MUN to Hear Iran Talk Thursday

Iran, the country to be represented by Eastern's Model United Nations group at the MUN conference at San Jose college this year, will be the subject of a talk by Mr. Clifford Rajala of Eastern's geography department Thursday at Hargreaves library. The talk, to be illustrated with slides, is scheduled for 2:30 p.m.

The Model United Nations group is still forming, and one credit offered to students interested in learning about the group's activities will vary from pro-west to pro-Dov. The group will study Iranian culture, history, present foreign and domestic policies, a survey of the UN in the world today and the scope of the Model United Nations.

Participants gain experience in public speaking and parliamentary procedure. Anyone interested should try to attend this meeting or join the group this week.

Perrin Smith, New Eastern Registrar

Perrin C. Smith is the new registrar at Eastern Washington State college.

He succeeds C. W. Quinley Jr., who resigned August 3 to accept a position at Stanisonian State college, Turlock, Calif.

Smith is a native of Texas where he was assistant registrar at the University of Texas, Austin, before coming to EWSC.

He was raised in Sherman, Tex., and attended high school in Houston.

He first saw the Pacific Northwest during WW II while traveling by troop train to Ft. Lewis.

At the end of the war he returned to Austin college, Sherman, where he obtained his degree. He was registrar and director of admissions there from 1947 to 1958.

Mr. Smith is married and has five children, the youngest 11 months old. His wife, Charline, and children will join him soon on the Eastern campus.

He supervised the IBM machinery at Texas which is similar to the new system at Eastern. He believes that the capabilities possible by utilizing IBM are tremendous.

New Science Building Dedication October 26

Dr. John Herbert Hollomon, assistant secretary of commerce for science and technology, will be the featured speaker at the dedication of Eastern Washington State College's new science building.

A two-day symposium on current scientific developments to be held October 26-27 will be a feature of the dedication. Dr. John Douglas, EWSC assistant professor of chemistry and chairman of the dedication committee, said:

The $2,322,115 EWSC science building was completed this summer and part of the building was in use during the college summer quarter. The building, with more than 100,000 square feet, contains 21 instructional laboratories, 18 research laboratories, 18 classrooms, an auditorium, planetarium, greenhouse, library, shop, offices and conference rooms.

Six outstanding authorities in different scientific fields will participate in the symposium, Dr. Douglas said.

Graduate of MIT Dr. Hollomon, a native of Norfork, Va., received his bachelor of science and doctor of science degrees from the Massachusetts Institute of Technology.

He served as a metallurgical engineer with the Revere Copper and Brass Co. in 1940; as a research associate at the Massachusetts Institute of Technology in 1940-41; and as an instructor in the Graduate School of Engineering of Harvard university in 1941-42.

A native of Sherman, Tex., Dr. Hollomon entered U.S. Army from which he was mustered out as a major in 1946. During his years in the army he was Chief of Physical Metallurgical Research, Watertown Arsenal, Watertown, N.Y. For his services in this position he was awarded the Legion of Merit in 1942.

John G. E. Staff

Dr. Hollomon has been associated with the General Electric Company since 1946. Named manager of the metallurgy and ceramics laboratory in 1952, since 1960 he has been general manager of the general engineering laboratory at GE.

Mr. Staff is a member of the law department assistance panel and the science and technology panel of the President's Committee.

New Food Center in Use By Winter Quarter

The new Food Center, which is going up behind Showalter hall, is expected to be completed and ready for occupancy in winter quarter next year.

F. F. Johns, comptroller, the center is being completed for use of the present senior students and will be to be added in 1966-67. It is expected to handle the food for the campus students for the next 15 years.

The dining room, in use this year, will seat 600 people and feed about 1300 calories of food per person in the center.

The first floor of the center will be devoted to supplies for future banquet rooms. The second floor will be the dining rooms and kitchen and the third floor "penthouse" will house the dishwashing facilities.

An innovation will be the conveyor belt which will carry the dirty dishes from the dining room to the dishwashers. There will be also an intercom system between the kitchen and the dining room so that the kitchen staff will not be to deliver food.

The center was started May 17 with a building fund of $3,110,000 and a total project cost of $1,282,000. The cost of the modern structures will be approximately $100 a quarter, which is lower than any of the colleges or universities in Washington, Oregon or Maine at the present time.

Robert C. Coleson, instructor in music; Edward Navone, instructor in art; Doryan Breitenfeldt, instructor in philosophy; and Howard Hopf, director of radio-television classes.

In the division of education, new faculty members are Marian Cuba, director of the EWSC campus elementary school, and Mrs. Nellie Spadafor instructor in that school.

Three new faculty members are in the division of health physical education, recreation and athletics. They are Mrs. Catherine Houst, who is chairman of the newly formed department of women's physical education; Virgil A. Allen, instructor in physical education, and Karl K. Klein, a visiting associate professor and trainer from the University of Texas.

Extenson Course Program Grows

Extension course programs offered by Eastern Washington college have grown in number and variety, and the number of students registered has also increased, according to the college's assistant director of extension, Dr. Don S. Patterson. The college has added programs in criminal law, economics, government, and a number of other fields.

The college offers a wide range of courses, from introductory levels to advanced courses, and the faculty is dedicated to providing quality education. The college is committed to providing accessible and affordable education to all students, regardless of their background or location.

Concern For Scholarship Subject Of Faculty Meeting

There is a greater concern throughout the campus for scholarship than ever before, Dr. Don S. Patterson, president of Eastern Washington college, told a group of faculty members at a meeting on Wednesday. The meeting was held to discuss the college's new scholarship program and the efforts being made to increase scholarship opportunities.

Dr. Patterson said that the college is committed to providing financial assistance to students in need. The college has increased its scholarship endowments and is exploring new ways to raise funds for scholarships. The college is also working to increase the number of merit-based scholarships available to students.

Summer Review

No, Eastern doesn't close up shop for the summer just because the students have. The college has a number of programs and activities during the summer months for students.

The college offers a variety of summer courses, from credit courses to non-credit courses, to help students stay on track for graduation. The college also offers summer camps and workshops for students interested in specific fields.

A new feature of the college's summer program this year is the Summer Review, which is a series of articles and stories about the college's summer activities. The Summer Review is available online and in the college's student newspaper, The Easterner.

Doctor Kabat Emphasizes Important Freshman Year

Acquiring a college education is a full-time job, Dr. George Kabat told incoming freshmen at a reception in the college's Student Union on Monday. The college has added programs in criminal law, economics, government, and a number of other fields.

Dr. Kabat said that the college is committed to providing quality education to all students, regardless of their background or location. The college offers a wide range of courses, from introductory levels to advanced courses, and the faculty is dedicated to providing quality education. The college is committed to providing accessible and affordable education to all students, regardless of their background or location.
The Easterner looks different these days. The reason is two-fold: a new printer and a new process. The Davenport Times was successful bidder for the Easterner’s five-issue summer contract, and part of the reason for the low bid was The Times’ pioneering plan to experiment with offset printing.

Based on the theory that oil and water do not mix, offset printing is not a new process, but most plants which use it do so on a small scale. Mr. Walt Wilbur, publisher of the Davenport Times, decided to go offset full scale and use the new press with the paste make-up method. He bought a four-unit Fairchild offset press capable of printing 18,000 papers an hour.

In offset printing an etched aluminum plate takes the place of printing from type. To produce The Easterner each week, the stories are first set in type on line casting machines and reproduction proofs are “pasted” to fit the columns.

The next step is to take a picture of the finished page. The result is a negative, used to etch the aluminum plate. The aluminum plate is then fastened to the plate burner. The negative for four pages is shown here, ready to be used to etch the aluminum plate.

The finished page paste ups are photographed by the fixed-focus camera, resulting in an 18x22 inch negative.

An etched plate is shown being removed from the plate burner. The negative is placed on a prefreated aluminum plate which is etched by arc light.

The plate is in place on the press, and The Easterner is ready to run. The aluminum plate will offset ink onto a cylinder covered with a rubber blanket, then onto paper, and another Easterner is printed.

Dr. Louis V. Grafton to Teach

English In Nigerian College

An Eastern Washington State College professor will begin teaching November 1 in a new college, the Superior Normal School, in Lagos, Nigeria.

Dr. Louis V. Grafton, EWSC, professor of English and chair man of the department of composition, has been granted a leave of absence from his college Board of Trustees to accept the appointment.

Dr. Grafton, who has been at EWSC since 1948, will take part in the United States government Agency for International Development program through the University of California at Los Angeles Project to Nigeria. He reported to UCLA September 1 for a six-weeks' working period.

The Superior Normal School, Dr. Grafton said, will have 450 students when it opens. It will train English teachers for secondary schools in Nigeria.

In addition to his academic duties, Dr. Grafton has been director of the college honors program, the advanced placement program and the faculty-in-service committee and director of the summer quarter entering-freshmen program.

He will be accompanied to Nigeria by his wife and will leave by plane in mid-October.

Don't Get Stuck; Get Your Parking Stickers

In order to find suitable parking for EWSC students and faculty, parking sticker fees were approved earlier this year.

No longer appropriate funds for parking facilities so other campus building projects won't be delayed. In fact, the State Legislature will no longer appropriate funds for parking facilities on our campus, the board of trustees was forced to admit this increase.

Any student attending EWSC and faculty members must now purchase a sticker from the Cashiers Office if they did not do so during registration. The sticker is printed on special paper that becomes adhesive when moistened and should be applied to the lower left corner of the windshield.

Any car driver without a sticker will be given a ticket for $2 and forced to purchase a sticker. This will be strictly enforced.

Student parking lots are located adjacent to Showalter Hall between the third driveway and the industrial arts building, behind出境, and the music building. Monto Hall, the maintenance shop across from the SUB and to the side of the SUB.

Waste will be collected there behind Showalter Hall from the first driveway across from Sutton Hall.

Streets through and around the campus under the jurisdiction of the Police and city ordinance. The city regulations pertaining to traffic are available in the Office of the President.

ASC Announces '62 Committee Appointments

The Associated Students committee appointees for the 1962-63 year have been named.

The appointments for the faculty-student committees include: Tom Paddock, library; Reece Kelly, academic appeals board; Roger Kromer and Peggy Lerb, athletic council; Dave Adams and Bruce Schreiber, curriculum committee; Les Raschke, safety committee; Sharon Perkins, Sue Heimio, Mary Maron, Leonard Davis and Morris Kirbag, special programs; Al Eliot, Betty Helbig, James McCullum, Fred Erickson and Don Egger, Student Union board.

Student committees are as follows:

Lynn Wilcox, Mary Morach, Roger Prior and Vern Aasen for the Finance committee, which approves all budgets submitted for student activities.

Nancy Luther, Sharon Eaton, Bonnie Vishniac, Carol Link, Kathleen Graves and Sharon Moses for elections committee, which checks the eligibility of candidates, supervises nominations, campaigning, and election procedures and publishes election results.

Francis Lynn Paulson, Bruce Jameson, Nadine Gaye, Dacie Carter and Charles Orwig for the NAA committee, which is a liaison between the Associated Students and student newspapers.

Art Blum, Chuck Plumb, Bob Stevens, Gynome Williams, Miles Brennan and Dennis Braddock for the Communications committee.

Jean Frick, Dance Rosenburger, Steve Melote, Sue Spear, Bob Brusa, Mike Dunlap and Carol Schmid for activities promotions.

Bruce Leichtreich and Terence T deltaY for the SGA affairs; Joyce Haney for tri-school relations, and Marie Houston for the rally committee.

New Faculty Science

(Continued from page 1)

The division of history and social studies will have four new faculty members. Robert J. Con dine is instructor in business education; Glen Walker, assistant professor of business education; Francisco Kask, assistant professor of political science, and Mrs. Concepcion Prequejas, teaching assistant in business education.

Five new faculty members have joined the division of languages and literature. R. L. Nelson is assistant professor of English; Elsbetha Haeminger, instructor in German; James A. Kahn, Robert H. Bently and Kathleen Swen son, all instructors in English.

Dr. Kenneth Swenberg will be added to the division of science as assistant professor of biology, and Mrs. Verly Nottage will be the new director of Senior hall, a women's residence.

Two new officers and two underclassmen have been assigned to the college's ROTC detachment. They are Capt. Robert M. Pug mire, infantry; Capt. Maynard L. Nelson, armor; SFC. Robert G. McCall and Sgt. Albert W. Schomone.

Other new teachers have begun fall quarter subject to formal appointment by the board of trustees.

A collection of 150 reproductions of the drawings of Leonardo da Vinci has been approved by UNESCO to celebrate the 500th anniversary of his birth, is on display in the EWSC Student Union building, continuing through October.

The American Federation of the arts, at the request of the United States Information Commission for UNESCO, is circulating the exhibition.

Chosen from an original selection made by Aldo Venuto for the publication on Leonardo prepared by the Commissions Vin ci, more than two-thirds of the present exhibition is based on the collection of drawings in the Royal Library at Windsor castle.

This group, originally left to Leonardo's favorite pupil, Francischi Melzi, was sent in 1788 to England through the great collector Thomas Howard, Earl of Arundel, and by the end of the seventeenth century it was in the English Royal collection.

The album forms the greatest single collection of drawings by Leon­ardo as the artist, as opposed to the technician.

Dr. Stewart Member

Of Planning Group

Dr. Edgar L. Stewart of Eastern is a member of an organizing committee for a conference October 11-13 in Denver, on the history of Western America. Dr. Stewart said the conference hopes to attract West ern America. Dr. Stewart said the conference hopes to attract Western America. Dr. Stewart said the conference hopes to attract Western America. Dr. Stewart said the conference hopes to attract Western America. Dr. Stewart said the conference hopes to attract Western America.

Berl Lang, David M. Gage, Val Johnson, Warren Reeder, and Norma Axelson, all instructors of English; and Mr. Norman Thompson, business education.

Mrs. Fleckstein will move during winter quarter for a re­search project on the philosophy of arts and crafts of Mexico.

Miss Barton will devote winter quarter to writing children's ma­terial for supplemental reading or elementary school text books.

Mr. Harrington's leave for fall and winter quarters will enable him to prepare a slide series on artists of the Northwest, with workshop demonstrations and manual.

Dr. Robertson will do research in conjunction with the papers and let­ters of Henry Dumas, Indian of the Northwest, for a first recipient of the Nobel award.

Mr. Thompson plans research on the development of instruments for understanding of high school students, for a staff position in business during fall quarter.

Maxson Featured

At Bond Clinic

Mr. William L. Maxson, EWSC professor of music and band director, was featured speaker at the bond and clinic sponsored by the Western High School Band Directors association during August.

Maxson is clinical director of elementary school band programs, rehearsal techniques and band administration at the clinic held at Moses Lake High School.

Dr. Ralph Connor Writes Chapter On Alcoholism

By Marjorie Carmack

Alcoholism researchers are no longer either alcoholics or prohibitionists—they are neither.

Dr. Ralph G. Connor, assistant professor of sociology at Eastern, has made a two and one-half year study of 372 alcoholics in the Pullman area. A question frequently asked of him is: "Are you an alcoholic yourself?" It is in no way true.

The study indicated that 47 percent of all alcoholics are from the lower-class row—where the rest are hidden alcoholic research.

ANOTHER YEAR, ANOTHER DOLLAR

With today's entry I begin my ninth year of writing columns in your school newspaper for the makers of Marlboro Cigarettes.

Nine years, I believe you will agree, is a long time. In fact, it took only a little longer than that time for me to think of Canil, and you know what a gigante undertaking that was. To be sure, the work would have gone more rapidly had the shovel been invented. But time was needed. That digging was not invited until 1946 by Walter E. Shovel of Cleveland, Ohio. Before Mr. Shovel's discovery in 1941, all digging was done with sable bungee—a method unquestionably slower but hardly what one could call rigid. There were, naturally, many efforts made to improve the digging below Mr. Shovel's breakthrough—notably an attempt in 1912 by the immortal Thomas Alva Edison to dig with the phonograph, but the only thing that happened was that he got his horn full of sand. This de-planted Mr. Edison, but the following fall he got a job of somebody from which he did not emerge until two years later when his friend William Wardsworth, the eminent nature poet, elected him up by imitating a duck for a full hour.

But I digress. For nine years, I say, I have been writing this column for the makers of Marlboro Cigarettes, and for nine years they have been paying me money. You are shocked. You think that anyone who has tied Marlboro's complicated flavor, who has enjoyed Marlboro's filter, who has revealed Marlboro's fiery red and white package or box should be more than willing to write about Marlboro without any compensation. You are wrong.

Compensation is the very foundation stone of the American Way of Life. Whether you love your work or hate it, our system absolutely requires that you be paid for it. For example, I have a friend named Ilex God, a veterinarian by profession, who simply admires to worms. I mean you can call him up and say, "Hey, Ilex, let's go fowling a few lines," or "Hey, Ilex, let's go flattening some pennies on the railroad tracks," and he will certainly agree. "No, fowling a few lines...it's the same game. But there's just one thing, I can't get you doggin' a dog."

I remember once on the part in the whole world you can name that Rex likes better than running a dog. But even so, Rex already has me fowling a dog because in his wisdom he knows that to do otherwise would be to read, possibly irrevocably, the fabric of democracy.

From the index, I have not one thing in mind in the world why I can name that Rex likes better than running a dog. But even so, Rex already has me fowling a dog because in his wisdom he knows that to do otherwise would be to read, possibly irrevocably, the fabric of democracy.

Let's get back to work.

On Campus

(Author of "I Was a Teenage Drafted!" "The Many Lives of Nude Bulls," etc.)

I'll bet you'd like to know some strange.

\[ \text{It's the same with me and Marlboro Cigarettes. I think Marlboro's flavor represents the pinnacle of the packmaker's art. I think Marlboro's filter represents the pinnacle of the filtermaker's art. I think Marlboro's pack and box represent the pinnacle of the packmaker's art. I think Marlboro's cigarette represents the pinnacle of the packmaker's art. I think Marlboro's pack and box represent the pinnacle of the packmaker's art.} \]

\[ \text{The makers of Marlboro understand this full well. They don't like it, but they understand it.} \]

\[ \text{In the columns which follow, I will turn the hot white light of truth on the packed revelation, the campus life—the many and varied dilemmas which beset the undergraduate—burning questions like "Should Chauvin authority exceed and be converted to parking garages?" and "Should pretzels be given a soft kiss?" and "Should foreign exchange students be held for ransom?\} \]

\[ \text{And in these columns, when grappling with the issues that vex campus America, I will make occasional brief mention of Marlboro Cigarettes. If I do not, the makers will not give me any money.} \]

\[ \text{The makers of Marlboro will bring you this uncensored, free-style column 26 times throughout the school period. During this period it is not unlikely that Old Max will step on some toes—principally ours—but we think it's all in fun and we hope you will too.} \]

Eastern Washington State Col-
lege trustees Friday night exam-
ined a 1962-63 general fund bud-
get request 47.3 per cent above the college's 1961-62 appropriation.

Dr. Don S. Patterson, EWSC
president, said the figures were
prepared in accordance with in-
structions given by Gov. Albert
Rosellini. He read a letter from the
governor in which the state's chief
executive emphasized the need for the closest possible scrutiny
on every request you make. 

Governor Rosellini concluded that it was the responsibility of those finding increased financial needs to indicate "where they stu-
dents to obtain additional revenue."

Dr. Patterson was asked how he thought college presidents
would react to such a request. He said he thought the presi-
dents would probably "We are not hired to indicate taxes" and
would, therefore, be hesitant to make such suggestions.

Dr. Patterson and his staff fore-
sees $6,948,245 in general fund needs for the two-year period.
The 1961-62 appropriation was
$4,725,537.

Of the $2,223,508 increase,$780,009 would be for "improve-
ment in quality of service." It was
expected that this is largely for additional faculty members.

"We're operating for seven
years below what the national
accrediting association recom-
mands," Dr. Patterson said.

Figures were presented show-
ing that last year the college had
19.5 (and this year, 19.1) students
per faculty member. The recom-
manded ratio is 17 to 1.

Other increases were: $696,590 for adjustment of workload in
creases caused by gains in stu-
dent population; $401,638 for sal-
ary increases; $15,655 for new
services and $2,472 for non-
recurring costs.

Lohspeich Alumni Secretary,
Hall Receives Kellogg Grant

A Kellogg foundation grant for study of the administration of
higher education has been awarded to Wayne Hall, Eastern's Alumni
Association executive secretary.

The grant, for $5,000, will enable Hall to study next year at
Teachers College, Columbia University, New York City. A
1952 graduate of Eastern, Hall received his master of educa-
tion degree in 1956. He has taught in Kennoway and Walla Walls,
and became alumni secretary in 1959.

Hall's job will be handled by John Lohspeich, a 48 Eastern grad
who received his master's degree from EWSC in 1952. Lohspeich
formerly was principal of Moses Lake high school. He spent the past
year at the University of California working on his doctorate, and has
also received a Kellogg grant.

Eastern Prof

Philip D. Grub, Eastern Wash-
ington State College instructor in economics and business, has
been awarded a two-year Ameri-
can Security and Trust $4,000 fel-
lowsip at the George Washing-
ton University, Washington, D.C.
Grub will study international
and foreign trade in the School of Government, Busi-
ness and International Affairs.

He is working toward a doctorate in business administration.

Grub was graduated with high-
est honors from EWSC in 1953 with degrees in economics and
business. He has a master of
business administration degree from George Washington Uni-
versity.

Young Men May
Register On Campus

College men may register for Selective Service with Mr. Al
Ogden, Assistant to Student Per-
sonnel, Student Personnel Office
when they reach 18. This will save
students a trip home to their local draft boards.

Paul K. Smith, EWSC
Student Personnel Office

The Crescent at Northtown is a colorful, exciting store
big enough to carry satisfying large assort-
ments of everything you'll need for yourself and family, from home furnishings to hats. It's beauti-
ful . . . you'll thrill to the modern decor, it's casual . . . the kind of store you feel at home at any time of the day. So stop in and see for yourself, all that Northtown has to offer including the same friendly, courteous service you were accustomed to at the Crescent downtown store.
Western Washington ground fourth quarter to defeat Eastern conference football game Saturday night.

The Vikings' first scoring drive started late in the third quarter and carried over into the final period. A 21-yard dash by Doug Ringenbach was the big gainer. Dick Nicholl and Ron Roe ran for most of the yardage in the 80-yard drive. Quarterback Terry Parker capped it with a three-yard sneak. Roe's conversion tied the score.

The Vikings moved to the winning touchdown the next time they got the ball. Nicholl, leaving tacklers sprawled in his wake, made important yardage in the drive. Larry Knoff scored from the four-yard line with less than five minutes remaining.

Eastern scored in the first quarter, after Emile LeFevre recovered a Western fumble. Lee Grichuhin passed 16 yards to Mike Macauley for the touchdown. Macauley kicked the extra point.

Eastern scored in the first quarter, after Emile LeFevre recovered a Western fumble. Lee Grichuhin passed 16 yards to Mike Macauley for the touchdown. Macauley kicked the extra point.

Easter scored in the first quarter, after Emile LeFevre recovered a Western fumble. Lee Grichuhin passed 16 yards to Mike Macauley for the touchdown. Macauley kicked the extra point.

Eastern scored in the first quarter, after Emile LeFevre recovered a Western fumble. Lee Grichuhin passed 16 yards to Mike Macauley for the touchdown. Macauley kicked the extra point.

The Savages had only eight completions in 23 tries including one pass’ march, that one being halted on the Eastern six. However, the offense was not consistent. Only in the fourth quarter were the Savages able to sustain a drive with any balance between passing and running. Eastern held the Wildcats on the 63-yard line. Grichuhin passed to Maccauley for 45 yards, to Ted Paterson for 14, and then ran the ball well at times. They struck for long gains which led to one touchdown.

With three and a half minutes remaining in the game, Eastern threatened with a 63-yard drive which ended when Maccauley coughed up the ball on a short gain at the Eastern 14. Five more Eastern yards were required for a first down, but Eastern was stopped on the 14 by Dave Davis, fullback.

Eastern threatened with a 63-yard drive in the fourth quarter. Lee Grichuhin's 25-yard pass to Maccauley gave Eastern a 6-0 halftime lead. The Savages attack against the Wildcats was led off by three first downs rushing, two of them in the 63-yard fourth-quarter drive.

Linfield Wins By Slim Margin

Three more plays saw the Wildcats go behind junior college linemen. Mike Maccauley, Don Bade, and Dan Brown. The center position is manned by veteran Jerry Schelling and transfer John Axtell. The halfback position is manned by freshman Willie Jackson and Ken Ward, along with Junior college transfer Rich Robertson. Mike Paterson, the starting quarterback, who was a defensive starter but injured a knee in preseason practice. Paterson is a Starting quarterback and his backup is Steve Smith. Mike Maccauley, Don Bade, and Dan Brown. The center position is manned by veteran Jerry Schelling and transfer John Axtell. Storm Looms Over Harbor Finances

By Joan McCallum

The handwriting will soon be on the Harbor wall. Food prices at EWS's Student Union will be raised because of rising food and labor costs.

How high prices will go is up to the Student Union board of control and management. The Student Union board meeting, requested by Al Ogdon, student activities director, will be held at 6:30 p.m. Wednesday (today) to discuss proposed price rises. The last motion instructed the Harbor management that hours should be 6:30 a.m. and 7:30 p.m., unless some campus activity calls for a midnight closing. The dining service at Louise Anderson hall is open from 5:45 a.m.

Mr. William Kidd summed up the problem of operating the Harbor with, "It's a marvel of inefficiency." The physical layout of the Harbor makes it necessary to have at least three employees on duty to give good service.

But not only the wages of the summer employees are in question. Some of the women will be covered by civil service next year and will go on a higher pay scale as a result.

"We're just getting out of the hole and now you'll push us back," Miss Johnson objected, when board members questioned the necessity of a price rise. "We can't just break even every year. It costs money to have a clean place and we have no way to make students buy the dishes.

Mrs. LaVigne cited breakage as another big item at the Harbor. It costs 40 cents to replace a broken cup," she said, "and it seems like at least one gets broken every day.

The lesser, in agreement with the Student Union board of control, pays five per cent of the gross income to the board (Associated Students), and from this remainder must operate a food service charging prices set by the board and paying all costs of operation, including cleaning.

Dr. Robert Bender felt volume might be the answer to the Harbor's problem. He suggested serving more people with smaller portions, and got a quick reminder from Mr. Kidd that, "You're not 18 any more!"

After the thorough discussion on the merits of a five-cent coke and how the Harbor could better dispense Coke syrup, Mr. Kidd made a motion that the board request a suggested revised schedule of prices. The motion was seconded by Dr. Bender with the provision that the board meet Wednesday (today) to discuss proposed price rises.

"It costs money to have a clean place and now you'll push us back," Miss Johnson objected, when board members questioned the necessity of a price rise. "We can't just break even every year. It costs money to have a clean place and we have no way to make students buy the dishes."

Dorm Dwellers Finance New Dining Hall

Eight dollars more is what it will cost students who live in Eastern's dormitories during the 1962-63 year. The eight dollars per quarter increase was voted by the board of trustees at a recent meeting.

Dr. William Wilson To Head Eastern's Campus School

"Education is a complex process, and we must use a composite approach in dealing with it."

Dr. William C. Wilson, summer professor from California, said that he dislikes an either-or philosophy of education. "The child is a complex entity and the teacher must acknowledge this fact," he said.

Dr. Wilson, a native of Oregon, is instructing two courses in reading and one in arithmetic this summer. He instructed math at North Junior High School in Boise, Idaho. He instructed math and reading at North Junior High School in Bend, Oregon. He instructed math and reading at North Junior High School in Plains Elementary for a period of at least two years.

The Marshall scholarship is an expression of British gratitude for America's program of Marshall aid and has been in operation for nine years. Including this year's recipients, a total of 144 American college students will have benefited from it.

Included in the grant is cost of transportation from any part of the U.S. (including Hawaii and Puerto Rico) to a regional center for interview; tuition fees; allowance for books; $1,540 living expenses (more for married students); return fare to Britain; and a small sum for "approved travel" within the United Kingdom.

Students may attend any of Britain's 24 universities. St. Andrews' university, Scotland, dates back to 1411. Birmingham university has a unique Shakespeare library. Manchester is recognized in such widely separated fields as radio, electronics, and cotton technology.

Scholarships are granted on a basic not of intellect alone. The student's likelihood of playing an active part of university life and of making a contribution to Anglo-American understanding is also taken into consideration.

Eastern still has the lowest rates of any college in the Pacific Northwest. Seven of the hard-earned dollars will go for increased cost of board, with $1 more for room rates.

Women's rates, under the new rule, will be $218 for a single room and $263 for a multiple in Louise Anderson, with Monroe and Sewell halls charging $202 for a single and $263 for two or more.

Men will pay $105 for one or more persons to a room in Gary, Sutton, and Hudson halls.

Robert Carlton Voted Alumni President-Elect

Robert Carlton, of East Wenatchee, has been voted president-elect of the EWSC Alumni association. Carlton is principal of the new Vivian Sterling Junior High school in East Wenatchee.

Wayne Hall, EWSC Alumni association executive secretary, said that John Lothspeich, a former principal at West School, will be elected president of the EWSC Alumni association.

Ray Conrath, principal of the Spokane Evening High School, was elected vice president.

Named as board members were Howard H. Odell, Kennewick; Jean W. McClure, Bellevue, and Phil Franklin, Portland.

British Grants Go to 24 Students

Twenty-four American college students have been chosen as 1962-63 Marshall scholars, and will be granted passage to, living expenses, and tuition at a British university for a period of at least two years.

The Marshall scholarship plan is an expression of British gratitude for America's program of Marshall aid, and has been in operation for nine years. Including this year's recipients, a total of 144 American college students will have benefited from it.

Included in the grant is cost of transportation from any part of the U.S. (including Hawaii and Puerto Rico) to a regional center for interview; tuition fees; allowance for books; $1,540 living expenses (more for married students); return fare to Britain; and a small sum for "approved travel" within the United Kingdom.

Quinley Accepts Position With California College

By Mick Heax

Registrar C. W. Quinley, Jr., will leave for a new position in California next month after eight years at EWSC. His new position will be that of registrar at Stanislaus State College in Turlock.

Dr. Quinley was born and raised in the Modesto area which is 36 miles south of Stanislaus. Upon his graduation from San Jose State college he held a position of assistant registrar before coming to EWSC.

Mr. Quinley stated that he wished to return to his native state and California's state college system.

For eight years our goal has been to establish a smooth registration, acquire better equipment and improve the filing system. I believe this office has accomplished these, and many other objectives," he said.

Mr. K. Kennedy, admissions officer, who has worked with Mr. Quinley said, "EWSC is losing a fine person. I began my work here under his direction and always feared him to be most cooperative and willing to work long hours in an effort to make EWSC a better college. On the personal side, he proved to be a most generous, and consistent, loser when it came to buying a cup of coffee."

Mr. Quinley will not be here to observe the results of the new IBM registration procedures that will begin fall quarter. The credit

The Lindy

A good practical pen for everyone.

Everybody likes the Lindy. It writes nice.

Lots of students buy two or three at a time.

Maybe because it's only 25c. Maybe because there are twelve brilliant ink colors.

Or maybe just like to have two or three or twelve around.

Also nice to have around:

A Utility Ball Pen. The

Michael W. Quinley, Jr.
Two Captains Join ROTC Detachment

Captain Maeynard L. Nelson and Captain Robert M. Pugmire, Jr. have reported for duty with Eastera's ROTC detachment, bringing the unit to its full strength of six officers.

A native of Britton, S. D., Capt. Tain Nelson was commissioned in the armor branch through the ROTC program at Denver University in 1958, after serving four years as an enlisted man in the Air Force.

He has come to EWSC from the infantry officers course at Fort Benning, Ga.

A 1922 graduate of Pocatello High School and a 1926 graduate of Idaho State College, Captain Pugmire was commissioned in the infantry through the ROTC program.

He has served in Korea and came to EWSC from the Armored Officers Career course at Fort Knox, Ky.

Sgt. Delbert Crafty, a member of the ROTC staff for the past two years, has been assigned to the 7th Infantry division in Munster, Germany.

Library Hours

Opening hours for Hargreaves Library during fall quarter will be from 7:30 a.m. to 10 p.m. Monday through Thursday. On Friday the library will remain open until 5 p.m. Saturday's opening time will be 10 a.m. and closing time 5 p.m. Sunday's hours are from 3 to 10 p.m.

No Flying Offspring

Umbreling households that walk over or eat a new sterilant can forever deny the joys of parenthood. It's scheduled for commercial production by 1964.

Navy Recruiters Coming Friday

Local Navy recruiter, D. E. Erickson, MMHC, USN, has announced that a Navy Officer Information team led by Lt. Jack L. Bledsoe will be on Eastern's campus October 5 to talk to individuals who are interested in becoming navy officers.

The team from Seattle will interview and administer tests to those who are interested and meet the Eligibility requirements.

Selection for the Officer Candidate program leads to four months of intensive training at the Navy's Officer Candidate school at Newport, Rhode Island, and three years of active service as a commissioned officer.

Hypnosis To Be Demonstrated

All interested students are invited to attend a demonstration on hypnosis given by Dr. Loretta Fretwell for the Psychology club.

This meeting will be held October 5 at 7:30 p.m. in Martin hall, room 206.

A master calendar of all meetings and events is on display in the Student Center. All scheduled connected activities must be connected through the Assistant to Student Personnel Services, Mr. Al Ogden.

Social Chairmen Asked to Make Room Reservations

Social Chairmen should be aware that a master notebook is kept listing the faculty guests available for student events.

A master calendar of all meetings and events is on display in the Student Center. All school connected activities must be scheduled through the Assistant to Student Personnel Services, Mr. Al Ogden.

Rooms will be available for meetings of the various clubs and organizations on campus. These rooms will be scheduled on the first come, first serve basis. Meetings may be scheduled for the entire quarter by picking up and filling out the proper forms. These may be obtained in the Deans' Office.
