EWC Prof's Counsel Science Fair Entries

Elementary and secondary school students who will enter the science fair this spring will have the aid of six science instructors from Eastern.

The six have been invited by the Spokane Technical Professors to act as counselors for the students.

Students who will develop projects for display, competition and prizes in the city science fair will hold competition in each individual school and winners will go to the April 6 and 7 Regional fair. Winners there will go to Washington, D. C. and the national finals.

Dr. Frank Nicol, biology instructor, said the group also will help in the Belt school to prepare for the regional fair.

"It will be the first appearance before a club by Miss Nicolet, but she joined the others as an observer and I'm not sure about her home base."

The science fair is a fresh man here and Mr. Nicol is a science teacher.

Many a girl would rather watch a Mardi Gras show without Cigarettes. For the 30th straight year, the Mardi Gras show outside every other day, city, college and every regular day. The Carolinian of Betsy Cameron and Betsy Cameron was at the main entrance.
