"Music is a higher revelation  
than all wisdom and philosophy.  
Music is the electrical soil  
in which the spirit lives, thinks and invents."  
~ Ludwig van Beethoven ~

"A person does not hear sound only through the ears;  
he hears sound through every pore of his body.  
It permeates the entire being,  
and according to its particular influence either slows  
or quickens the rhythm of the blood circulation;  
it either wakens or soothes the nervous system.  
It arouses a person to greater passions  
or it calms him by bringing him peace.  
According to the sound and its influence  
a certain effect is produced.

Sound becomes visible in the form of radiance.  
This shows that the same energy which goes into the form of sound  
before being visible is absorbed by the physical body.  
In that way the physical body recuperates  
and becomes charged with new magnetism."  
~ from 'Mysticism of Sound' by Hazrat Inayat Khan ~

" Music is well said to be the speech of angels;  
in fact, nothing among the utterances allowed to man  
is felt to be so divine.  
It brings us near to the infinite."  
~ Thomas Carlyle (1795 - 1881) ~

"I think music in itself is healing.  
It's an explosive expression of humanity.  
It's something we are all touched by.  
No matter what culture we're from,  
everyone loves music."  
~ Billy Joel ~
