg last weekend. Messinger gained the tie on a leap of 12'-6" to prove that his conference breaking performance of 12'-8½" last week was no fluke.

Messinger tied with Central Washington's Pat Katzer, the same vaulter that the Eastern star had defeated in the conference meet. Both vaulters were chosen to compete in the national meeting to be held next weekend in Sioux Falls, S. D.

Mick Soss and Roger Kromer turned the tale on Whitman's Steve Ronfeldt and Ron Witten to upset the Missionary pair in the district NAIA tennis championships in Ellensburg and thus earn themselves a spot in the national meet in Kansas City from June 7-9. Soss and Kromer defeated the Whitman duo 6-4, 3-6, 6-4, to avenge an earlier loss to them in a dual match at Walla Walla earlier in the season.

In the singles championships, it was once again Soss and Ronfeldt battling it out for the championship, but this time Ronfeldt gained the upper hand with a comeback 3-6, 6-3, 6-3 win. It was the third time this year for Soss who has 17 wins to his credit. Soss had beaten Ronfeldt in their previous match at Whitman in straight sets and despite the district loss, the Eastern star stands out as one of the favorites in the national meet.

With this issue, the Optimist column will go into retirement after two years of a great experience for your editor. The reins will be given to the very able hands of Terry Gannon who has had much to do with the success of the paper this year. Good luck, Terry!

**Physical Education Group Plans Sunday At Williams Lake**

The newly formed Physical Education Club of EWSC has announced the coming of its first annual picnic to be held on Sunday, June 3, at Williams Lake.

All P. E. members and their dates are invited to attend at a cost of 75 cent per person needed to defray the cost of the lunch facilities, according to P. E. director, Steve Stratton.

Dr. Marshall D. Wattles, director of the honors college at the University of Oregon, has been named to assist in Eastern's two-week workshop for leaders of superior student programs to be offered August 6-17.

The program, which is under the direction of Dr. Louis V. Graffius, chairman of KW-SC honors council, will be partially financed by the state department of public instruction.

The workshop will explore the philosophy and objectives of superior student programs, their place in American education, types of organizations, characteristics and the most effective means of development and administration.

**SPORTS**

**Intramural Track Honors Captured By Off-Campus Men, Sutton and Hudson**

The Off Campus team won the intramural track meet May 21, scoring 70½ points. Sutton was second with 43½ followed by Hudson with 37.

Mike Leichner paced the Off Campus win with three firsts. Leichner won both sprints and the broad jump.

Three records were broken in the meet. Ron Brothers of Hudson topped the shot put mark to 43 feet, 8¼ inches and Chuck Jungblom set a record of 157 feet in the javelin for Sutton.

**Future Footballers Urged To Attend Meeting With Coach**

Ed Chissus, head football coach, announced that a meeting will be held for all interested football players. The organizational meeting will be held Thursday at 7:30 in the Capri room of the Student Union.

All boys interested in turning out for next year's football team should be at this meeting.

**Three From Eastern Attend Joint Meet**

Dr. Don E. Batton, EWSC assistant professor of psychology, read a paper on Methodology in Sensory Deprivation Research, "at a joint meeting of the Oregon and Washington State Psychological associations in Portland recently.

Dr. Batton is currently working in research in this area on the EWSC campus and has received a National Institute of Mental Health grant for study during the summer.

Dr. Lovell E. Patmore and Dr. Louis E. Waters also attended the meeting.

**Captain Stewart Gets Promotion**

Eastern's Captain Alex Stewart, Jr., assistant professor of military science, was promoted to the rank of major May 14 by the department of the army. Maj. Stewart, originally from Albany, Ga., has served in the army for 11 years. He was in the 254th Infantry Regiment, 44th Infantry Division in the Korean conflict.
Cheater Hurts the Honest Student

By Chuck Plumb

One of the major causes of cheating among college students is the grade-point system and the competitive grading system, according to Dr. Halwan, English professor. The professor's president and two of his instructors gave their views on changes that affect the students.

Dr. Halwan, president, said that cheating is not as widespread as people think. It is a lot of people who don't do much in school, it is not available to them so they use it. But it isn't in the same category as the normal, not there was in the past.

It is not only the cheating who loses. It is his classmates and those who suffer from his actions.

As far as the explanation, Dr. Patterson said, should show that the individual knows facts. Facts are tools to think with. If a student must cheat it is evident he has not mastered the tools of thinking.

Speaking on the honor system Dr. Halwan said that it is something that resides inside an individual. But until a person realizes he is cheating himself, he will need to do what he values most.

Some more specific statements were given by Dr. Halwan. He said that there was too much emphasis on grade point rather than knowledge received. If there were more emphasis on creative thinking then there would be no cheating.

He listed essay exams as thinking type of exam. Tests also include too much from old books and lectures. It is easy to look over on a classmate's paper and see an answer. But it is harder to get an answer from someone's writings and ideas.

The family, Dr. Halwan said, is important in teaching. By having exams a student will write he, said instructors are forced into these exams because of the class they must teach. It is almost impossible to grade a teacher's exam with the time limits imposed on many teachers.

Rather than have an honor system, Dr. Halwan suggested that the tests be graded by the students. The instructor can then grade the exams with the time limits imposed on many teachers.

As far as the employment situation, Dr. Halwan had this to say. He was concerned, employment officials said that the low point was about ten percent lower than the average city in the state. The state average for unemployment was 10 percent and Spokane's rate is nine percent.

Dr. Nichols also agreed with Dr. Halwan. He said that cheating is not a top location for finding jobs, however, job hunters were encouraged to move away in the state. The state average for these and other jobs at the Washington Employment Security office in Spokane.

Tareyton delivers the flavor

DUAL FILTER DOES IT!

"Tareyton's Dual Filter in dust parts divisa esti" says Julius (Cookie) Quinns, ace jewelman and R.M.A.C. (Big Man Around Coliseum). "A Tareyton would even make Mau mellow," says Cookie. "Tareyton's a rare among cigarettes. It's one filter cigarette that really delivers the goods. Pick them up today and you'll find there's Pity of pleasure in Tareyton."
