Current Civil Defense Plan Raped

Solving. No, Mac, not cocaine but the current state of our nation's Civil Defense preparedness. With Russian ICBMs nosing their way down the target area, and less than 10 minutes from the Sun City evacuation of the populace is still the mainstay of CD thinking. Large sums of the taxpayers' tithe go to buy drinking fountains, bicycles, biking the first one out of the target area. This situation would make Mac's doping daze seem like a dull schoolpage in Grandma Moses out for a Sunday drive in her electric runabout.

If you have access to a helicopter, bulldozer, or Sherman tank, you may someday be a Northern problem if it isn't solved sooner.

Support of this desirable movement is especially valuable when it comes from the future leaders of the nation's civil defense preparedness. Mrs. Himes enjoys work Housmother six years

There are three women for every man living on campus at Eastern.

And what’s more, it has been that way for the past six years, according to Mrs. Ruth Himes, campus housekeeper.

Mrs. Himes has charge of all maintenance for student and faculty housing and has her office and residence in Garry hall.

When Mrs. Himes started here in 1964 she had only 419 students living on campus. Now she has more than 800, and the girl-boy ratio has remained at three to one in favor of the girls.

Mrs. Himes noted that there has been a great change in the quality and attitudes of the students and their responsibilities away from home.

She is the mother of one boy, who is an army engineer. She has always been interested in young people and regards them as part of her own family. She has had a close relationship with a lot of students, seeing them come in as freshmen and watching them leave as mature men and women.

To most students, Mrs. Himes has been a mother away from home, someone to share their joys and laughter, tears and sorrows, and has given the students good counsel when they needed it most.

“These are the things that make my life and my job worthwhile and complete. This is the great satisfaction of seeing young people getting started in the right manner and living a clean and wholesome life,” Mrs. Himes said.

Spring's the time of year when the ingenuity of man seems to manifest itself in individuality-seeking to be different. After being suppressed to conformity by the confinement of winter, the spirit of man rebels in the spring, and his activities are directed towards breaking the bonds of conformity by bringing out the most ridiculous, unacceptable things, not caring if they are unacceptable, the only criterion being "it's different."

Students at Eastern have been initiated to the coming season by the appearance of a weird, unconvincing vehicle, (maybe the Russians placed it here to confuse us), it is an obvious throwback to the modern long, low look, as the owner and those of similar interest,do not care. For those who haven't guessed the subject of these ramblings, it is that automotive masterpiece by Henry Ford, which would be referred to by girls and those of similar tastes as "that funny old back truck." But to the owner and those with a fine taste for antique autos, it represents the attainment of life's most cherished goal, threatened in popularity by the appearance of a foreign looking vehicle, maybe the Russians placed it there to confuse us. It is nearly as tall as it is long.

Heckroth Appointed Homecoming Head

Dick Heckroth, a Spokanes junior from Monroe hall, has been appointed Homecoming chairman for 1960, Paul Hooper, ASB president-elect, said. Heckroth has been active in Homecoming for two years; last year as general dance chairman, and is extremely well acquainted with the event. This is the first time this position has been appointed instead of being elected, and is also the first time only one person has held the position. It is felt a better directed program will result if there are fewer conflicts, Hooper said.
