## ***Special Thanks To:***

First, I want to give thanks to God for always being my solid rock and firm foundation.

Thank you to Dr. Middleton for helping me grow as a composer and for letting me be free with my creativity and to be able to think outside the box.

Thank you to Lora Roosendaal, Julia Salerno and Amanda Howard-Phillips for being my violin professors, for helping me not to be afraid to perform and to be confident when I play. This has helped me become the violinist I am today.

Thank you to Dr. Marshall for being an awesome conductor in orchestra and allowing me to grow as a musician.

Thank you to Professor Rednour for teaching me that it's okay to make BOLD mistakes but play with confidence. Also, showing me not to read music note by note but making every note have a meaning.

Thank you to all of the EWU faculty for allowing me be a part of the EWU music department family.

Thank you to all my friends who encouraged me by believing in me and making my music speak and come to life.

Finally, thank you to my family if it wasn't for all you who pushed me to follow my dream I wouldn't be here where I am today.

Thank you all so much for being supportive on my journey to follow me dreams.

I couldn't have done it without you all!
