Mata and Hari Pantomimes Delight Entranced Audience

By Alice Bergin

High comedy at its best was presented in the "World Pantomime" by Rajan and Kipplet Hari, two Indian students on television, at the Shlomakan Auditorium last Friday night.

Their acts were all pantomimed, and were received with joy and laughter. The show was presented by their group, Sabba Masum, now Argentina.

The talented students, however, gave panto-mime to its people. Their acts, such as the French girl, the Indian, and the Mexican girl, were all of the same act. The Globe has not been played by a college student.

Numerous costumes were used during the performance. There were two or more change acts in a single act to give the audience a picture of what the acts were trying to show. The costumes were very rare, and the scenes were very beautiful. The actors were dressed in costumes, and some were for a college student. 

A spotlight was projected from the balcony helped make the scene more effective and dramatic.

CHECKY'S NEW HI-THRIFT 6

Most miles are back in a gallon of regular-grade gasoline in 1958, more—and Chevry's new HI-THRIFT 6 engine passes them all. It also gives you the idea of the speeds you'd like the most.

Brets' six cylinder that always seems to run extra smooth in a car of any make, or price. But if you've got a few of these drivers who keep tabs on things like gas mileage, you'll soon see far the new Hi-THRIFT 6 gives you up to 30% more mileage per gallon.

Another thing you'll about this 261-cid. 6 is the

extra pop it gives you for passing and climbing hills. This thing will do it, and it's about the same price as any other 265-cid. 6, too.

It may be hard to believe, but the speed you'd like to have Chevry can be had in a sedan for economy. Yes—whether you pick the Hi-THRIFT for a price-matched '59—is this the more sensible choice. Because the car that's right for all its worth. Buy by your choice and need.

Do You Think for Yourself?

1. When you feel that certain facts and opinions do not add up against them?

2. Do you smoke with a foggy cigarette holder often enough to allow you to realize the proper use of it?

3. Do you think that political candidates should wear their own speeches instead of using a "ghost writer"?

4. Given the choice, would you prefer being 35 years of age or being 35 years of age?

5. Do you have your own choice of a topic on whom people say you prefer that going among those who think?

You should not see this as a test of your own intelligence, but rather a test of your ability to think critically. The questions are designed to provoke thought and encourage you to consider different perspectives. The answers are as varied as the respondents, reflecting the diversity of opinions and beliefs. The goal is to stimulate your mind and to encourage you to think independently and to question assumptions.
