Ten Years From Now

By Chuck Gatrell

Ten years from now, Eastern alumni will find drastic changes on the campus of their alma mater. The following are just a few of these changes.

Letters to the Editor

Open Letter To Whom Ever

I am writing in an effort to call attention to the fact that registration cards held in a book binder at the beginning of each quarter are to be returned to the registrar's office at the beginning of each quarter. Failure to do so may result in the loss of course credits.

I would like to see the use of letter cards continue in the future.

Just Around The Corner

By Tom Hogan

There is a story going around that all the dormitory rooms are going to be destroyed. This is not true. The administration has been informed of the damage that occurred last year and is taking steps to prevent a similar situation from occurring again.

I would like to see the use of letter cards continue in the future.

Kec Wacland Jobs In Radio

By Gay R. Herman

As the new year approaches, many students are considering future opportunities. One option that may be appealing is working in radio.

Students in radio at Eastern can earn a great deal of money while gaining valuable experience. Many students who graduate from Eastern go on to successful careers in the music industry, or pursue law or journalism.

This quarter the station is broadcasting from 5-5:30 p.m., and 10-11 p.m., Monday through Friday. When KECW first went on the air in December, the station was on the air from 5-5:30 p.m. and 10-11 p.m. seven days a week. As the popularity of the station grew, additional hours of programming were added. The station now broadcasts from 5-5:30 p.m., and 10-11 p.m., Monday through Friday. Chinese Recognition

O. N. Problem

The recognition of the Chinese Language is still one of the greatest problems facing the nation. As a result, the Chinese Language is being taught in many schools across the country. More students are choosing to study Chinese as a foreign language.

This is a historical trend that has implications for understanding the current state of the China.

Our attitude is not very wide, and the Chinese have just as much right to within the 10,000 years, in which they have enough room, to be Chinese in China as we have to be American in the United States.

There is a national movement to improve the status of the Chinese in the United States. It is my belief that this movement will continue to gain momentum in the years to come.

Want to Concentrate Hard?

Need to think hard? Try talking to yourself.

Studies probing the role of the human brain at various levels have shown that our thinking processes are influenced by the sounds we make. By repeating words or phrases in our mind, we can improve our ability to concentrate.
