Resolution Brightens EWC

For Eastern a New Year's resolution has been made and car-

ried out. That is the resolution to improve the appearance of and

accessibility to certain campus buildings by the installation of

new, bright, colorful signs along walks.

Those signs also help to open the minds of the students to the

fact that the same things that are taking place on the campus

are taking place in their lives. New signposts are being put up to

make it much more pleasant and inviting to those coming to the
campus.

The improvement made by the installation of these signs also

should be a great help to those students who are suffering from

shyness or anxiety and have been prevented from participating in

activities on the campus. Because of their very nature, these

signs should be a great help to those students who have been

suffering from these problems.

Man, Whither Goest Thou?

We shall undoubtedly never know how much of the nature-

of the art, the literature, the adult religions, etc. of civilizations

to come is contained in the works of the mind of the individual or

the population of the world. This is a question which is being

considered by many of the best minds in the world today.

Many, however, believe that the works of the mind are

produced by the mind and are an expression of the individual's

thoughts and feelings. Others believe that the works of the mind

are produced by the mind of a group of individuals and are an

expression of the collective mind.

The latter belief is held by many of the best minds in the
