New Type Health Tests Scheduled

"Home" health examinations will be required of all new students at Eastern starting with the 1960-61 school year, Dr. Daryl Hagie, dean of students, announced.

"Permanent" health examinations were given by the college, but many colleges now require students to provide examinations for their own purposes, Dr. Hagie said.

The college will provide physical examinations for students majoring or minoring in physical education and for athletes. And the college will still reserve the right to give students a physical examination when it is deemed necessary, Dr. Hagie added.

Standard forms for the examinations will be furnished to students when they apply for admission to Eastern, Dr. Hagie said. When students enroll, the health form will be filed in the college's infirmary.

In addition to enabling students to get more complete physical examinations, the new plan will expedite registration at the opening of the school year, Dr. Hagie said.

**Sacajawea Fund**

Total Nears $100

Proceeds totaling $40.85 from a Ball with Cubs club dance were added to the Sacajawea fund, bringing the total amount collected to about $100.00.

Morgan, newly-elected president, said.

At the last meeting of the Alumni board, three requests of the Vets club that the board give them use of their meeting hall at a reasonable price were written up in their quarterly reports and assent them financially were granted.

Each alumni club was asked to make personal contributions to the Sacajawea fund, Morgan said.

Newly-elected officers in addition to Morgan are Richard Shaver, first vice president; and Well Meyers, secretary-treasurer.

**Testing Of Freshmen Deferred For Jan. 30**

Eastern freshmen and transfers with less than 45 credits who have not taken the four-stage differential grade prediction battery test will be required to take the G. E. Board of testing and placement.

Testing will begin at 8:30 a.m. Saturday, January 30, and continue throughout the day until 5 p.m. A $5 fee will be collected at the time students arrive.

The test is suitably given to high school seniors, and is required of all students attending colleges in the state, Dr. Hagie said.

Results of the test will be sent in confidence to the college. Freshmen and transfers are given a background of the completeness and needs of the students.

**Special Election Vote Stated For Jan. 30**

In the special election held last Thursday, a total of 445 persons voted. This was 322 votes short of the required number to constitute a valid election.

"The situation was for the specific purpose of either defeating or passing an amendment to the constitution concerning qualifications required for student body officers, according to Tom Ennis, ASB president.

"Of the total number that voted, 416 were in favor of the proposed amendment, and only 49 were against," said Ennis. "However, a total of 797 students would have been necessary in order to make the election constitutionally valid."

Ennis said the percentage of the committee that voted was approximately 25 per cent and approximately 75 per cent of those who voted were from on-campus residents.

**TV Chem. Course Offered On KHQ**

Eastern will continue to participate in the "Continued Classroom" television course for college credit. Raymond M. Wolfe, EWCE director of extension, announced.

Students may register for the second semester, which starts February 3, through the EWCE extension division, Giles Hall.

The 40-minute series in modern chemistry will be seen on KAVK-TV and KIKU-WAB from February 3 through May 27, at 8 p.m.

Lecture demonstrations will be given by Dr. Eugene Finster, teacher of Chemistry at the University of Detroit, and will be presented on the radio, television, and dyneekin.

**Vance Packard**

Vance Packard, the man who made "the hidden persuaders" a household word and whose new book, "The Status Seekers," explores the myth of "America's cluttered society," will speak at Eastern tomorrow at 11 a.m. at Showalter Auditorium.

Packard will speak on "The Diploma Elite." As a social critic, Packard pioneered in analyzing the American public to the techniques employed for "percecoinence" in depth advertising. He began collecting material on the subject of the early 1950's and "The Hidden Persuaders," published in 1957, was the result of his work. The book won the National Book Award in March for non-fiction and was soon translated into nine languages.

Packard's latest findings, as set forth in "The Status Seekers," show a trend toward a more rigid class system of "the professional" and "the common," a classification that Packard believes is especially harmful to young people. These interviews are necessary, as Packard believes, in order to give the public a "feed forward." Packard's current interest is in the "time table" of social classes that have been absorbed over the years, and how the class system affects the life of every citizen.

It appears that he has provided a new tool for precisely this type of discussion that will be receiving coverage in the professional and general winter tables in some time soon.

The moment of truth has arrived in our great capitalist system.

The student union bookstore is the first business I have ever entered and I am now charged with an average markup and goes deeper.

For example, a student walked into John W. Graham’s in the union bookstore and purchased a test book which had been sold out in the union bookstore. As it happened, he mentioned that he was an EWC student for which he was charged $5.90 for the book.

As it turned out, the printer’s price was $4.10. I wonder if Graham’s is working a special agreement with the Eastern bookstores and the student is charged $0.45 for the same.

Cases such as this have also been reported at the Eastern bookstore. With all this information, the bookstore charges and deeper and deeper.

Complaining is useless. I wonder why the union advertises coffee for 25 cents? Maybe they think they’re giving us a real buy with such tremendous savings.

These are only a few questions which enter the mind of a student about the campus. I was just wondering about the increased price of texts, and if I were the student union.

I’m suggesting that a swastika be painted on the book, a stein be painted, or maybe just incite to riot. Just thinking out loud.

(Signed) Dave Gurr

In the Past

Tri-Normal Trophy

New in 1935

A new basketball award to be known as the “Tomahawk trophy” has been established. This trophy, purchased by the Junior Chamber of Commerce, was presented to the team winning the tri-normal championship in 1935.

In The Past

Naval Championship in 1935. The trophy, purchased by the Junior Chamber of Commerce, was presented to the team winning the tri-normal championship in 1935. The trophy, purchased by the Junior Chamber of Commerce, was presented to the team winning the tri-normal championship in 1935.

The treasurer is chairman of the ASB finance committee meetings on Thursday evening and should have some knowledge of parliamentary procedure. This person should be prepared to explain to the members of the finance committee what the financial situation is, and how the budget is balanced. The treasurer must make this money stretch to allow for student fees and expenses.

The treasurer is the ASB activities coordinator. This person is in charge of the social activities of the student body, big name bands, small dance bands,convocation artists and scheduling of all of these responsibilities and fees.

This week I intend to include three offices of treasurer, secretary and activities coordinator under one column. This does not mean that these positions are any less important than president and vice president; however, elections are just around the corner and anyone interested in running should have the information about the offices as soon as possible.

The secretary of the student body is the person who handles all of the correspondence within and outside the school. The person elected to this position should very quickly learn how to type. A knowledge of shorthand would be helpful. The secretary takes minutes of the ARC meetings and bookstores and anything else out to the appropriate person.

Let’s talk to the other officers that wish to have letters typed or other work of a secretarial nature performed utilize the services of the ASB secretary. A knowledge of parliamentary procedure is helpful, because this is the manner in which ARC meetings are conducted.

Financial matters are an important aspect of your student government and the person who has direct responsibility in this area is the ASB treasurer. The ASB treasurer oversees all reports for the financial expenditure of ASB money and is responsible for knowing where the more than $100,000 a year goes out in the student fees and donations. A complete financial language into understandable terms is a very diverse quality for the ASB treasurer to possess.

Financial matters are an important aspect of your student government and the person who has direct responsibility in this area is the ASB treasurer. The ASB treasurer oversees all reports for the financial expenditure of ASB money and is responsible for knowing where the more than $100,000 a year goes out in the student fees and donations. A complete financial language into understandable terms is a very diverse quality for the ASB treasurer to possess.

The treasurer is the ASB activities coordinator. This person is in charge of the social activities of the student body, big name bands, small dance bands, convocation artists and scheduling of all of these responsibilities and fees.

Bloomberg: “Yes, I feel it is important to include art and literary works from the colleges and high schools of the Inland Empire. Dr. Harold K. Stevens will direct a special theater program in the fall”.

There has been a lot of complaining about the poor turnout at the polls for the constitution change . Some blame it on the “low campaign law” of most of Eastern’s students. And the other is not ready either. I would say this is the case.

This year the Scribes of the Fifth Estate will sponsor a contest to pick the outstanding newscaster and disc jockey on campus. Contestants will submit five minute tapes to be judged by members of the finance committee. This person should be prepared to explain to the members of the finance committee what the financial situation is, and how the budget is balanced. The treasurer must make this money stretch to allow for student fees and expenses.

The treasurer is the ASB activities coordinator. This person is in charge of the social activities of the student body, big name bands, small dance bands, convocation artists and scheduling of all of these responsibilities and fees.

With a budget in the neighborhood of $8500 per year the activities coordinator must make this money stretch to allow for well-balanced social program in the college.

Very likely, this position is the most frustrating of all those for which persons are elected, because it deals so much with personalities. An ability to get along well with all types of people is in, my opinion, one of the most necessary attributes that a candidate for this position should possess.

Future plans to include art and literary works from the colleges and high schools of the Inland Empire. Dr. Harold K. Stevens will direct a special theater program in the fall.”
Future EW Building Plans Related By Dr. Patterson

Five main issues dominated last Thursday's meeting of Eastern's student council.

The first of these was Dr. Patterson's report on the status of some of the joint administration-student summer projects.

"The general opinion of both faculty and students upon the resumption of EWCE seems to be favorable. After a difficult year in planning academic and student functions, the university has been able to complete a number of projects. However, there are still some areas that need improvement, such as the administration of funds." said Dr. Patterson.

The next discussion was over the question of the long-term plans for the university. Dr. Patterson stated that the administration had been working on these plans for some time and that they were now ready to be presented to the student council.

The third issue discussed was the problem of damage and shoplifting at the EWCE bookstore. Dr. Patterson informed the council that the administration was considering a number of solutions to this problem, including the implementation of a new security system.

The fourth issue dealt with the problem of funding. Dr. Patterson stated that the administration was still working on obtaining the necessary funds for the university's expansion plans.

The final issue discussed was the question of the student union building. Dr. Patterson informed the council that the administration was planning to renovate the building and that the council would be involved in the decision-making process.

Dr. Patterson concluded by thanking the council for their participation and stated that he looked forward to working with them on these important issues.

Scarlet Arrow, Faculty Clash
In Annual Cage Contest

The student-run newspaper of Eastern Washington University, The Easterner, reports on the Scarlet Arrow, Faculty Clash basketball game. The Scarlet Arrow, Faculty Clash is an annual event involving students and faculty. The article mentions Jon McFarland, a two-year varsity letterman, who will anchor the squad. Other players mentioned include Don Duncan, Ozzie Rose, Hilty, Ed Fisher, John Spring, and Tom Ennis.

Swimming Team
Preps For Montana

Eastern Washington's Swimming team is preparing for a meet with Montana State University. The team is led by big John Woods, Eastern's import and tennis coach. Coach Dr. Richard Hagelin and tennis coach JeanClaude are also mentioned.

Cagers Lose Again;
String Now At Nine

The basketball team from Eastern Washington University faced off against Seattle Pacific University. The game was tied a total of 10 times, but Eastern couldn't manage to break the nine straight losses. Players such as Jim Castleberry lead the team with 22 points. Eastern's Savage, who was able to find many mistakes, led at intermission, 40-23. The Savages took it on the point with 10.

Waistline... New Uniforms Recently

The town's buzz over the newest, most lush sports car colors. The game was tied a total of 10 times, but Eastern couldn't manage to break the nine straight losses. Pirates Savages Ready For Weekend Series

Looking Up With Al Rudy

There's lots of woes in the fieldhouse this winter, more than has been there for several years, as the basketballers continue to lose. The losing string is now at nine with little hope of rest in the immediate future.

What has become of the squad that, after last season, was expected to be one of the top teams in the Evergreen conference? Eastern lost only one player via graduation, and then another when workouts began last fall.

Only Dick Koford and Gary Roberts turn in creditable performances. The rest, last year showing themselves to be the best defensive man in the league, seems to have lost some of the poise that he had developed by the close of last season.

Dave Cresswell, who gained considerable experience last season and was often a starter, seems to have lost some of the poise that he had developed by the close of last season and was often a starter, seems to have lost some of the poise that he had developed by the close of last season.

Doug Cresswell, last year showing himself to be the best defensive man in the league, seems to have lost some of the poise that he had developed by the close of last season.

So it goes all the way down the squad. Defense, which by season has been considered the best phase, certainly looks as though it had never been learned by some of the players.

As the season began, it was hardly conceivable that the team would not win for coach Joe Reese his 500th game, for which he needed only nine. Now he needs but four but the question will be answered negatively.

A bright note for the spring is track. Two weeks ago the Sports Writer and Broadcasters of the Inland Empire nominated two Eastern students as athletes of the year in two different track categories. Roland DeBoer took the nod for the top college cinderman in the Inland Empire. He grabbed a new record in the quarter last year at the Evergreen track meet at Whitworth college.

Rhodes, probably the most sought-after high school track star last season, entered Eastern this quarter.

He set records in both the high and low hurdles in last year's state high school meet. He ran the high hurdles in 14.4 seconds, bettering the old mark set in 1956 of 14.4.

He clipped five-tenths of a second off the old 180 low hurdles record in 19.5, set a year earlier by a former teammate, Sam Parker.

Football coach Ed Chissus calls to our attention the accomplishment of Dave Crowell, a starting tackle on his last season's honor role with 3.4. According to Chissus he could be receiving a large one, and if things continue as they have the question will not win for coach "Red" Reese his 500th game, for which he needed only nine. Now he needs but four but the question will be answered negatively.

The following night the teams switched opponents and both lost. Eastern bowed 63-80, and Whitworth lost 78-68.

Whitworth boasts one of the best scoring attacks in the conference this season, centering around last year's leader, Ray Washburn. Jay Jackson,东方 6-6 center, has added some additional offense and back board strength. While Bob Quill, a transfer from Seattle Pacific, gives the team some much needed speed.

The Bucs now have a 2-3 record in conference competition, losing to Western, Pacific Lodge, and Puget Sound, and winning over Seattle Pacific.

This is a very favorable comparison to Eastern's lowly 0-5 record. Besides losing to the three teams that have beaten the Pirates, they have lost twice to Leo Nicholson's Central Washington.

The Saturday night loss to Central marked the ninth straight loss for the Redmen, giving them a 3-12 record for their 17 season games.

Reese for coach "Bed" Reese will probably be undecided until late this week, with only two assignments basically unsolved, those of Chisholm and Gary Roberts.

Koford has been the Savages' leading scorer since the season with an average of 16. He also tops the rebounding statistics.

Buckets follows Koford in total scoring, and Saturday led the field of Redmen with an even 30.

Eastern lost only one starter via graduation, and then another when workouts began last fall. Now he needs but four but the question will be answered negatively.

A PTA scholarship is available for Soph.

A PTA scholarship is available for the first time this year. An endowed scholarship of $200 was organized by the PTA, and will be awarded to a student who is currently a sophomore, junior, or senior.

The following night the teams switched opponents and both lost. Eastern bowed 63-80, and Whitworth lost 78-68.

2 Publications Go On Sale

Currently advertised by posters announcing that one or two new Artpresses will be available January 19, when current issues of the Literary Artpress and the Graphic Artpress go on sale simultaneously on the second floor of Showalter.

The two are now completely independent publications sponsored respectively by the art department and the English department but will continue to cooperate closely according to the faculty editors, Robert Hanbany and Vaughn Albertson.

Both magazines will be conspicuously displayed all day at the campus bookstore at the same prices. Proceeds will go to defray essential costs of distribution and promotion.

The Graphic Artpress promises an interesting raw format and reproductions of outstanding student work produced in the art department during the six months that have elapsed since the last issue of the old combined Artpress last spring. The Literary Artpress, continuing a policy inaugurated this fall, will contain contributions by several off-campus poets as well as both verse and prose fiction by EWC students.

RED CROSS REP DUE

J. S. Clappson, representative from the American Red Cross, will be on campus February 5, to interview candidates interested in working with the Red Cross, Richard M. Gils, director of placement, said.

Principal proceeds from the sale of the Literary Artpress will be used to defray promotional costs and those from the Graphic Artpress will be used to defray printing costs. Both magazines will be on sale simultaneously on the second floor of Showalter, 9 a.m. to 12:30 p.m.

The post effort on the part of the two groups is to promote spirit, cooperation and a better understanding between the two schools, according to Ray Raschko, president.

The annual March of Dimes tape will be passed at the game.

Faculty Pics Set

For Kinnicknick

Eastern faculty members will have their pictures taken for the Kinnicknick beginning tonight at 7 p.m. The Eastern office in the student union building, Ron Wolfe, editor, says.

There will be an hour between pictures for each of the five division departments that have pictures taken on January 25 at 7 p.m. The Division of music will follow immediately.

Those in the division of languages and literature will have their pictures taken February 7 at 7 p.m., and following will be the military science and tactics division.

Members of the science division will have their pictures taken February 2 at 7 p.m. The entire school division will follow at 8 p.m.

Finally, on February 3 at 7 p.m., the picture taking of the division of health, physics, education and recreation will complete the faculty pictures.

HANRAHAN EXHIBITS

The paintings of Robert Hanrahan, EWCS assistant professor of art, are currently on exhibit at Holy Names College, Spokane.

Big Carnival

To Highlight Dad's Day

Eastern's annual (March) day of fun and games will be held Saturday, February 6.

straight in; the winter quarter for the first time this year, the occasion honoring Dad's Day will be held in conjunction with the annual AMS-AWS-sponsored carnival, Roy Clayton, Ben Glassley and Patty Lane, chairman for publicity, announced.

This is expected to be the biggest celebration yet, the publicity chairman said, with the daylong Dad's day being climax by the carnival which will follow the Eastern-Pacific Lutheran university basketball game that night.

Spurs will register Dad's as they come on to the campus. There will be prices for the Dad who travels furthest, for the diest and youngest Dad.

A special noon banquet in the student union is also planned.

There will be stalls of all living halls and of the campus during the afternoon.

Theme of this year's carnival is "Ponderousland," Clayton, Glassley and Miss Lane said.

The space-age inspired booths sponsored by almost all campus organizations, including dorms, will compete for the prize award based on the best interpretation of the theme.

There will be everything from cakewalks to kissing booths and jail, baseball throw, and lots of food. Three rent prices will be awarded.

Background music and announcement will be furnished by Clinton Mayberry.

IK Book Exchange

Called 'Largest Ever'

The largest book exchange ever held by the IK's was completed recently with a total of 450 books handled and with more than $4400 passing through the club hands.

The project was headed by Jerry Littlemore and Bill Dooz, another book sale application by the IK's will be held at the beginning of next quarter. This activity enables students to get a higher price for used books, Littlemore said.

DUAL FILTER

DOES IT!

It filters as no single filter can.

for mild, full flavor!

NEW DUAL FILTER

Tareyton

Here's how the dual filter does it:

1. It combines a unique inner filter of ACTIVATED CHARCOAL . . . .

2. with an efficient pure white outer filter. Together they bring you the

real thing in mildness and fine tobacco taste!
