Quinley Accepts Position With California College

By Nick Hancey

Registrar C. W. Quinley, Jr. will leave for a new position in California next month after eight years at EWSC. His new position will be that of registrar at Stanislaus State College in Turlock.

Mr. C. W. Quinley, Jr.

Mr. Quinley was born and raised in the Modesto area which is 14 miles south of Stanislaus. Upon his graduation from San Francisco State College he held a position of assistant registrar before coming to EWSC.

Mr. Quinley stated that he wished to return to his native state and California's state college system.

"For eight years our goal has been to establish a smooth registration, acquire better equipment and improve the film systems. I believe this office has accomplished these, and many other objectives," he said.

Quinley Accepts Position With California College

By Nick Hancey

Registrar C. W. Quinley, Jr. will leave for a new position in California next month after eight years at EWSC. His new position will be that of registrar at Stanislaus State College in Turlock.

Mr. R. K. Kennedy's admissions officer, who has handled applications for admittance to EWSC, said "KWS is losing a fine person. I began my work in the field of education and I always found him to be most co-operative and willing to work closely with us to make EWSC a better college. On the personal side, he proved to be a most generous and consistent, loyal when it came to buying a cup of coffee." Mr. Quinley will not be able to observe the results of the new IBM registration procedure that will begin fall quarter. The credit for the new system is largely his. He has spent many hours on the problems this change presents. However, it is not surprising that the steps thus far have been the same.

Mr. Quinley is the former Jean Rice of Walls Walla, and their three-year-old son, Jim, will leave with Mr. Quinley immediately after the regular summer vacation. They will visit to Mrs. Quinley's parents in Walla Walla before Mr. Quinley begins his new position September 1.

Stanislaus College is only two years old, but the campus is already crowded with an enrollment of 900 students and is growing rapidly. There are so many things to say to the many friends, colleagues and associates I miss, who helped make my stay so enjoyable," quinley said.

"The correspondence of PTA

Work on four additional construction projects at Eastern will begin soon if bids submitted today are accepted by EWSC's board of trustees. The trustees will meet at 8:15 p.m. Eastern time, Tuesday with Dr. Donald Treadgold of the University of Washington, president of the Washington State House of Representatives, as the guest speaker.

Legislative Committee To Tour EWSC

Eastern will host representatives from the Washington state house of representatives and senate.

Tour Dates Changed, Garden Caves July 14

A change in the summer recreation trip schedule has been announced by Dr. Ogden, student activities director. The July 15 group will travel to Garden caves at lone, and the following Saturday's tour will travel to Grand Canyon and Garden Caves.

Lunch will be available on a houseboat at Hope lakes, but students are encouraged to arrange their own meals.

Communism Is Con Topic

"Communism and the common society" will be discussed by Dr. Donald Treadgold Thursday morning.

The non-excess renovation will be at 10:30 a.m. in Martin hall auditorium.
Learn To Serve, Advises Dr. Jones, African Expert

By Judith Huetsen

What is our stake in Africa? Dr. Wendell P. Jones gave a comprehensive answer to this question Thursday morning to an audience which filled Martin hall auditorium.

"Africans have a humanitarian stake in the countries for which they filled Martin hall auditorium. Africans have a humanitarian stake in the countries for which they represent. Africans can say, 'If the United States can do it, we can, too,'" Dr. Jones said.

Professional Program Admits 18 EW Students

Eighteen students were admitted to the professional education program at Eastern spring quarter.

Dr. Lovell E. Patmore, EWS professor of education and director of professional admissions, said admissions to the program is a prerequisite to upper division work. The university has a unique Shakespeare program, and the student who is interested in it must be enrolled in the education program.

The student must have completed at least one year of college in the major and earn a minimum grade point average of 2.5.

Interviews for summer quarter will be held July 19.

Softball Thursday

Eastern's softball team will play the Oregon State University team Thursday afternoon at Williams field in the Davis campus. The game will be played as the softball diamond is located in front of the Field House, at 4 p.m. and all are welcome.

Darcey Ross, EWS coach, said that the team is working hard to prepare for the game.

Eastem Alumnus Will Study Sumerian Texts

A 1966 graduate of Eastern, Robert D. Biggs, has been awarded a doctor's degree in Near Eastern languages by John Hopkins university in Baltimore, Md. Biggs studied at Toulouse University in France in 1955-57 under a Fulbright fellowship, and will study Sumerian texts.

By Dr. William Wilson To Head Eastern's Campus School

Dr. William Wilson, who is the present principal of the Campus school, will become a full-time professor in the school of education at EWRE. He will supervise the curriculum, which is the training of prospective administrators.
Number of Foreign Students, Faculty Increases in States

The number of foreign students, faculty members and scholars in the United States on educational assignment reached a new high last year, while the number of foreign physicians declined. These are the findings of the annual census of foreign students and scholars in U.S. colleges and universities.

The report also reveals that an unprecedented number of U.S. students and a slightly increased number of U.S. faculty members were abroad for educational purposes. "Open Doors" is based on first-time surveys conducted by the Institute of International Education. For the last 13 years it has been the only comprehensive study of the flow of people in or out of the country. It reports that a total of 71,113 foreign persons were in this country during 1964 for the purpose of teaching, an 8.15% increase over last year. The number of OAS scholarships abroad was 22,200, or 25% greater than the number reported last year.

According to Kenneth Holland, president of the Institute of International Education, the statistics, are compiled, annually, for the benefit of foreign governments, corporations, private organizations and the U.S. government in their planning of educational exchange programs.

Mr. Holland said: "All of us in the exchange field are concerned with building better programs for the increasing flow of students from developing nations. Stakes in this enterprise, from the sources indicate that the activity is related to the extent and importance of our contribution to the national interest." Foreign Nationals

Every major geographical and political area in the world had an increase in the number of its students in the U.S., but Africa again had the greatest proportionate increase. As last year, the largest number of foreign nationals in the U.S. were from the Far East, 36,522 or 37% of the total. Seventeen per cent were from Latin America; 25% from Europe; 14% from the Near and Middle East; and 11% from North America (Canada and Bermuda).

Foreign Students

The number of foreign students from 149 countries enrolled at 1,798 institutions of higher education increased this year as last, with the largest number of foreign students coming from Europe. Asia and Latin America. Testimonies from the sources indicate that there is a strong tendency for the increased number of students to be in the field of science. As last year, the humanities are next, with 19%, the natural and physical sciences follow with 18% and social sciences are reported to be 15%. Other major fields of study were business administration, medicine, education and fine arts.

A total of 1,798 institutions that reported foreign students were in the 50 states, the Canal Zone, the District of Columbia, Guam and Puerto Rico. California had 821,819, or 37% of the total. New York and California reported U.S. government aid as their source of support. The number of foreign students who reported private organization funds was 5,455, or 2.5% of the total. The University of California had the highest percentage of foreign students in residence to the total enrolment. This is the first time in the history of the report that a single institution has been the only comprehensive reflection of the student population in the U.S.

Foreign Physicians

Of the 10 countries with the largest number of physicians in the U.S., Mexico, which was listed third last year, heads the list. As always, Europe at 9% (5,407) of the total was the largest source of physicians. India was next with 821, followed by the Philippines at 470, and then Great Britain at 386. Among the developing nations of Africa, Chad, Gabon, Gambia, Mali, Sudan and Brazil reported 15% of the total number of foreign physicians. China is third with 4,735 students, followed by Japan with 4,639 and France with 3,389.

Three Students

Three students of distinguished academic talent were among the students reported for the first time last year. Bette S. Wright, U.S.C. at 19, was a sophomore. Ford Yarnell is a 1962 graduate of the University of Alabama. She was listed for the first time in the report. She was a freshman in 1962. The significant decrease probable reflects the effects of the American Medical association to establish more rigid criteria for foreign nationals who wish to practice in U.S. hospitals.

A total of 72,113 foreign persons were in the U.S. as students and scholars in 1964. Of the 10 countries with the largest number of foreign students, Mexico, which was listed third last year, heads the list. As always, Europe at 9% (5,407) of the total was the largest source of physicians. India was next with 821, followed by the Philippines at 470, and then Great Britain at 386. Among the developing nations of Africa, Chad, Gabon, Gambia, Mali, Sudan and Brazil reported 15% of the total number of foreign physicians. School Administrators Will Discuss Pressures

Public pressure and professional responsibilities is the theme of the two-day school administrators' conference which begins at Eastern tomorrow and continues through Friday. More than 150 school officials from eastern Washington and northeastern Oregon are expected to attend. Sponsoring the conference is the Spokane area superintendents' association, the WEA and Eastern.

Keynote address, "Current Pressures On Our Schools," will be delivered at the Thursday morning opening by Dr. Al Hill, executive director of the WEA.

Dr. Donald W. Treadgold, a University of Washington professor and author of textbooks on Russia, will follow, speaking on "Russia on American Education." The Thursday afternoon session will feature Joe Chandler, executive secretary of the WEA, whose topic will be "Facing the Issues in Washington State."

A panel discussion on "Solving Our Problems Together" will follow, Dr. Gordon McCloskey, professor of education at WSU, will be panel chairman, with Dr. Relind B. Lewis, EWSC education division head, Warren Morgan, assistant superintendent in charge of personnel, and administrator, Spokane school district, Chandler, Jell, and Dr. Kimmen as members.

ASC Announces '62 Committee Appointments

The Associated students committee appointees for the 1962-63 year have been selected.

The appointments for the faculty-student committees include Tom Padgett, library; Prince Kelly, academic appeals board; Roger Brimmer and Paul Lecce, athletics council; Dave Adams and Bruce Leberecht, curriculum committee; Les Beuthe, safety committee; Sharon Perkins, Sue Huel congressman, Mary Horsch, Leonard Davis and Mary Krueger, special programs; Al Elliott, Betty Hов, James McClung, Fredrickson and Don Edgars, student union board.

Student committees are as follows:

Lynne Winters, Mary Morash, Robert Zavourite and Vera Aston for the finance committee, which approves all budgets submitted for student activities.

Nancy Lefther, Sharon Etkin, Bonnie Vietsmann, Carol Link, Kathleen Oakes and Sharon Moxey for the elections committee, which checks the eligibility of candidates, supervises nominations, campaigns and election procedures, and publishes election results.

Les Francis, Lynda Paulsen, Bruce Zamore, Janet Gage, Dick Carter and Charles Oritz for the NSA committee, which is a liaison between the Associated and the NSA.

Art Blum, Chuck Plum, Bob Swanson, Charles Willows, Mike Brunson and Dennis Bridgdon for the communications committee.

JoAnn Frehe, Janie Rosenberger, Rubens Williams, Sue Spear, Bob Bragg, Mike Dunlap and Carol Schmeltz for activities promotion.

Bruce Leberecht and Teresa Taylor for academic affairs; Joyce Huntey for tri-school relations; and Maricote Hultons for the rally committee.

For the past few weeks students and faculty have been running, leaping and dodging through the summer construction obstacle course, a sewer ditch, part of which is shown above. As the workers begin the task of filling in the various holes, we wonder if they ever give any thought to the surgeon who was missing a sponge after the patient was sewed up.
