"A person does not hear sound only through the ears;
he hears sound through every pore of his body.

It permeates the entire being,
and according to its particular influence either slows
or quickens the rhythm of the blood circulation;
it either wakens or soothes the nervous system.

It arouses a person to greater passions
or it calms him by bringing him peace.

According to the sound and its influence
a certain effect is produced.

Sound becomes visible in the form of radiance.

This shows that the same energy which goes into the form of sound
before being visible is absorbed by the physical body.

In that way the physical body recuperates
and becomes charged with new magnetism."

~ from 'Mysticism of Sound' by Hazrat Inayat Khan ~

"Music is a higher revelation
than all wisdom and philosophy.

Music is the electrical soil
in which the spirit lives, thinks and invents."

~ Ludwig van Beethoven ~

Music was my refuge.

I could crawl into the space between the notes
and curl my back to loneliness.

~ Maya Angelou ~
